WHEREAS the French Government requested that the said vessel be returned to its former owners when the United States should no longer have need therefor; and

Pursuant to the authority vested in me by the Emergency Price Control Act of 1942, as amended, and particularly by section 1A (e) (2) (A) of said act as added by the Price Control Extension Act of 1946, I hereby determine that continuation of maximum prices applicable to 1946 crop dry edible beans announced March 15, 1946, would impede the necessary production of such commodity and that adjustments in such prices are necessary to obtain the necessary production. Existing uniform differentials shall be established for other grades. Maximum prices for unprocessed beans shall follow the differentials established in Administrative Notice No. 24 issued by Office of Price Administration on March 15, 1946.

The maximum prices for 1946 crop dry edible beans were announced on March 15, 1946. Since that time price advances on other crops have materially affected the price relationship of such crops to beans. Comparison with other crops competing for the same acreage show that beans will be at a price disadvantage under the prices announced on March 15, 1946. Unless returns on beans are comparable to those on other crops, the 1947 acreage probably will be lower than 1946. Records for large producing States show that when beans are at a price disadvantage in any particular year, the acreage is substantially reduced the following year. This may well lead to a position of extreme shortage and extreme prices for the 1946 crop. Production in 1947 must be substantially larger than the 1946 crop if minimum requirements are to be met.

The recommended prices will restore beans to price equality with competing crops and are calculated to deal with the immediate difficult situation as effectively as possible.

Issued this 30th day of August 1946.

[SEAL] CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

PART 965—MILK IN CINCINNATI, OHIO, MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 965.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq.; 10 F. R. 11791; 11 F. R. 7737), a public hearing was held July 18, 1946, upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. It is hereby found upon the basis of the evidence introduced at such hearings, in addition to the other findings made prior to or at the time of the original issuance of said order and of each amendment thereto (which findings are hereby ratified and affirmed, save only as such findings are in conflict with the findings hereinafter set forth), that:

(1) The order regulating the handling of milk in the said marketing area, as amended and as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Cincinnati, Ohio, marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in the said order, as amended and as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby amended, regulates the handling of milk in the same manner, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the said order, as amended and as hereby amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1946), were engaged in the production of milk for sale in the said marketing area.

It is hereby ordered, That such handling of milk in the Cincinnati, Ohio, marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce in milk or its products, shall from the effective date hereof be in compliance with the terms and conditions of the said order, as amended and as hereby amended; and the said order, as amended, is hereby amended as follows:

1. Delete § 965.6 (a) (1) and substitute therefor the following:

(1) Class I milk, $4.20: *Provided*, That from the effective date hereof to and including the delivery period of March 1947 the price for Class I milk shall be $5.00 less any dairy production or other subsidy payments made to producers by the United States Government.

2. Delete § 965.6 (a) (2) and substitute therefor the following:

(2) Class II milk, $3.75: *Provided*, That from the effective date hereof to and including the delivery period of March 1947 the price for Class II milk shall be $4.55 less any dairy production or other subsidy payments made to producers by the United States Government: *And provided further*, That the price for Class II milk shall not be less than the price for Class III milk plus 15 cents.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et. seq.)

Issued at Washington, D. C., this 27th day of August 1946, to be effective on and after the 1st day of September 1946.

Acting Secretary of Agriculture.

Approved: August 30, 1946.

(3) The issuance of this order, amending the aforesaid order, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1946), were engaged in the production of milk for sale in the said marketing area.

It is hereby ordered, That such handling of milk in the Tri-State marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce in milk or its products, shall from the effective date hereof be in compliance with the terms and conditions of the said order, as hereby amended; and the said order is hereby amended as follows:

PART 1010—SUSPENSION ORDERS

[Suspension Order S–966]

RUSSELL M. LARSON

Russell M. Larson, doing business as The Larson Lumber Company, is engaged in business as a building contractor in Neillsville, Wisconsin. On April 11, 1946, he filed an application on form CPA–4423 for authorization to construct a retail building office and display room to be used for retail sales of building materials and services to be located at South Grand Avenue, Neillsville, Wisconsin. In the application Russell M. Larson represented that he was the only operator in the city who would take a complete contract for construction. Based on these representations, the foregoing application was approved on April 15, 1946, in the amount of $4,500. These representations were false in that there were two contractors in the community who could take and perform a complete construction job. The furnishing of this false and misleading information subjected Russell M. Larson to the administrative action provided for by the provisions of § 944.18 of Priorities Regulation 1. In view of the foregoing, it is hereby ordered that:

§ 1010.966 *Suspension Order No. S–966.* (a) The authorization granted to Russell M. Larson on form CPA–4423, dated April 15, 1946 is hereby revoked.

(b) Neither Russell M. Larson, doing business as The Larson Lumber Company or under any other name, his successors or assigns, nor any other person shall do any construction on the premises

at South Grand Avenue, Neillsville, Wisconsin, including altering, putting up or completing any of the structures located thereon, unless otherwise authorized in writing by the Civilian Production Administration.

(c) Russell M. Larson shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Russell M. Larson, doing business as The Larson Lumber Company, or under any other name, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 1, Supp. 3 as Amended Aug. 30, 1946]

SMALL JOB ALLOWANCES AND CLASSIFICATION OF STRUCTURES AS TO SMALL JOB ALLOWANCES

§ 4700.4 (a) *What this supplement does.* Paragraph (d) of Veterans' Housing Program Order 1 provides that it is not necessary to get permission under the order to do one or more jobs on a structure if the cost of each job does not exceed the allowance given for the kind of structure or the kind of job involved. This supplement sets forth the small job allowances generally applicable to individual structures of various classes and lists certain specific structures falling within each class. The supplement also lists exemptions applicable to a particular kind of job. In addition, this supplement explains the rules for computing the cost of a job for the purpose of determining whether it comes within the exemption given under this supplement.

(b) *Classification of structures.* The small job allowances given under this supplement are based in general upon the kind of structure in which the job is to be done. They are not based upon the use to which the part of a structure being altered is to be put, except as provided in paragraph (c) of this supplement. If the job involved consists of changing a structure from one class to another class, the small job allowance applicable to the conversion is the allowance for the structure after the conversion, except where the conversion is from residential purposes to non-residential purposes, in which case the job is covered by paragraph (c) of this supplement. The allowance provided for in paragraph (c) is applicable to a job covered by that paragraph, even though done in a structure which, as a whole, would have a larger allowance under this paragraph. With the exception of jobs covered by paragraph (c) of this supplement, it is not necessary to get permission under VHP-1 to do any separate construction, repair, alteration or installation job, the cost of which does not exceed the allowance given below for the individual structure involved.

(1) The small job allowance under paragraph (b) of this supplement for a structure of the kind listed below is $400 per job.

Any individual house designed for occupancy by 5 families or less even though it is on the property of a commercial, utility, institutional or industrial concern and used for the purpose of housing employees of the commercial, utility, institutional or industrial concern.
A rectory or parsonage even though near a church and owned by a church.
A house on a campus owned by a college and occupied by a college official.
A boarding or rooming house designed for occupancy by 10 boarders or roomers or less.
A farmhouse or other housing accommodations on a farm (except a farm bunkhouse).
Row houses separated by party walls are considered separate houses.
All private structures situated near and used in connection with one to five family houses, such as garages, piers, tool sheds, greenhouses and the like (except on farms, see paragraph (b) (2) of this supplement).

(2) The small job allowance under paragraph (b) of this supplement for a structure of the kinds listed below is $1,000 per job:

NOTE: The item "commercial or service garage" deleted from list of structures in paragraph (b) (2), Aug. 30, 1946.

A boarding or rooming house designed for occupancy by more than 10 boarders or roomers.
A dormitory or fraternity.
A building used for a social club.

An individual barn or a farm building on a farm (other than a farmhouse). Chicken hatcheries, plants used to raise mushrooms and the like and farms or ranches for raising fur-bearing animals are considered "farms", wherever situated. A building on a farm used primarily for processing the products of that farm falls within this paragraph. A building situated on a farm and used primarily to process materials for use on that farm likewise falls within this category. A "farm" means a place used primarily for raising crops, livestock, dairy products or poultry for the market.
A greenhouse whether on-farm (agricultural) or off-farm (commercial).
A building used for a nursery growing trees.
A bunkhouse for labor on a farm or on the site of another establishment having a $1,000 allowance.

An office building, whether or not owned and occupied exclusively by a transportation, utility or industrial concern (except where situated on the immediate premises of a plant having a $15,000 allowance; see paragraph (e) below).
A publicly owned pier not used for steamship or railway purposes.
Other commercial piers and piers situated near and used in connection with structures entitled to a $1,000 allowance.
A store.
A hotel.
An arena.
An apartment house or other residential building designed for occupancy by more than 5 families.

A publicly owned building used for public purposes.
A building used exclusively for charitable purposes.
Any other structure used for commercial or service purposes not covered by any other classification.
A tailor's or dressmaker's establishment making, repairing or altering articles for individual customers.

(3) The small job allowance under paragraph (b) of this supplement for a structure of the kinds listed below is $15,000 per job. Paragraph (e) of VHP-1 contains separate exemptions for certain maintenance and repair work in structures covered by this paragraph.

NOTE: A structure covered by this paragraph (including a structure in a plant listed below) has an allowance of $15,000 per job even though it is owned and operated by an educational, charitable or public organization. However, a house for 1 to 5 families owned or operated in connection with any plant listed below receives only the $400 per job allowance described in paragraph (b) (1) of this supplement.

A factory, plant or other industrial structure which is used for the manufacturing, processing or assembling of any goods or materials;
A structure at a logging or lumber camp or at a mine;
A structure used for or inconnection with the operation of a railroad, street railway, commercial airport, bus line or common or contract carrier by truck;

A plant primarily engaged in reconditioning or rebuilding articles or equipment for resale.
An off-farm plant engaged in pasteurizing, separating or bottling milk or making butter or cheese.
A scrap dealer's plant if it is primarily engaged in such processing operations as briquetting, pressing, or baling light iron, cutting up heavy melting steel, breaking up cast iron, detinning cans or smelting nonferrous materials for the purpose of making the scrap available for further use.
A cotton compress warehouse.
A building primarily used for a railroad station.
A roundhouse.
A railway or steamship pier or a pier situated near and used in connection with any structure or plant entitled to a $15,000 allowance (Warehouses and other buildings on a pier are considered part of the pier and are not separate structures).
A garage or work shop used primarily for a bus company or a common or contract carrier by truck.
An industrial or utility power house, whether public or private.
An industrial or utility pumping station for pumping gas, water or sewerage.
A telephone exchange.
A bunkhouse for employees of a plant covered by this paragraph, if located on the plant site.

A commercial or industrial research laboratory.
A radio telephone or radio telegraph station used as an international point to point radio communication carrier.

(4) The small job allowance under paragraph (b) of this supplement for a structure of the kinds listed below is $200 per job.

A billboard.
A private pier or bathhouse which is not situated near and used in connection with another structure.
A tourist cabin whether a single cabin or one of a group of separate cabins. A cabin is considered a separate cabin if it has independent outside walls even though the space between it and the next cabin is sheltered by a roof and is used as a garage. A management building used for operating the cabins is considered a commercial building under paragraph (b) (2) of this supplement.
All private structures situated near and used in connection with one to five family houses, such as garages, piers, tool sheds, green houses and the like even though these may be used in part or primarily for nonresidential purposes (except on farms, see paragraph (b) (2) of this Supplement).

(c) *Small job allowances for conversion from residential purposes.* Regardless of the small job allowance given under paragraph (b) of this supplement for a particular structure, the small job allowance applicable to a job consisting of conversion to non-residential purposes of any part (or all) of a building last used for residential purposes is $200.

(d) *Structures used for more than one purpose.* If a structure is used for more than one purpose and might, therefore, fall within more than one of the classes indicated above, the use to which the greatest part of the structure will be put (computed on the basis of the floor area where applicable) determines the allowance. For example, if a building has three apartments occupying three floors of the building and a store on the ground floor, it is primarily residential and falls under paragraph (b) (1) of this supplement. If a building is half residential and half commercial or industrial or

half residential and half agricultural, it is considered primarily residential. When alterations are being made to a building, the applicable small job allowance is the allowance applicable to the building as a whole under paragraph (b). Except in cases covered by paragraph (c), the purpose for which the particular space being altered was or is to be used does not effect the amount of the allowance.

(e) *Subordinate structures.* The allowance given for jobs on a structure applies to all subordinate or related structures situated near and used in connection with the structure. This means that office buildings, warehouses and garages situated on the immediate premises of an industrial or utility plant and used in the operation of the plant fall within paragraph (b) (3) of this supplement and the $15,000 per job allowance applies to them. However, a "downtown" office building, even though used exclusively for one industrial or utility company, does not come under this provision, but is under paragraph (b) (2) of this supplement like other office buildings. Houses, hotels and apartment houses are never considered to be used in connection with an industrial or commercial structure, except where they form an integral part of an industrial or other structure. Bunkhouses, on the other hand, if located on the plant site are considered to be used in connection with the related structures, if any, and have the same allowance as the related structure.

(f) *Separate jobs.* For the purpose of determining whether work is exempt from VHP–1 under this supplement, a related series of operations in a structure which are performed at or about the same time or as part of a single plan or program constitute a single job. No job which would ordinarily be done as a single piece of work may be sub-divided for the purpose of coming within the allowance given under this supplement. When a building or part of a building is being converted from one purpose to another all work incidental to and done in connection with the conversion must be considered as one job. So also if a building is being renovated, improved or modernized over an extended period all work done in connection with the modernization (other than the work done before the issuance of the order) must be considered as part of one job, even though separate contracts are let for different parts of the work. However, if related work on two or more separate structures is performed, the work is not considered one job but the work done in each structure must be considered separately under the rules stated above. For example, if two or more related structures are to be built and the cost of each does not exceed the small job allowance applicable to each structure under paragraph (b) of this supplement, each of these structures may be built without getting an authorization under VHP–1. See paragraph (f) of Supplement 2 to VHP–1 for an explanation of what jobs are exempt from the order as having been started befort it became effective.

(g) *How to figure cost.* For the purpose of determining whether a particular job is exempt from VHP–1 by this supplement, the "cost" of a job means the cost of the entire construction job as estimated at the time of beginning construction. (1) The cost of a job includes the following:

The cost or value of fixtures, mechanical equipment and materials incorporated in the structure, whether or not obtained without paying for them, except the items listed in paragraph (g) (2) below. (See Supplement 1 for definitions and illustrations of fixtures and mechanical equipment.)

The cost of paid labor engaged in the construction work, regardless of who pays for it, excluding, however, the cost of paid labor engaged in working on fixtures, equipment or materials the cost of which need not be included in the cost of the job under paragraph (g) (2). If it is impracticable to allocate the labor specifically to exempt or non-exempt items, the cost of all paid labor may be divided between the work on the two different classes of items in proportion to the value of the two classes of items.

The amount paid for contractors' fees.

NOTE: The item "unpaid labor" in paragraph (G) (2) deleted in its entirety Aug. 30, 1946.

(2) The cost of a job does not include the following:

The cost or value of previously used fixtures, previously used mechanical equipment and previously used materials, when these have been severed from the same structure or another structure owned by the builder (the owner or occupant of the building) and are to be used without change of ownership.

The cost or value of materials used in repainting or repapering an existing structure or any unchanged part of a structure. However, this exception does not apply to painting a new structure or new parts of a structure which has been altered.

The cost or value of materials used in installing loose fill, blanket or batt insulation in existing buildings or in installing insulation on existing equipment or piping.

The cost or value of materials which were produced on the property of the owner or actual or proposed occupant of the structure, except where he is in business of producing these materials for sale (this exception does not include materials or products assembled by the builder from new or used materials not themselves excepted).

The value of unpaid labor and the cost of paid labor engaged in working on fixtures, equipment or materials, the cost of which is exempt from the cost of the job.

The cost or value of machinery and equipment other than mechanical equipment.

Architects' and engineers' fees.

The cost of site preparation and other preparatory work which does not constitute beginning construction (Supplement 2 to VHP–1 contains illustrations of work which does not constitute beginning construction and the cost of which is not included in the cost of a job).

The information required to be set forth in such signed statement is as follows:

(1) The name and address of the seller filing the statement.

(2) The name of the sausage product so packed.

(3) The net weight of sausage packed in each 1 gallon jar.

(4) A copy of the computations required to be made by section 12 (c) (5).

1 a. Subitem (i) of Item 7 in the schedule of prices contained in section 12 (a) is amended to read as follows:

(i) Braunschweiger:	
Sewed hog bungs (H. C.)	$26.50
Other hog bungs (H. C.)	25.00

(NOTE: May be sold only to war procurement agencies, to licensed ship suppliers for resale only to ship operators, and to ship operators at the price listed herein. If sold to others, $1.00 per hundredweight must be deducted therefrom)	26.00

2. Subitem (v) of Item 8 in the schedule of prices contained in section 12 (a) is amended to read as follows:

(v) Special type chopped pork (NOTE: This product may be sold only if packed in 1 lb. cardboard cartons):	
Sheep casings (S. C.)	$37.50

3. Inferior subdivision (*a*) of section 12 (c) (1) (iii) is amended by changing the amount "$3.00 per cwt." appearing therein to read "$3.25 per cwt."

4. Inferior subdivision (*b*) of section 12 (c) (1) (iii) is amended to read as follows:

(*b*) If the sale is made by a person described in subdivision (i) of the definition of "peddler truck sale" in section 13 (a) to retailers and purveyors of meals located elsewhere than in Zone 9 North of the Potomac River; $2.75 per cwt.

5. Inferior subdivision (c) of section 12 (c) (1) (iii) is added to read as follows:

(*c*) If the sale is made other than as provided in preceding subdivisions (*a*) and (*b*) of this subdivision (iii) to retailers and purveyors of meals; $2.50 per cwt.

6. Subparagraph 5 of section 12 (c) is added to read as follows:

(5) Notwithstanding the pricing limitations established in section 2 (a) and paragraphs (a) and (b) of section 12, and further notwithstanding the provisions of subparagraphs (1), (2), (3) and (4) of this section 12 (c), any seller of a sausage product authorized to be produced and sold under this regulation who sells such product in vinegar and/or brine packed in 1 gallon glass jars shall compute his maximum price for such sausage product so packed in accordance with the following provisions:

(i) Determine the net weight of the sausage product packed in each gallon jar.

(ii) Determine the base price plus the applicable zone addition for the amount of sausage ascertained under foregoing subdivision (i) in the zone in which the product is being packed in 1 gallon glass jars if the sausage used is one of those priced either under the provisions of section 12 (a) or section 2 (a) (6); or determine the ceiling price for the amount of sausage ascertained under foregoing subdivision (i) in the zone in which it is being packed in one gallon glass jars if the sausage used is one of those priced under the provisions of section 2 (a) (2).

(iii) To the amount ascertained under foregoing subdivision (ii) add $0.60.

(iv) Divide the sum obtained under foregoing subdivision (iii) by .90. The result thus obtained shall be the seller's delivered ceiling price per gallon jar for such product so packed when sold to wholesalers, jobbers and intermediate distributors.

(v) The delivered ceiling price per gallon jar on all sales of such product made to retailers and purveyors of meals shall be ascertained by dividing the amount obtained under foregoing subdivision (iv) by .90 also. If such sales are made by wholesalers, jobbers or intermediate distributors, such seller's supplier's ceiling price for such product shall be considered the amount obtained under foregoing subdivision (iv).

Example: Assuming 6 pounds of Type 1 smoked pork sausage (H. C.) in Zone 7 are packed in a 1 gallon glass jar. The base price plus the applicable zone addition in Zone 7 for such sausage is $33.50 per cwt. Hence the cost of the 6 pounds of sausage so packed is $2.01 (.06 x $33.50). $0.60 added to $2.01 (subdivision (iii)) gives $2.61. $2.61 divided by .90 (subdivision (iv)) gives $2.90, the ceiling price for sales to wholesalers, jobbers and distributors. $2.90 divided by .90 (subdivision (v)) gives $3.22, the ceiling price for sales to retailers and purveyors of meals.

(vi) Each person other than retailers or purveyors of meals, who packs for sale or delivery any sausage product in vinegar and/or brine in 1 gallon glass jars shall comply with the reporting requirements of Section 6 (c).

7. Subdivision (i) of the definition of "Ship Chandler" contained in Section 13 (a) is amended by changing inferior subdivision (d) thereof to read as follows:

(d) whose total dollar volume of sales (whether of food or not) for the quarterly period consisting of the months of April, May and June, 1946, was $125,000 or more.

8. Subdivision (ii) of the definition of "Ship Chandler" contained in Section 13 (a) is amended by changing the phrase therein contained which reads "except that his 'anuual total dollar volume' of sales shall be less than $500,000.00" to read "except that his total dollar volume of sales for the quarterly period consisting of the months of April, May and June 1946, was less than $125,000.00".

9. Subdivision (ii) of the definition of "Ship Chandler" contained in Section 13 (a) is amended by changing the phrase therein contained which reads "and setting forth his annual total dollar volume of sales," to read "and setting forth his total dollar volume of sales for the aforesaid quarterly period."

10. Subdivision (iii) of the definition of "Ship Chandler" contained in section 13 (a) is amended to read as follows:

(iii) If a ship chandler started business after April 1, 1946, he shall be deemed to be a "Group II ship chandler." However, after he has been in operation for 3 months, he shall determine what class he is in upon the basis of his total dollar volume of sales made during his first three months of operations. If his total dollar volume of sales during his first three months of operations in $125,000.00 or more, he thereafter shall be deemed a "Group I ship chandler", but if his said total dollar volume of sales is less than $125,000, he shall continue to be deemed a "Group II ship chandler."

This amendment shall become effective September 1946.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of August 1946.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[3d Rev. RO 3,[1] Amdt. 21]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 4.2 is amended to read as follows:

SEC. 4.2 *Prohibited deliveries.* Notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person shall deliver sugar to any registering unit and no registering unit shall accept delivery of sugar from any person except upon the surrender to such person by the registering unit, pursuant to this order, of evidences covering the quantity of sugar so delivered. (A person who has a registering unit may not use the sugar he acquires for that registering unit for industrial or institutional use, unless he has a registered industrial or institutional user established, as the case may be. In such case his registering unit is considered a separate establishment and all restrictions covering the use of sugar for his industrial or institutional use apply to such use. Thus, he must, as an industrial or institutional user, give up evidences to his registering unit for any sugar he acquires or delivers for use in such operations. The registering unit must therefore keep separate records, etc., just as if it was owned by separate persons.)

[1] 11 F. R. 177.

2. Section 5.2 is amended to read as follows:

SEC. 5.2 *Deliveries by primary distributors.* Except as is otherwise provided herein, a primary distributor may deliver sugar to persons not primary distributors, only upon receipt of evidences in the manner set forth in this order. (A person who is a primary distributor may not use sugar he produces in making other products unless he is also a registered industrial or institutional user, as the case may be. In such case, he is considered a separate person with respect to such industrial or institutional use and all restrictions covering the use of sugar for such purposes apply. Thus, he must, as an industrial or institutional user, give up evidences to his primary distributor establishment for any sugar he acquires or delivers for use in such operations. All deliveries for such use must be reported on his primary distributor reports and evidences received therefor deposited in his primary distributor ration bank account.)

3. Section 24.1 (c) (8) is amended to read as follows:

(8) "Delivery" means the transfer of physical possession or the transfer of a document of title. The use by any person of sugar which he produces or holds for sale or delivery is considered a delivery of sugar to himself.

This amendment shall become effective August 30, 1946.

Issued this 30th day of August 1946.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Control Order 2,[1] Amdt. 3]

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Control Order 2 is amended in the following respects:

1. Section 1 (a) is amended by adding at the beginning thereof the following definition:

"Class 1 slaughtering establishment" means any place subject to inspection under the provisions of the act of March 4, 1907 (34 Stat. 1260), as amended 21 U. S. C. 71, and as extended by Public Law 602, 77th Congress 2d Session, approved June 10, 1942 (56 Stat. 351), and the rules and regulations promulgated thereunder, at which a "person" slaughters cattle, calves or swine, other than cattle, calves or swine, which he slaughters there for the owner of such livestock.

2. The definition of "custom slaughterer" in section 1 (a) is amended to read as follows:

"Custom slaughterer" means any person including a Class 1, Class 2 or Class 3 slaughterer, who slaughters cattle, calves or swine not owned by him for the owner of such livestock. However, a person who slaughters livestock owned by a Class 3 slaughterer at the livestock owner's Class 3 slaughtering establishment is not a custom slaughterer with respect to such slaughter.

3. The definition of "Class 1 slaughterer" in section 1 (a) is amended to read as follows:

"Class 1 slaughterer" means any person who has a Class 1 slaughtering establishment. A person who has his livestock custom slaughtered for him in a Class 1 slaughtering establishment, is a Class 1 slaughterer to the extent of such slaughter.

NOTE: A person who slaughters livestock in an establishment for which there has been issued a valid certificate under War Food Order 139, as amended, or who has livestock custom slaughtered for him in such an establishment to the extent to which such custom slaughter for him is covered by a valid certificate issued under War Food Order 139, as amended, is not subject to this order.

4. Section 2 (a) (2) and (3) are amended by inserting the words "Class 1 or" immediately before the words "Class 2 slaughterer" wherever these words appear.

5. A new section designated as section 3A is added to read as follows:

SEC. 3A. *Class 1 slaughterers who operated under War Food Order 75–7 need not register under this order.* (a) Any Class 1 slaughterer who on June 30, 1946 was authorized to slaughter livestock or have livestock custom slaughtered for him under War Food Order 75–7, issued by the Department of Agriculture on April 25, 1946, and who did not sell or transfer the slaughtering establishment covered by such authorization, and whose authorization was not cancelled or revoked pursuant to the provisions of War Food Order 75–7, need not apply for a license and quota bases under this Control Order 2. His authorization and quota bases under War Food Order 75–7 are treated, for all purposes of this order, as a license and quota bases under Control Order 2 until such time that he receives a license and quota bases from the Office of Price dministration or until such time that he is notified by the Office of Price Administration that he has been denied a license and quota bases. In no event shall any Class 1 slaughterer operate under the authority and quota bases granted under War Food Order 75–7 on or after November 1, 1946.

(b) Any Class 1 slaughterer who on June 30, 1946 was authorized to slaughter livestock or have livestock custom slaughtered for him under War Food Order 75–7 and whose quota bases for his September or October, 1946 quota periods were not established under War Food Order 75–7, may use as his quota bases for the interim quota period and the quota periods beginning on or after September 1, 1946, the quota bases established for his June, 1946 quota period. He may use such quota bases until such time that he receives a license and quota bases from the Office of Price Administration or until such time that he is notified by the Office of Price Administration that he has been denied a license and quota bases. In no event shall any Class 1 slaughterer use his June, 1946 quota period base on or after November 1, 1946.

In such a case the transferee of the establishment must apply to the Slaughter Control Program Section in the Washington Office, in writing, for issuance of a license and assignment of quota bases as a transferee of an establishment for which a valid authorization and quota bases were outstanding under War Food Order 75–7 and must give the following information:

(1) The name and address of the applicant.

(2) The name and address of the Class 1 slaughtering establishment.

(3) The name and address of the person who held an authorization under War Food Order 75–7 covering such establishment.

(4) The date on which the establishment was transferred to the applicant.

(5) Documents or other proof of the transfer.

After the Washington Office finds the conditions of this paragraph are met, it shall issue a license to the applicant and assign to him quota bases for the establishment. If the transferee applies by September 15, 1946, he may continue to operate the establishment until the license is received. The authorization and quota bases of the transferor of the establishment shall be treated as a transferee's authorization and quota bases for all purposes of this order. If such application is not made on or before September 15, 1946, the transferee may not slaughter any livestock after that date until he has made such application and received the license and quota bases applied for.

6. The heading of section 4 is amended to read as follows: "*Class 1 and Class 2 slaughterers who had livestock custom slaughtered for them.*"

7. Section 4 is amended by inserting the words "Class 1 or" immediately before the words "Class 2 slaughterer" wherever those words appear after the heading.

(1) The name and address of the slaughterer who formerly custom slaughtererd for him;

(2) The reasons why such custom slaughterer will no longer slaughter for him; and

(3) Where, and by whom, such slaughter will be done for him.

If the Washington Office in the case of a Class 1 slaughterer or the District Office in the case of a Class 2 slaughterer finds that the custom slaughterer refuses or is unable to continue to slaughter for the applicant, it shall permit the applicant to slaughter his livestock himself, or to have it slaughtered by the custom slaughterer named in his application. However, the Class 1 or Class 2 slaughterer must continue to serve the same general class of customers in the same areas that he had served previously. If he is permitted to have another custom slaughterer slaughter for him, he shall be subject, with respect to that custom slaughterer, to the provisions of paragraph (a) of this section just as if that custom slaughterer had formerly slaughtered livestock for him.

The amount he is permitted to slaughter each week is based on the following computation:

(1) List the total liveweight of livestock by species slaughtered during the period June 30, 1946 to September 1, 1946.

(2) Compute the number of weeks the establishment was operated (a fraction of a week is considered a full week).

(3) Divide the total weight of each species of livestock slaughtered by the number of weeks he operated.

(4) The result is the weekly quota base for each species of livestock.

(5) The weekly quota bases for each species is multiplied by the appropriate quota percentage for the applicable quota period.

Before the Class 1 slaughterer may slaughter any livestock under this section, a copy of this commutation must be forwarded to the Washington Office together with the application for a license. Within fifteen (15) days after he obtains his license he shall report the amount of his slaughter for each week.

(d) If the Class 1 slaughterer described in paragraph (a) did not slaughter livestock between June 30, 1946 and September 1, 1946, he may not slaughter any livestock until he has received a license and quota bases for the establishment from the Washington Office.

24. The heading of section 16 is amended to read as follows: "*Registration of veterans as Class 1 and Class 2 slaughterers.*"

25. Section 16 is amended by inserting the words "Class 1 or" immediately before the words "Class 2 slaughterer(s)," wherever those words appear after the heading.

26. Section 17 (a) is amended by deleting the words "Class 1 or" appearing in the first sentence.

27. Section 17 (b) is added to read as follows:

(b) Any Class 1 slaughterer who needs an adjustment, or other relief, may apply in writing to the Slaughter Control Program Section in the Washington Office. He must state in his application all facts which he claims show his need for the adjustment, or relief, and the nature and amount of the adjustment or relief he requests. He must also give any other information that the Washington Office requests.

28. Section 21 (a) is amended to read as follows:

(a) Within ten (10) days after the end of each quota period, every Class 1 slaughterer; Class 2 slaughterer and custom slaughterer must file a report on OPA Form MC–6 in duplicate. A Class 1 slaughterer may at his option file a copy of Form FDC–75–1 (monthly livestock slaughter report required by the Department of Agriculture) instead of OPA Form MC–6; *Provided*, That the information reported on Form FDC–75–1 contains all of the information the Class 1 slaughterer is required to furnish on OPA Form MC–6. Every Class 1 slaughterer must file his report with the Slaughter Control Program Section in the Washington Office. Every Class 2 slaughterer and custom slaughterer must file his reports with his District Office. The report must give all information called for by the Form. If more than one of his establishments are registered with the same District Office the report must include all these establishments. If the establishments are registered with different District Offices the slaughterer must file with each District Office a report which shall include all the establishments registered with that Office. A report for the interim quota period must be made on OPA Form MC–6 at the same time that the Class 1 or Class 2 slaughterer makes his report for the first quota period beginning on or after September 1, 1946.

29. Section 21 (b) is amended by inserting the words "Class 1 and" immediately before the words "Class 2 slaughterer" appearing in the first sentence.

30. Section 23 is added to read as follows:

SEC. 23. *Delegation of Authority.* (a) Any Regional Administrator may delegate to a District Director within his region the authority to deny application filed under sections 14, 15, 16 and 17.

PART 1305—ADMINISTRATION

[SO 162, Amdt. 3 (§ 1305.190)]

ADJUSTMENT OF MAXIMUM PRICES FOR MANUFACTURERS AND MANUFACTURING RETAILERS SALES OF CERTAIN FOOTWEAR

A statement of the considerations involved in the issuance of this amendment and issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 162 is amended in the following respects:

1. Paragraph (a) (2) of section 2 is amended by adding a new paragraph at the end thereof to read as follows:

If the item of footwear was properly priced in accordance with Order 13 under § 1499.3 (e) (3) of the General Maximum Price Regulation it must be the same as an item of footwear that was previously priced under § 1499.2 (a) of the General Maximum Price Regulation, except that a change has been made from other soling material to a non-marking synthetic rubber sole or to a non-marking synthetic rubber sole and heel.

2. Step 1 of section 3 is amended to read as follows:

Determine the net maximum price of the item of footwear properly established under § 1499.2 (a) of the General Maximum Price Regulation, or in accordance with Order 13 under § 1499.3 (e) (3) of the General Maximum Price Regulation, or of the line of footwear established under section 3.1 of Supplementary Regulation 14E, exclusive of any adjustment in said maximum price permitted under section 3.13 of Supplementary Regulation 14E or any adjustment granted by Order issued by the Office of Price Administration under § 1499.75 (a) (10) of Supplementary Regulation 15 or under Supplementary Order 133.

3. Paragraph (c) of section 3 is amended to read as follows:

(c) *For an item of footwear containing kid or goat leather.* (1) Where the adjusted maximum price determined under paragraph (a) or (b) of this section for an item of footwear containing kid or goat leather has been increased under this paragraph (c) and reported to the Office of Price Administration on Form 6064-2847 prior to September 3, 1946, the total adjusted maximum price so determined under this paragraph (c) may be further increased by an amount equal to 24.4% of the total cost so reported for the actual amount of kid or goat leather used in the manufacture of the particular item. Where the resulting adjusted maximum price contains a fraction of a cent which is one half or more, the fraction may be increased to the next nearest cent.

Example: Assume that the men's dress shoe, Style 543, for which you determined an adjusted maximum price of $5.63 net, to retailers, under paragraph (b), contains 1.7 square feet of kid leather. On August 1, 1946, on OPA Form 6064-2847, you reported a current cost for such kid leather of 49¢ per square foot (or 83¢ total). Under paragraph (c) you multiplied 83¢ by .086 resulting in a total of 7¢ which you added to your adjusted maximum price. Consequently, the adjusted maximum price which you determined under paragraph (c) and reported to the OPA was $5.70 net ($5.63 plus 7¢). Now under subparagraph (c) (1) you take the total cost of 83¢ which you reported on August 1, 1946, for the actual amount of kid leather used in Style 543 and multiply that by .244 resulting in a total of 20¢ which may be added to the previously adjusted maximum price of $5.70. The adjusted maximum price under subparagraph (c) (1) for Style 543 is $5.90 net, to retailers.

(2) Where the adjusted maximum price for an item of footwear containing kid or goat leather was not increased in accordance with the provisions of paragraph (c) of this section prior to September 3, 1946, the adjusted maximum price properly computed under paragraph (a) or (b), above, for such an item may be increased by an amount equal to 26.2% of the "current cost" of the actual amount of kid or goat leather used in the manufacture of the particular item. Where the resulting adjusted maximum price contains a fraction of a cent which is one half or more, the fraction may be increased to the next nearest cent. For purposes of this subparagraph (c) (2) "current cost" means the net invoice price, after trade and quantity discounts but before term discounts, actually paid by the manufacturer to his supplier (not to exceed his supplier's maximum price before term discounts) at the time he reports his adjusted maximum price to the OPA on OPA Form No. 6064-2847.

Example: Assume that you are manufacturing a new style of men's dress shoes, Style No. 1000, for which you have determined a maximum price of $5.00 net, to retailers, under Section 1499.2 (a) of the GMPR. The adjusted maximum price under paragraph (b) of this order is $5.47. This style contains 2.1 square feet of kid leather which currently costs you 54¢ per square foot (or $1.13 total). Under subparagraph (c) (2) of this section you multiply $1.13 by .262 resulting in a total of 30¢ which may be added to the adjusted maximum price. Consequently, the adjusted maximum price to retailers under this order for your men's dress shoe, Style 1000, is $5.77 net.

(3) With respect to a line of footwear, the amount of increase permitted under subparagraph (1) or (2) of this paragraph shall be computed for each item containing kid or goat leather in the line and the adjusted maximum price for such an item in the line may be increased by the amount computed for that item. However, where two or more items in a line of footwear contain kid or goat leather, the seller may determine a single adjusted maximum price for the items within the line containing kid or goat leather, which shall be the weighted average adjusted maximum price for all such items in the line. The weighted average shall be based upon sales during any six successive months in the twelve months period immediately prior to the date of reporting the adjusted maximum price as required in section 4 (b).

Example: Suppose a manufacturer had a line of footwear, style Nos. 100 to 110, inclusive, for which he established a net maximum price under Section 3.1 of SR 14E to the GMPR of $6.00 net per pair, to retailers. This is a line of women's shoes, and under paragraph (b) of this section he determines an adjusted maximum price of $6.54 per pair ($6.00 + .33 + $2.75 x .975 = $6.54). Style Nos. 102, 106 and 109 contain 1.5 square feet, 1.7 square feet and 1.8 square feet of kid leather, respectively, at a current cost of 65¢ per square foot. Under subparagraph (c) (2) of this section the adjusted maximum price for each of these styles is as follows:

For Style No. 102—$6.80 e. g. $6.54 + $.975 total cost of kid leather × .262 or 26¢ = $6.80
For Style No. 106—$6.83 e. g. $6.54 + $1.105 total cost of kid leather × .262 or 29¢ = $6.83
For Style No. 109—$6.85 e. g. $6.54 + $1.17 total cost of kid leather × .262 or 31¢ = $6.85

The manufacturer in the six months period from September 1, 1945 to February 28, 1946 sold Style Nos. 102, 106 and 109 in the following amounts:

2,300 pairs of Style 102.
1,900 pairs of Style 106.
850 pairs of Style 109.

Consequently, if he elects to do so, the manufacturer may determine a single weighted average adjusted maximum price for Style Nos. 102, 106 and 109 as follows:

Style No. 102:	$6.80 × 2300 =	$15,640.
Style No. 106:	$6.83 × 1900 =	$12,977.
Style No. 109:	$6.85 × 850 =	$ 5,822.
	50 50	$34,439

$34,439 divided 5050 pairs = $6.82 per pair. $6.82 is the weighted average adjusted maximum price under subparagraph (c) (3) at which he may sell Style Nos. 102, 106 and 109 in his line of footwear. The adjusted maximum price under Supplementary Order 162 for Style Nos. 101, 103, 104, 105, 108 and 110 remains $6.54 per pair.

Where the seller determines a weighted average adjusted maximum price under this subparagraph for the items in a line of footwear containing kid or goat leather, he shall, before making a sale or delivery at such price, report the following information to his District Office of the Office of Price Administration.

(i) State the name and address of the seller.

(ii) State the Style Numbers in the line of footwear which contain kid or goat leather.

(iii) State the six successive month period selected and the number of pairs of each style number listed in item (ii), above, sold during such period.

(iv) State the weighted average adjusted maximum price determined for the style numbers listed in Item (ii) above, and show how determined.

Where a new style of footwear containing kid or goat leather is added to a line of footwear for which the seller has determined a weighted average adjusted maximum price for the items containing kid or goat leather, the seller must recompute the weighted average adjusted maximum price using for the new style the projected sales for the next six months. In such a case, the seller must report such a change to his District Office of the Office of Price Administration, including the adjusted maximum price of the item and the projected sales for the new style.

4. The first sentence of section 4 (b) is amended to read as follows:

(b) *Reports.* Except for an adjusted maximum price determined under section 3 (c) (1), no person may deliver an item of footwear at an adjusted maximum price established under this order until he has mailed the report required by this section.

This amendment shall become effective September 3, 1946.

NOTE: All record keeping and reporting requirement of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 3d day of September 1946.

PART 1305—ADMINISTRATION

[SO 180 (§ 1305.232)]

METHODS OF PRICING NEW PAPER AND PAPERBOARD PRODUCTS AND RELATED SERVICES

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

SECTION 1. *Purpose.* This order provides methods of establishing manufacturers' maximum prices for paper and paperboard products and related services for which maximum prices have not been established for any particular manufacturer subject to this order. Any reference hereinafter to a product shall include related services. This order does not affect any maximum price established prior to September 7, 1946 nor may any manufacturer recompute under this order any maximum price established prior to September 7, 1946. However, the OPA may by specific letter-order approve, disapprove, or revise any maximum prices which prior to September 7, 1946 had been established under any of the new product pricing provisions listed in section 4 of this order. Maximum prices established by reason of a transfer clause in any regulation are not covered by this order.

SEC. 2. *Applicability.* This supplementary order is applicable only with respect to paper and paperboard products covered by the following regulations:

General Maximum Price Regulation.
Revised Maximum Price Regulations: 129, 130, 187, 369, 451.
Maximum Price Regulations: 32, 140, 182, 307, 359, 365, 449, 450, 459, 463, 480, 567.

SEC. 3. *Methods of computing maximum prices.* In establishing a maximum price for any paper or paperboard product covered by any of the regulations listed in section 2 above, you shall compute your maximum price in accordance with the first applicable paragraph of this section 3. If paragraph (a) is applicable, you may not use the following paragraphs (b), (c) or (d), and similarly with paragraphs (b) and (c).

(a) *In-line method of computing maximum price.* (1) If the new product is similar to a product for which a maximum base price is specified in dollars and cents under the applicable regulation but has minor variations in quality, size, basis weight or style that do not significantly affect its end use, the maximum price shall be the maximum price listed under the applicable regulation. Where significant variations exist the differentials specified in the applicable regulation shall apply or, if no such differentials are specified, the customary industry differentials shall apply.

(2) (i) If a method of establishing a maximum price for the same or similar product is not provided by paragraph (a) (1) above, but the product is currently manufactured by other firms in the industry, the price of the new product shall be in line with those of the same or most nearly similar products of the most closely competitive sellers. In general, the item of largest volume among the same or most nearly similar products will be used for this purpose. In the event that the price of the similar product has been adjusted under the individual adjustment provisions, the price prior to any such adjustment shall be used, except as provided in Section 4 (b) below.

(ii) Products will be considered to be the same if they have the same end use and if all the qualities essential to the end use are identical. Products will be deemed similar if they have the same end use and if all the qualities normally essential to the end use are present. A condition of similarity shall exist only within the narrowest trade classifications. Minor variations in size, basis weight, quality or style not significantly affecting the end use shall not exclude a condition of similarity, if customary industry differentials exist and may be applied to the price of the similar product to reflect the variations in the product for which a price is sought.

(iii) For the purposes of this order most closely competitive sellers means those sellers most closely comparable to you with respect to the following characteristics: (1) size, (2) variety and quality of products, (3) market, (4) means and methods of distribution and (5) location.

(3) Within ten (10) days after determining a maximum price for a product under this paragraph (a), the manufacturer shall report such price to the Paper and Paper Products Branch, Office of Price Administration, Washington 25, D. C., together with a statement setting forth the following information:

(i) Complete description, specifications and, if possible, a sample of the product;

(ii) The price and specifications of the same or most nearly similar product of at least two competitors (or of one, if

there is only one producer), if the price is determined under subparagraph (a) (2) above; or the product, listed in the appropriate regulation, that is most nearly similar, if the price is determined under subparagraph (a) (1) above:

(iii) The bases upon which the products were selected as the most nearly similar products.

(4) Prices determined under this paragraph (a) may be charged, and shall be deemed approved, 21 days after reporting the same, subject to nonretroactive revocation or modification at any time by the Office of Price Administration.

(b) *Method of computing maximum price by cost comparison.* (1) If the maximum price for a new product cannot be determined under paragraph (a) of this section, the product shall be priced by comparison with a comparable product which you manufacture. In general, a product is comparable if its end use is the same and most of its primary qualities are nearly similar. A maximum price established under this paragraph shall be computed in the following manner:

(i) *Selection of comparable product.* A product comparable to the product to be priced shall be selected from among the items you manufacture for which you have a maximum price established under the appropriate regulation. This product shall be used as a basis for computing the new price. A product shall not be deemed comparable if it is not in current production or if its manufacturing cost varies more than 25% from the manufacturing costs of the product to be priced. If there is more than one product that can be considered comparable, you shall use the comparable product you currently produce in largest volume.

(ii) *Determination of manufacturing costs.* You shall determine the manufacturing costs (excluding selling, general and administrative expenses) per unit for the comparable product and for the new product for the most recent accounting period. Manufacturing costs for both products shall reflect material and conversion costs during the same calendar period. Such costs shall be set forth on the OPA cost form applicable to these products.

(iii) *Determination of maximum price.* The maximum price shall be determined by multiplying the manufacturing costs of the new product by the ratio of the maximum price to manufacturing cost of the comparable product determined in accordance with paragraph (ii) above.

(iv) Discounts and allowances applicable to the comparable product shall be correspondingly applicable to the new product and shall be separately specified in reporting the price.

(2) Within ten (10) days after determining a maximum price for a product under this paragraph (b), the seller shall report such price to the Paper and Paper Products Branch, Office of Price Administration, Washington 25, D. C., together with the statements required in subparagraph (ii) and (iii) above and a statement setting forth all the relevant facts used in arriving at the maximum price. The price so reported may be charged, and shall be deemed approved 21 days after reporting the same, subject to nonretroactive revocation or modification at any time by the Office of Price Administration.

(c) *Method of computing maximum price for special products.* (1) Only products which are substantially different from any product currently manufactured by you, or a competitor, and which cannot be priced under the provisions of paragraphs (a) or (b) are eligible to be priced under this paragraph (c). If a product is manufactured for a new end use for which standard products are not suitable or if it possesses qualities substantially different from standard products which render it more adaptable to a particudar end use, it shall be considered eligible for pricing as a special product under this paragraph.

(2) The seller shall file an application for approval of a maximum price with the Paper and Paper Products Branch, Office of Price Administration, Washington 25, D. C., prior to the sale of any product for which he is requesting a maximum price under this paragraph. The application shall set forth the following information:

(i) The reasons why the applicant cannot price the products under paragraphs (a) or (b) above:

(ii) Complete description, specifications and end use of the product and, if possible, as sample:

(iii) A statement for the most recent accounting period, on the applicable OPA cost form, which shall include:

(*a*) *The manufacturing costs*, excluding general, selling and administrative expense, and

(*b*) *The applicable discounts, allowances and differentials.*

(iv) *Determination of maximum price.* The proposed maximum price shall be determined by multiplying manufacturing costs under (iii) (*a*) above by the ratio of overall company net sales (after freight, allowances and discounts) to cost of sales (excluding general, selling and administrative expense), for your most recently completed fiscal period and applying to the resultant the factors under (iii) (*b*) above.

(v) Profit and loss statement for the most recent fiscal period if such a statement has not already been submitted.

(3) However, you may accept orders and deliver at the proposed maximum price, provided that you state on the quotation and invoice that such price will be adjusted, if necessary, to conform with the maximum price established by this Office.

(4) Unless OPA or a duly authorized representative thereof, shall by order sent to the applicant within 21 days from the filing of such application approve, disapprove, adjust or amend such application, it shall be deemed to have been approved, subject to non-retroactive written disapproval or adjustment by OPA at any later time. If OPA requests further information after the initial filing, such 21 day period shall commence from the time of filing of such additional information.

(d) *Authorization of maximum price.* (1) If you are unable to determine a maximum price for a product under paragraphs (a), (b) or (c) above, you shall file an application for approval of a maximum price with the Paper and Paper Products Branch, Office of Price Administration, Washington 25, D. C. The application shall set forth:

(i) Complete description and specifications of the product involved;

(ii) The reasons why such product cannot be priced under paragraphs (a), (b) or (c) above;

(iii) The maximum price you propose, together with a detailed explanation of the method by which you calculated such price;

(iv) The reasons why you believe the proposed price to be in line with the level of maximum prices established under the applicable regulation.

(2) Unless OPA or a duly authorized representative thereof shall by order sent to you within 21 days from the filing of such application approve, disapprove, adjust or amend such application, it shall be deemed to have been approved, subject to nonretroactive written disapproval or adjustment at any later time by OPA. If OPA requests further information after the initial filing, such 21 day period shall commence from the time of filing such additional information.

SEC. 4. *Relationship of this supplementary order to other regulations.* (a) With respect to paper and paper products the preceding sections are added to the regulations listed below and shall supersede in appropriate cases these sections or paragraphs of the regulations listed below: *Provided, however,* That all maximum prices hitherto established under those sections or paragraphs of the regulations listed below shall not be affected:

MPR 32	Appendix A (g), Appendix B (g) and Appendix C (b) (3).
MPR 140	Appendix B (c) (2).
MPR 307	Appendix G (c).
MPR 359	Section 1347.566.
MPR 499	Appendix A (b) (2) and (4).
MPR 450	Appendix C, the three paragraphs following the listing of grades, (a) and (b) Appendix F.
MPR 459	Appendix A (d) and (e).
MPR 463	Appendix A (c) (2), (d) and (e).
MPR 480	Appendix A (a) (2) and (3).
MPR 567	Appendix B (a) and (b).
GMPR	Section 1499.2 (a) (2), (b) and Section 1499.3 (b).
RMPR 129	Appendix A (c) and (e).
RMPR 187	Appendix A (b) and (c).
RMPR 451	Appendix A (b) (2), Appendix B (b) and (c).

(b) When in the judgment of the Administrator the establishment of a maximum price under paragraphs (a), (b), (c) or (d) of section 3 would operate as a deterrent to the manufacture of the particular commodity, and the manufacturer could qualify for an adjustment of this maximum price, then the Administrator may establish a maximum price that would remove the financial hardship involved in the manufacture of the new product.

(c) The provisions of this order shall apply to the pricing of new paper and paper products covered by any of the regulations listed in Section 2 above, even though specific provision therefor has not been provided therein.

This order shall become effective September 7, 1946.

NOTE: The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Issued this 3d day of September 1946.

[Directive 134[1]]

PART 4003—SUPPORT PRICES: SUBSIDIES

CONTINUATION OF COAL TRANSPORTATION SUBSIDY PAYMENT PROGRAM

In view of existing coal shortages which interfere with efficient collier operation, the uncertainty of an adequate supply of suitable shipping and the consequent effect upon costs and prices which would follow the termination of the subsidy on transportation of coal under the Office of Price Administration Revised Compensatory Adjustment Regulation No. 1, it appears that the maximum necessary supplies of coal for New England and the New York harbor area may not be obtained for the ensuing year unless this subsidy is continued.

I hereby find that continuation of the subsidy program heretofcre in effect under Revised Compensatory Adjustment Regulation No. 1 of the Office of Price Administration is necessary to insure the maximum necessary production and distribution of coal in the New England and New York harbor area, to maintain and administer price ceilings with respect to coal, and to prevent price rises inconsistent with the stabilization laws.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F. R. 7871), Executive Order 9328 of April 8, 1943 (8 F. R. 4681), Executive Order 9599 of August 18, 1945 (10 F. R. 10155), Executive Order 9651 of October 30, 1945 (10 F. R. 13487), Executive Order 9697 of February 14, 1946 (11 F. R. 1691), Executive Order 9699 of February 21, 1946 (11 F. R. 1929), and Executive Order 9762 of July 25, 1946 (11 F. R. 8073), *It is hereby ordered:*

1. The Reconstruction Finance Corporation is directed to make financial arrangements to continue to make payments, upon certification by the Office of Price Administration, on claims filed by applicants pursuant to its Revised Compensatory Adjustment Regulation No. 1 in respect of coal received between June 30, 1946 and November 1, 1946.

2. The Office of Price Administration is directed to continue to certify to Reconstruction Finance Corporation for payment at not to exceed existing rates claims for compensatory adjustments filed by applicants pursuant to said Revised Compensatory Adjustment Regulation No. 1 in respect of coal received between June 30, 1946 and November 1, 1946: *Provided*, That the Office of Price Administration may reduce or eliminate the amount of subsidy payment on coal received during the period July 1, 1946 to and including July 25, 1946 upon such terms and conditions as it may prescribe where it is determined by the Office of Price Administration that coal dealers increased their ceiling prices during such period above maximum prices in effect on June 30, 1946.

3. The Office of Price Administration shall not certify for payment any claim based upon transportation costs in excess of (a) the lowest published common carrier rate in effect at the time of shipment or (b), if no common carrier rate was in effect, the Office of Price Administration maximum rate in effect on June 30, 1946, or such other maximum rate as may subsequently be established by the Office of Price Administration.

4. In certifying applications for payment, the Office of Price Administration may take into consideration higher water transportation costs which may result from the return of the collier fleet from War Shipping Administration to private operation.

5. The Office of Price Administration is further directed to formulate a plan for the reduction of the subsidy, to become effective November 1, 1946, with emphasis on encouraging the return to the use of normal methods of transportation.

Issued and effective this 30th day of August 1946.

That the monthly rates of pension payable to veterans of the Spanish-American War, including the Boxer Rebellion and Philippine Insurrection, under service pension laws reenacted by the Act of August 13, 1935 (49 Stat. 614; U. S. C., title 38, sec. 368, Public Law 269, Seventy-fourth Congress); not included in the Act of May 24, 1938 (52 Stat. 440; U. S. C., title 38, sec. 370, Public Law 541, Seventy-fifth Congress); or the Act of March 1, 1944 (58 Stat. 107; U. S. C., title 38, secs. 365, 370, Public Law 242, Seventy-eighth Congress); or sections 2 and 3 of this Act, are hereby increased by 20 per centum.

SEC. 2. That the rate of pension for total disability under section 3 of the Act of June 2, 1930 (46 Stat. 492; U. S. C., title 38, sec. 366b, Public Law 299, Seventy-first Congress), is hereby increased by striking out "$30" and inserting in lieu thereof "$50": *Provided*, That all persons entitled to service pension under the said section 3 of the Act of June 2, 1930, upon reaching the age of sixty-five years, shall, upon making proof of such fact, be entitled to receive a pension of $50 per month.

SEC. 3. Section 4 of the Act approved June 2, 1930 (46 Stat. 493; U. S. C., title 38, sec. 366c, Public Law 299, Seventy-first Congress), is hereby amended by striking out "$50" and inserting in lieu thereof "$65."

SEC. 5. The increases provided by this Act shall be made effective the first day of the first calendar month following the date of enactment hereof.

2. *Automatic adjustments.* It will be observed that there is no provision under the law for an increase of the rates of pension now being paid pursuant to Public Law 541, 75th Congress, or Public Law 242, 78th Congress, that is, the $100.00 rate for aid and attendance and the $75.00 rate for total disability or age sixty-five. Adjustments, therefore, will be limited to those cases where the basic rate is less than $75.00 monthly. It is not contemplated that a claim for increase on account of age sixty-five will be required by veterans with seventy but less than ninety days service if payments are being made under the act of June 2, 1930, Public Law 299, 71st Congress, if proof of age is of record. The Payees Accounts Service will review the account cards, Code 5B, of veterans of the Spanish-American War, the Boxer Rebellion, and/or the Philippine Insurrection, and will adjust the payments to the veteran in accordance with the following table.

	Prior laws		Present laws	
	90 days	70 days	90 days	70 days
One-tenth disability	$20	$12	$24	$14.40
One-fourth disability	25	15	30	18.00
One-half disability	35	18	42	21.60
Three-fourths disability	50	24	60	28.80
Total disability	------	30	------	50.00
Aid and attendance	------	50	------	65.00
Age 62	30	12	36	14.40
Age 65	------	------	------	50.00
Age 68	------	18	------	50.00
Age 72	------	24	------	50.00
Age 75	------	30	------	50.00

If the account card shows pension is being paid under the act of June 2, 1930, Public Law 299, 71st Congress, and that an adjudication has previously been made as to the seventy day veteran's age, the award will be adjusted to the $50.00 rate if age sixty-five will be attained on or before September 1, 1946, or prospectively if age sixty-five will be attained thereafter in cases where pension is currently being paid for disability or for age.

3. *Cases not automatically adjusted.* The Payees Accounts Service will furnish the Claims Division, Veterans Claims Service, a 3 x 5 card identifying each case not automatically adjusted in accordance with the foregoing table. These cases will include those receiving benefits under acts prior to the act of June 2, 1930, Public Law 299, 71st Congress, Public Law 314, 78th Congress, those veterans whose awards have been reduced because of hospitalization and not restored under Public Law 662, 79th Congress, to the full amount authorized by this act, cases where the rate specified in the foregoing table is not presently in effect, cases involving Medal-of-Honor pension, and any other case where there is doubt as to the proper adjustment.

4. *Awards action in non-adjusted cases.* Upon receipt of the 3 x 5 cards specified in paragraph 3 hereof, the case files will be drawn and reviewed, and amended awards will be prepared in accordance with the regular awards procedure reflecting the rate of pension authorized by Public Law 611, 79th Congress.

5. *Proof of age.* Proof of age is a factor in only that group of cases where service pension is being paid for age or for less than total disability and the period of service was seventy days and less than ninety days. Where benefits are being paid under section 3 of the act of June 2, 1930, Public Law 299, 71st Congress, no claim for increase on account of age sixty-five is contemplated if proof of age in accordance with the criteria provided in adjudication procedure of the Veterans Administration is in the case file. Awards, therefore, will reflect the rate for age sixty-five effective from September 1, 1946, if this age has been or will be attained on that date and prospectively if the age is attained at a future date. Where the proof necessary to establish age in accordance with adjudication procedure is not of record, it will be requested and in such cases any increase on account of age sixty-five will be effective from the date of receipt of proof of such fact.

6. *Apportionments.* In cases automatically adjusted as well as those where a regular or special apportionment is in effect the increased amount due will be prorated among the payees in accordance with the existing apportionment.

7. *Institutional awards.* Where an institutional award is in effect, the increase in the veteran's award will be deposited in the Funds Due Incompetent Beneficiaries, provided deposits are currently being made into this fund, otherwise the adjustment will be accomplished by award action. Where there is an institutional award and the balance is being paid to a guardian or other fiduciary, the increased amount will be paid to the guardian or fiduciary.

8. *Cases involving Public Law 314, 78th Congress.* Where concurrent payments of retirement pay and pension are being paid pursuant to the provisions of Public Law 314, 78th Congress, two copies of the waiver form previously completed by the veteran will be prepared, showing the new rate of pension payable, and forwarded to the Service Department. Upon return of one form of the waiver by the Service Department showing the amount by which the retirement pay has been reduced, the award may be amended effective from the date the retirement pay was reduced.

9. *Effective dates.* Except as provided in paragraph 8, the effective dates of increases made pursuant to the provisions of this act will be September 1, 1946, the first day of the first calendar month following the date of its enactment.

10. *Transcripts of payments.* Following the payment for the month of September, the Division of Disbursement will be requested to prepare a transcript of the new plates for the Payees Accounts Service on check-sized cards. These cards will bear in addition to name, address, C-number, and amount, the notation "Adj. Public Law 611, 79th Congress". After these cards have served their purpose in the Payees Accounts Service, they will be forwarded to the Claims Statistics Service for recording on abstract cards and will then be referred to the Veterans Records Division, Contact and Administrative Services, for filing in the case file over the most recent award. At such time as further award action is required, the amended award will reflect the payments authorized by Public Law 611, 79th Congress, as shown by the automatic adjustment. If a reduction in the automatic adjustment is necessary, it will be made effective from the date of last payment. (Pub. Law 611, 79th Cong).

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

GUARANTY OR INSURANCE OF LOANS TO VETERANS

The following changes are made in the regulations governing the guaranty and insurance of loans under Title III of the Servicemen's Readjustment Act of 1944, as amended:

§ 36.4301 *Definitions.* No change in (a) to (o), inclusive.

(p) "Full disbursement"—payment by a lender of the entire proceeds of a loan for the purposes described in the report of the lender in respect of such loan to the Administrator either (1) by payment to those contracting with the borrower for such purposes, or (2) by payment to the borrower, or (3) by transfer to an account against which he can draw at will, or (4) by transfer to an escrow account, or (5) by transfer to an earmarked account if (i) the amount thereof is not in excess of ten percent of the loan, or (ii) the loan is one submitted by a lender of the class specified in Section 500 (d) or Section 508 of the Act.

§ 36.4303 *Evidence of automatic guarantees; insurance advices.* No change in (a) or (b).

(c) Evidence of automatic guaranty or of insurance will be issuable if the loan is reported to the Administrator within 30 days following full disbursement, and upon the certification of the lender that:

(1) The loan has been made in full accordance with the terms and provisions of the Act,

(2) The required security has been obtained,

(3) There has been full disbursement of the proceeds for an eligible purpose to the veteran borrower, or for his benefit at his direction, and

(4) There has been no default thereunder, except that the existence of a default will not affect the guaranty or insurance with respect to a loan or that part thereof which otherwise qualifies under § 36.4305 (c), and on which a prior confirmation has been issued pursuant to § 36.4304 (a);

Provided, however, That if the report shows that any part of the proceeds of a loan is held in escrow or earmarked as provided in the definition of "full disbursement" contained in these regulations, the evidence of the guaranty or insurance shall reflect such fact and shall be conditional, as to funds so set apart, upon the ultimate payment of such funds for the purposes stated in the report and upon the submission of a supplemental report by the lender within 30 days after the ultimate payment of such funds is completed showing,

(5) The purpose for which the funds were expended,

(6) The identity of any personal property purchased therewith, if any,

(7) That all property purchased or acquired with the proceeds of the loan has been encumbered to the extent required by the regulations in this part,

(8) That any construction, alterations, modifications or repairs paid for out of escrowed or earmarked funds have been completed properly in full accordance with the plans and specifications upon which the original report was based and that any deviations or changes of identity in said property have been made as provided by the regulations in this part with respect to cases where a certificate of approval has been issued;

Provided further, however, That the guaranty or insurance shall become invalid or be subject to pro rata reduction, as may be proper, in the event the lender fails to so account. If any of the escrowed or earmarked funds are undisbursed or disbursed for a purpose not authorized by the Act, such ratable reduction shall be determined by crediting the amount thereof to the indebtedness.

§ 36.4305 *Deviations, changes of identity.* No change in (a), (b), or (c) (1), (2).

(3) No enforceable liens, for any work done or material furnished for that part of the construction completed and for which payment has been made out of the proceeds of the loan, exist or can come into existence.

A new § 36.4343 is added, as follows:

§ 36.4343 *Multiple-unit or cooperative housing projects.* The regulations in this part shall not be applicable to the guaranty or insurance of any loan for the purchase of a home in or as a part of a housing development, cooperative or otherwise, existing or to be constructed (a) the legal title to which home is not to be held directly by the veteran in the form of a separate estate in real property, or (b) which is a departure from the conventional type of single to four family form of housing, nor to any loan for business or farming purposes which is in excess of $25,000, or is related to an enterprise in which more than ten veterans will participate. No such loan or loans will be eligible for guaranty or insurance without the prior approval of the Administrator, who may issue such approval upon such terms and conditions, not inconsistent with the act, as he may deem proper.

[Order 2241]

PART 421—ADMINISTRATION AND DISPOSITION OF CERTAIN PROPERTY ACQUIRED BY THE BUREAU OF RECLAMATION FROM THE WAR ASSETS ADMINISTRATION AND OTHER FEDERAL AGENCIES, PURSUANT TO THE PROVISIONS OF THE INTERIOR DEPARTMENT APPROPRIATION ACT, 1947

Sec.
421.1 Statutory authority.
421.2 Delegation of authority.
421.3 Opening of lands.
421.4 Preferences in allocation of buildings.
421.5 Applications by non-profit organizations.
421.6 Method of disposal.
421.7 Acquisition and disposition of personal property.
421.8 Costs to transferees and lessees.
421.9 Notification.

§ 421.1 *Statutory authority.* Pursuant to the provisions of the act of July 1, 1946 (Public Law 478, 79th Cong.), (hereinafter called "the act"), the Secretary of the Interior is authorized to promulgate regulations for the administration and disposition of property acquired by transfer to the Bureau of Reclamation (hereinafter called "the Bureau") from the War Assets Administration and other agencies.

§ 421.2 *Delegation of authority.* The Commissioner of Reclamation is hereby authorized to use, sell, lease, or otherwise dispose of the property so acquired, subject to the provisions contained herein. The Commissioner may redelegate any or all of the authorities herein granted to such officers or employees of the Bureau as he may deem necessary.

§ 421.3 *Opening of lands.* Lands transferred to the Bureau pursuant to the act may be opened to entry as public lands under the act of June 17, 1902 (32 Stat. 388), and acts amendatory thereof and supplementary thereto, and applicable regulations of the Department.

§ 421.4 *Preferences in allocation of buildings.* (a) The Bureau shall, within, 90 days of the date of the issuance of these regulations, allocate the buildings as follows:

(1) Buildings which it is estimated are needed to provide housing and farmstead facilities for veterans who are successful entrymen on public land opened for entry during the calendar years 1946, 1947 and 1948. Buildings may be reserved in place or by dismantlement with reservation of the materials salvaged thereby. Reservation of buildings, or the equivalent amount of salvaged materials, shall not exceed 560 feet of standing outside wall perimeter of a height not exceeding ten feet per homestead entry.

(2) Buildings which are needed to conduct the activities of the Bureau on the project or elsewhere or to provide necessary community facilities, including but not restricted to offices, garages, warehouses, utility buildings, housing facilities, public schools, and community buildings for Government employees as well as for settlers, construction workers, and others.

(3) Buildings which are needed by non-profit organizations, State, county or local government subdivisions, or institutions thereof for uses beneficial to the development of the settlement program.

(b) In making these reservations the Bureau shall designate for first removal those buildings which are on lands leased by the United States.

§ 421.5 *Applications by non-profit organizations.* (a) Before applications for buildings or materials by any non-profit organization are approved, it shall be administratively determined by the Bureau that such buildings or materials will be used in connection with the settlement program. Such applicants shall certify that they will not permit other uses and that such buildings and/or materials are being acquired for use by the applicant organization and not for lease, sale, or transfer.

(b) Allocations among applicants shall be made as follows:

(1) Where there are sufficient buildings to satisfy the requirements of all such applicants, each applicant may be allocated buildings in accordance with its application.

(2) Where more than one applicant applies for the same building, the Bureau shall notify all interested applicants of alternative buildings available, and shall allow a reasonable time for change of application. If the applicants do not satisfactorily revise their applications, allotments may be determined by either of the following alternatives:

(i) Lots may be drawn for each building for which there remain multiple requests, the first drawn being allotted the building. Applicants that have been allotted buildings other than the one at issue shall not be disqualified from such drawing.

(ii) The contesting applicants may be requested to designate a committee of three members mutually acceptable to them to allot the buildings at issue among them. The Bureau shall not participate in the selection or approval of such committee, but shall require notification by the contestants that they will accept and abide by the decision of the committee. No member of such committee shall be an employee or officer of the Bureau of Reclamation.

§ 421.6 *Method of disposal.* (a) Allocation of buildings to veteran settlers shall be subject to the following conditions:

(1) Buildings shall be removed from site within a time limit prescribed in the notice of assignment.

(2) The debris resulting from salvage operations shall be accumulated and disposed of and site restored in a manner prescribed by the Bureau. If the entryman fails to dispose of debris and restore the site as required, the Bureau may perform these functions and charge the entryman for the total cost thereof.

(3) Failure to remove the buildings within the prescribed time limits may in the discretion of the Commissioner operate to cancel the allocation.

(4) Buildings transferred under this subsection shall be restricted to use on the homestead entry for farm and housing purposes, and the entryman shall not sell, transfer, assign, or convey them without the prior written consent of the Commissioner of Reclamation until the patent for said homestead entry has been issued.

(5) The Bureau may, at the request of the settler, dismantle, salvage, or move buildings allocated to him.

(6) Failure of entrymen to file requests for buildings available under these regulations within six months from the date of homestead entry shall be construed as forfeiture of rights to such buildings.

(b) Buildings retained on site shall be administered as follows:

(1) Leases may be entered into with users other than the Bureau for periods of not less than 30 days and not more than 1 year. On expiration, such leases may be renewed by agreement of the parties.

(2) Buildings specifically reserved for housing purposes shall be leased in accordance with applicable existing Bureau regulations.

(3) Buildings reserved for community schools, or other community purposes may be leased at nominal rates, provided that the using agency or organization shall bear all maintenance and operation costs and shall care for and maintain the buildings in accordance with standards to be prescribed by the Bureau in the lease.

(4) Lessees of buildings leased pursuant to the regulations in this part shall bear the costs of all utilities, services, maintenance and repairs, whether furnished or performed by the Bureau or otherwise. Where tenants provide their own utility services they shall be of a kind and standard acceptable to the Bureau.

(c) Buildings allocated and assigned to non-profit organizations shall be subject to the provisions of subparagraphs (1), (2), (3), and (5) of paragraph (a) of this section.

(d) Pending final allocation the Bureau may lease any buildings for such periods and at such rentals as the Commissioner shall determine.

§ 421.7 *Acquisition and disposition of personal property.* (a) Personal property acquired by the Bureau pursuant to the Act shall be utilized primarily in connection with Bureau activities or to provide veteran settlers with small tools, equipment, and materials.

(b) Such property made available to veterans who are successful entrymen on public lands opened for entry during the calendar years 1946, 1947 and 1948 shall be reserved on a basis which will permit an equitable apportionment. In the event that the supply of reserved items shall be insufficient to meet the requests therefor by eligible entrymen, apportionments may be made by appraised dollar evaluation, *Provided*, That automotive or heavy equipment may be made available to settlers on an equitable basis determined by the Bureau.

(c) Personal property not required by the Bureau or eligible entrymen may be transferred to non-profit organizations for use in connection with the settlement program.

(d) Personal property shall be removed from the project at the expense of the purchaser.

§ 421.8 *Costs to transferees and lessees.* (a) Where buildings are repaired, dismantled, salvaged, or moved, as provided in paragraph (a) (5) of § 421.6, the settler shall reimburse the Bureau for any costs it may have incurred in making such buildings available and usable. Reimbursement may be made upon a deferred payment basis, *Provided*, That the payment period shall not exceed the estimated useful life of the structure.

(b) Leases pursuant to the regulations in this part shall be at rentals approved by the Commissioner of Reclamation.

§ 421.9 *Notification.* The Bureau shall notify successful veteran entrymen during the calendar years 1946, 1947 and 1948 of availability of buildings and materials acquired under the act for disposition pursuant to the regulations in this part.

Acting Secretary of the Interior.

FEDERAL POWER COMMISSION.

[Docket No. G-769]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

AUGUST 30, 1946.

Notice is hereby given that on August 22, 1946, an application was filed with the Federal Power Commission by Consolidated Gas Utilities Corporation (hereinafter referred to as "Applicant"), a Delaware corporation with its principal place of business in Oklahoma City, Oklahoma, and authorized to do business in the States of Texas, Oklahoma, and Kansas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to (a) construct and operate a field booster station with a rated capacity of 600 horsepower to be located in the East end of the Texas Panhandle Gas Field in Wheeler County, Texas, as hereinafter more particularly described, and (b) to construct and operate a certain natural gas pipe line in Osage County, Oklahoma, as is hereinafter more particularly described.

Applicant seeks authorization to construct and operate the following facilities:

(a) A field booster station with a rated capacity of 600 horsepower gas engine driven portable compressor units with radiator type water and oil coolers, together with necessary building and appurtenant facilities to be located in the Southwest Quarter of section 5, Block 27, H. & G. N. Ry. Co. Survey, Wheeler County, Texas;

(b) A 4½-inch natural gas pipe line approximately 5 miles in length, extending in a southeasterly direction from Applicant's existing town border station at Hominy Point, Osage County, Oklahoma, to a point of connection with the natural gas transmission pipe line of the Cities Service Gas Company located in section 10-22N-9E, Osage County, Oklahoma.

Applicant states that the decline in the rock pressure of the wells in Wheeler County, Texas, from which it obtains its natural gas, has caused it to be unable to supply adequately the natural gas requirements of its existing markets served by its Wheeler County, Texas, to Lyons, Kansas, gas transmission system; that it it essential to install the proposed field booster station to offset the aforesaid decline in rock pressure of said wells; that the proposed field booster station will increase the suction pressure of the Pritsch Compressor Station, located in the area of the proposed booster station, and thereby cause its capacity to be increased by 8,300 M. c. f. which will enable Applicant to reduce the peak day curtailments of the aforesaid existing markets.

Applicant estimated the overall total cost of construction of the facilities described in paragraph (a) will be $76,225.00, which it proposes to finance out of its own funds.

Applicant proposes to construct the pipe line facilities described in paragraph (b) for stand-by or emergency service to supply its existing markets in Hominy, Oklahoma. Applicant is presently purchasing natural gas for resale in the Hominy area from a compressor station owned and operated by the Cities Service Oil Company, located approximately seven miles north of Hominy, Oklahoma, in section 36-24N-8E, Osage County, Oklahoma. Natural gas delivered from this compressor station is obtained from low-pressure wells and is insufficient to meet the peak demand requirements of Applicant's distribution system in Hominy.

The natural gas to be transported through the facilities described in paragraph (b) will be obtained from a natural gas transmission pipe line of Cities Service Gas Company, and the rates to be charged Applicant are governed by the contract submitted with the application.

Applicant estimates the overall total cost of construction of the facilities described in paragraph (b) to be $25,240.00, which it proposes to finance without borrowing any money.

It is stated that facilities described in paragraphs (a) and (b) are to be used to supply existing markets and that no additional revenue is expected as a result of their construction.

Any interested state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Consolidated Gas Utility Corporation should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

FREIGHT FORWARDERS—MOTOR COMMON CARRIERS, AGREEMENTS

AUGUST 29, 1946.

By the order in this proceeding of June 7, 1946, the freight forwarders respondents are required to furnish information described in the instructions and forms in the appendix to said order, it having appeared that said information is relevant and material in this investigation.

Division 2 of the Commission has given consideration to the question whether such information should be made available for examination by interested parties and has decided that, subject to certain conditions, this should be done. An order to that effect will be duly served on parties of record.

In view of the fact that persons representing various interests may desire to examine these records, it has been deemed important by Division 2 to provide for an orderly handling of the matter by the Secretary's office. It is desirable to have the examinations made by committees rather than by a large number of individuals. The Commission expects that all parties of interest will cooperate by completing this examination as promptly as possible.

[MPR 592, Amdt. 61 to Order 1]

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 1 is amended in the following respect:

A new section 7.10a is added to read as follows:

SEC. 7.10a *Modification of maximum prices for sales of calcined gypsum plaster "bag goods" (excepting Keene's cement, white goods, and Terra Alba combinations) produced in certain portions of the Eastern Seaboard.* (a) The manufacturers' maximum f. o. b. mill prices as established under Section 7.10 above, for sales to dealers of calcined gypsum neet plaster "bag goods" commonly sold in 80# and 100# sizes, including the several sizes of barrels containing 150# or more per barrel, but not including small package goods such as patching or painter's plaster or combinations thereof, and not including land plaster and not including Keene's cement, white goods, and Terra Alba combinations, produced in a mill located in the following geographical areas, may be increased by amounts not in excess of the following:

(1) For mills located in and immediately around Savannah, Georgia, and Jacksonville, Florida—$0.60 per ton in 100# paper bags.

(2) For mills located in the states of Connecticut, Pennsylvania, New Jersey and Maryland, and that portion of the State of New York east of the Hudson River and including the County of Richmond—$1.20 per ton in 100# paper bags.

(b) If the manufacturer had an established differential in price during the month of March 1942 between sales to dealers and sales to other classes of purchasers, or between calcined gypsum neet plaster and other gypsum "bag goods" (but not including small package goods such as patching or painter's plaster or combinations thereof, and not including Keene's cement, white goods and Terra Alba combinations) commonly sold in 80# and 100# sizes, including the several sizes of barrels containing 150# or more per barrel, he may adjust his maximum prices for these other types of sales and other gypsum "bag goods" to maintain the same March 1942 dollars-and-cents price differentials between the price established for gypsum neet plaster pursuant to (a) above, and such other types of sales and other gypsum "bag goods."

(c) The manufacturers' maximum delivered prices established pursuant to Maximum Price Regulation 592 for the products covered by this section for shipment into a flat delivered price zone may be increased by the actual dollars-and-cents increase in the f. o. b. mill price resulting from the price established by this section, for the producing mill nearest the flat delivered price zone.

(d) The maximum prices established herein shall be subject to quantity, cash and other discounts, transportation allowances, freight equalizations, services and other terms and conditions of sales at least as favorable as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(e) Any reseller (including resellers whose maximum prices are established by area orders under General Order 68 prior to August 30, 1946) purchasing calcined gypsum "bag goods" for resale in the same form from any manufacturer who has adjusted his maximum prices in accordance with (a), (b) or (c) above, may increase his presently established maximum prices by amounts not in excess of the following:

(1) Resellers located in the states of Mississippi, Alabama, Georgia, Florida, South Carolina and that portion of North Carolina south of the Northern boundaries of the counties of Mecklenburg, Cabarrus, Stanley, Montgomery, Moore, Hoke, Cumberland, Sampson, Duplin, Jones, Graven, and Pamlico, $0.80 per ton.

(2) Resellers located in the states of New Jersey, Delaware, Maryland, the District of Columbia, the counties of Mineral, Hampshire, Grant, Hardy and Pendleton in West Virginia; those counties in Virginia north of the southern boundaries of the counties of Rockingham, Green, Orange, Louisa, Hanover, Kent, Warwick, and including the counties of North Hampton and Accomac; those counties in Pennsylvania east and south of the western and northern boundaries of the counties of Somerset, Bedford, Huntingdon, Centre, Union, Columbia, Luzerne, Wyoming, and Susquehanna; those counties in New York State east and south of the western and northern boundaries of the counties of Broome, Delaware, Otsego, Montgomery, Fulton, Saratoga, and Rennsalaer; the counties of Berkshire, Hampshire and Hampden in Massachusetts and the counties of Litchfield, Fairfield and New Haven in Connecticut, $1.75 per ton.

(f) Any manufacturer who adjusts his maximum prices for sales of calcined gypsum "bag goods" in accordance with the provisions of this section shall furnish to each buyer purchasing these products for resale in the same form on or before the date it makes the first delivery at the adjusted prices, a written statement as follows, filling in the spaces with the appropriate amounts.

Effective August 30, 1946, the OPA has permitted us an additional increase of $ per ton over and above previous increases permitted us on November 16, 1945 for calcined gypsum "bag goods" commonly sold in 80# and 100# sizes, including the several sizes of bags containing 150# or more per barrel. On your resales of this commodity in the same form, you may add to your maximum prices in effect on March 31, 1946, $ per ton.

This amendment shall become effective August 30, 1946.

ONEIDA, LTD.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Oneida Ltd., Oneida, New York, may compute its adjusted ceiling prices for all articles of chromium stainless steel flatware and cutlery, which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 10.4 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows: A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under Office of Price Administration regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b)

of this order for determining adjusted maximum prices for resale of the articles.

(e) The provisions of Supplementary Order No. 153 shall not apply to any of the articles covered by this order.

This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 31st day of August 1946.

Issued this 30th day of August 1946.

(c) For sales and deliveries by the manufacturer to all other classes of purchasers the maximum prices are the adjusted maximum prices set forth in paragraph (a) (1), adjusted to reflect the manufacturer's customary differentials for sales to those other classes of purchasers.

(d) Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590 shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a ceiling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. ADJUSTABLE PRICING FOR COLD STORAGE SERVICES

Several applications have been filed by so-called "apple houses" in Maryland, New York, Pennsylvania, Virginia, and West Virginia, engaged in storage and handling of apples, pears, onions, carrots, and other fresh fruits and vegetables. These applications seek adjustment of the warehousemen's present maximum rates and charges on the grounds that the prevailing rates do not enable them to recover the costs of performing the service. They point out that they cannot be expected to accept shipments of these commodities for storage at the present rates.

The problem presented by these several applications must be handled on a regional basis, and for this purpose it will be necessary to obtain comprehensive data relating to the financial position and rate levels of the warehousemen involved. At the same time, the peak season during which the aforementioned commodities are offered for storage is now at hand. Therefore, it appears that authorization to the warehousemen to use adjustable pricing is necessary to promote distribution of these commodities. It further appears that such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

On consideration of the foregoing, and under authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and applicable executive orders, and pursuant to section 9 of MPR 586; *It is ordered:*

(a) Any cold storage warehouseman in Maryland, New York, Pennsylvania, Virginia, or West Virginia, may receive, handle and store, and any person may deliver to such warehousemen for storage, apples, pears, onions, carrots, and other fresh fruits and vegetables customarily stored on a bushel-per-season basis, at rates not in excess of the warehouseman's lawful maximum rates in effect at the time the goods are received for storage but, by agreement between the warehouseman and the customer, subject to upward adjustment in conformity with any action by the Office of Price Administration after the effective date of this order authorizing higher rates for such services.

(b) This order shall be automatically revoked upon the establishment by the Office of Price Administration of adjusted maximum rates and charges for the described services, or upon the denial of the individual applications. It may be revoked or amended by order of the Administrator at any time.

(c) This order shall become effective August 30, 1946.

Issued this 30th day of August 1946.

PAUL A. PORTER,
Administrator.

(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

(b) *Maximum prices for insufficiently described items.* Where the seller's records or sales slip upon a sale of any commodity covered by this order in the area covered by this order, do not contain a sufficiently complete description to identify the exact nature, type, size, or quantity of the commodity, and thus determine the maximum price fixed by Revised Schedule A of this order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under Revised Schedule A of this order in accordance with the incomplete description.

3. Adopting Order No. 8 under Basic Order No. 1, as amended, under General Order 68, as amended, is further amended by adding a new section 3 (a) as follows:

SEC. 3. (a) *Adjustment to reflect increase in suppliers price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers (including those subject to Area Orders issued under General Order 68) may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by an industry-wide or area-wide order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

4. Except as hereby amended, Adopting Order No. 8 under basic Order No. 1 as amended, under General Order 68 as amended, shall remain the same and all provisions thereof remain in full force and effect.

This amendment shall become effective immediately.

Issued this 23d day of August 1946.

[Montpelier Rev. Order G-1 Under Gen. Order 68]

HARD BUILDING MATERIALS IN VERMONT

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, it is ordered:

SECTION 1. *What this revised order covers.* This order covers all retail sales of the commodities listed in Table I by any seller to a purchaser in the State of Vermont. For the purposes of this order a "retail sale" means a sale to an ultimate user, or a sale to a contractor or builder for resale on an installed basis within the meaning of section 1 (b) (2) of Revised Maximum Price Regulation 251. The terms "customary place of business" means the location where the materials are generally stored and available for delivery.

SEC. 2. *Items covered by this order.* This revised order covers the list of hard building materials set forth in Appendix A, Table I,[1] appearing below and made a part of this order. Other related items may be added from time to time.

SEC. 3. *Maximum prices.* (a) The prices in Appendix A, Table I, appearing below, and made a part of this order, shall be the maximum prices for "retail sales" of the respective items of hard building materials listed in said table.

(b) The customary discount practices in use in March of 1942 or immediately before must be followed in all sales under this order. Records or other satisfactory evidence of each seller's discount practices, referred to in the preceding sentence shall be available for inspection by representatives of the Office of Price Administration.

(c) The prices of the commodities listed in the attached Table I of the Appendix A, may be increased without waiting for an amendment to this order, by any percentage that is authorized for the manufacturer of any such commodity, under the following circumstances: (a) If the increase is authorized after the effective date of this order, (b) If the regulation or other action providing for the increase specifically authorizes the distributor to pass on such increase.

The increases authorized by Supplementary Order 172, which became effective on August 8, 1946 have been included in the prices set forth in the appendix and do not come under the provisions of this section.

SEC. 4 *Delivery.* The maximum prices fixed by this order include free delivery by the seller within a five-mile radius of his customary place of business. However, where a seller's free delivery zone during March 1942 exceeds the five-mile radius of his customary place of business, he shall nevertheless continue to maintain his March 1942 free delivery zone. Transportation charges may be made for deliveries beyond the free delivery zones referred to in the preceding sentences at the rates or by the method customarily charged or used by the seller during March 1942. In the case of an isolated sale of a Small Sale Unit the seller may maintain his customary delivery practices relating to such sales which were in effect for him during March 1942. Records or other satisfactory evidence of each seller's delivery rates and/or practice during March 1942 shall be available for inspection by representatives of the Office of Price Administration.

SEC. 5. *New sellers.* A seller who was not engaged in the sale and delivery of hard building materials during March of 1942, may file an application for authority to use the customary discounts and/or delivery rates and practices of his most closely competitive seller of the same class. (The discounts, delivery rates and practices are those referred to in section 3 (b) and 4 of this order.) The application shall state the name and address of his most closely competitive seller of the same class, shall specify the discounts and rates, and shall describe the delivery practices. If the application contains the required information and is not disapproved within 15 days after it has been duly filed, the applicant may use the discounts, rates and practices set forth in the application. If a seller is unable to ascertain the customer's discounts and/or delivery rates and practices of his most closely competitive seller of the same class, he may apply to the Vermont District Office for assistance to obtain such information. The authority to use the customary discounts and/or the delivery rates and practices is subject to non-retroactive revision, modification or denial if warranted or required.

SEC. 6. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices or pricing methods previously fixed by any other order or regulation issued by the Office of Price Administration. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation shall apply to sales covered by this order.

SEC. 7. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A, Table I in his customary place of business in a manner plainly visible to all purchasers.

SEC. 8. *Sales slips and records.* (a) For any sales of $50.00 or more, each seller (regardless of previous custom) must keep records showing the following:

1. Name and address of buyer;
2. Date of transaction;
3. Place of delivery;
4. Complete description of each item sold and price charged.

(b) Every seller covered by this order shall give to the purchaser a sales slip, receipt or other evidence of purchase showing the name and address of the seller, the date of purchase, a description, quantity and the price of each item sold, the said description to be in detail sufficient to determine whether the price charged has been properly computed under this order. However, in the case of sales amounting to less than a total of $7.50 only the name and the address of the seller and the amount of the sale need be shown. The seller shall prepare the sales slips, receipts, or other evidence of purchase, hereinbefore described, in duplicate, and he must keep a duplicate copy for at least six months after delivery.

SEC. 9. *Evasion.* The price limitations of this order shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodities covered by this regulation or by way of commissions, services, transportation, or other charges, or by tying agreement or other trade understanding, or by making the terms and conditions of the sale more onerous to buyers than they were in March 1942.

SEC. 10. *Enforcement.* Persons violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses, provided by the Emergency Price Control Act of 1942 as amended.

SEC. 11. *Amendment.* This order may be modified, amended, revised or revoked at any time by the Office of Price Administration.

This order shall become effective August 22, 1946.

Issued this 21st day of August 1946.

Acting District Director.

WHEREAS this destruction is taking place at a time when the entire world is faced with distressing shortages of food and housing and nearly every commodity essential to speedy reconversion to a peacetime economy; and

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby designate the week beginning October 6, 1946, as Fire Prevention Week.

I ask every citizen to do his part by learning how to detect and eliminate all possible causes of fires in his home and in his business, in order to safeguard both lives and property from the holocaust of fire. I also request that the State and local governments, the Chamber of Commerce of the United States, the National Fire Waste Council, business and labor organizations, the churches and schools, civic groups, and the agencies of the press, the radio, and the motion-picture industry throughout the country cooperate fully in the observance of Fire Prevention Week; and I direct that the appropriate agencies of the Federal Government likewise assist in arousing the public to the awareness of the dread threat of fires.

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Priorities Reg. 3]

PART 803—PRIORITIES REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

DIRECTIVES AND CERTIFICATES FOR SURPLUS EQUIPMENT

§ 803.3 *Housing Expediter directives and certificates for surplus equipment for the Veterans' Emergency Housing Program.*—(a) *What this section provides.* This section provides for channeling certain surplus equipment held by the War Assets Administration into the Veterans' Emergency Housing Program, to be used for the construction of low and moderate cost housing accommodations for veterans. The equipment listed in the table at the end of this section is suitable for the construction of housing accommodations and is in critically short supply. Such equipment is not now available in sufficient quantities from new production. This section provides a preference for a specified period to persons or governmental agencies or instrumentalities who will use the equipment to make a substantial contribution to the Veterans' Emergency Housing Program. This section is deemed necessary and appropriate in the public interest and to effectuate the purposes of the Veterans' Emergency Housing Act of 1946.

(b) *Equipment covered by this section.* This section applies only to the equipment listed in the table at the end of this section. It applies whether the equipment is new or used. It applies to all such equipment in WAA stocks (whether in WAA "confirmed inventory" or not) unless, prior to the effective date of this section, a written offer has been made by WAA for the sale of such equipment and the offer has been accepted. To constitute such an acceptance, written notice thereof must have been delivered to the WAA, or placed in the U. S. Mail and postmarked, prior to the effective date of this section.

(c) *VEHP preference.* During the period of time defined in paragraph (d) of this section, the War Assets Administration shall not advertise, offer, sell, or dispose of any equipment covered by this section, except pursuant to a Housing Expediter directive, a Housing Expediter certificate (issued under Housing Expediter Priorities Regulation 4), or a special directive issued by the Civilian Production Administration. Housing Expediter directives or certificates for such equipment will not be issued unless the Housing Expediter (or a Regional Housing Expediter under Housing Expediter Priorities Regulation 4) determines that the proposed use of the equipment will make a substantial contribution to the Veterans' Emergency Housing Program. Disposal shall be made pursuant to such Housing Expediter directives or certificates, regardless of whether the person, agency, or instrumentality named in the directive or certificate is a veteran or whether he holds a WAA Form 63 veterans' certificate.

(d) *Length of period.* The preference period under this section for disposals by WAA of surplus equipment to persons,

agencies, or instrumentalities making a substantial contribution to the VEHP will begin with the effective date of this section and end thirty days after the time that WAA field procedures implementing Housing Expediter Priorities Regulation 4 are dispatched to the WAA field offices.

(ii) A producer or converter who during 1941 sold finished piece goods to persons now defined as Class II purchasers, and who does not desire to examine his sales records in order to determine the exact amount of such sales, may charge a Class II markup on sales to Class II purchasers to an extent which does not exceed 5% of his total dollar sales of finished piece goods in any calendar month; *Provided*, That he has filed a statement with the Office of Price Administration, Washington 25, D. PART 1445—LIVESTOCK

[MPR 574,[1] Amdt. 6 (§ 1445.2)]

LIVE BOVINE ANIMALS (CATTLE AND CALVES)

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 574 is amended in the following respects:

1. In section 2 (b), new subparagraphs (5) and (6) are added to read as follows:

(5) An owner of cattle or calves is prohibited from selling or transferring title to such animals to a slaughterer, and a slaughterer is prohibited from buying or receiving title to such animals from an owner thereof, on condition, or with the understanding or agreement, that dressed carcasses or wholesale cuts derived from such cattle or calves, or from other cattle or calves, be sold or delivered to any designated person: *Provided, however,* That club cattle or calves to which the owner acquired title through a sale that was exempt under the provisions of section 1 (b) (2) may be sold by such owner to a slaughterer on condition that the dressed carcasses or wholesale cuts derived therefrom be sold or transferred to such owner.

(6) A slaughterer is prohibited from buying cattle from any person other than a producer or a feeder upon the condition that payment will be made upon the basis of the actual weight and grade of the carcasses derived from the slaughter of such cattle. Any person other than a producer or a feeder is prohibited from selling cattle upon such a condition.

The term "producer" or "feeder" as used in this subparagraph (6) means a person who has owned the cattle involved in a sale at least thirty days prior to the day of the sale.

2. In section 2, paragraph (c) is redesignated (d) and a new paragraph (c) is inserted to read as follows:

(c) Every slaughterer must permit any accredited representative of the Office of Price Administration to enter his slaughtering establishment and to inspect and examine all records and operations pertaining to the slaughterer's compliance with the provisions of MPR 574. Such examination and inspection shall include, but not be limited to, the following: The method of trimming and weighing, the accuracy of the scales, the cooler shrink allowance and tare allowances used by the slaughterer in weighing, the taking of the carcass weights, the making and preservation of required records, and the purchases of live cattle.

3. Section 5 (a) (2) is amended to read as follows:

(2) The operator of each slaughtering establishment with respect to all cattle slaughtered in such slaughtering establishment shall attach, or cause to be attached, to each side of each dressed carcass of cattle derived from such slaughter, or to each quarter, if the carcass is broken into quarters while hanging in the cooler, a tag in the manner specified herein showing (i) the serial number of the carcass, (ii) the date the animal was slaughtered, and (iii) except as provided herein, the dressed weight (hot weight basis) of the entire carcass. The tags for each carcass shall carry the same serial number. One tag shall be attached securely to each side, or to each forequarter and each hindquarter, if the carcass has been broken into quarters, and shall remain so attached until the meat is removed from the cooler for transfer or delivery. The operator of the slaughtering establishment shall retain one tag from each carcass for inspection by officials of the Office of Price Administration. In addition to the foregoing, each operator of a slaughtering establishment shall keep for inspection by the Office of Price Administration a daily work sheet showing the serial number of each dressed carcass, its hot weight (except as provided herein) and its weight as adjusted to show the chilled carcass weight 24 hours after slaughtering. However, if the operator elects, he may show the adjusted chilled carcass weight in total instead of for each individual carcass.

In the event that the operator of the slaughtering establishment does not have facilities for obtaining hot weights, he shall attach or cause to be attached the tags in the manner set forth above at the point of first weighing, each tag showing in addition to the information required by subdivisions (i) and (ii) herein, the actual weight of the dressed carcass at the time of weighing. In such instances, the daily work sheet shall show the serial number, the weight of each carcass at the time of weighing and the weight as adjusted to show the chilled carcass weight 24 hours after slaughtering. However, if the operator elects, he may show the adjusted chilled carcass weight in total instead of for each individual carcass.

The work sheet referred to in the preceding two subdivisions, showing either the hot weight or chilled weight, shall be made with indelible pencil and shall bear a statement signed by the weigher that it is the original sheet on which he recorded the carcass weights at the time of weighing. These original work sheets must be preserved by the slaughterer for inspection by representatives of the Office of Price Administration.

4. Section 8 (c) is amended to read as follows:

(ii) *Bulls.* To determine the overriding ceiling price in any zone or market for bulls, deduct $6.75 per hundredweight from the price listed in subdivision (i) for that zone or market.

5. In section 9, subparagraph (a) (3), paragraph (c) and subparagraph (d) (3) are deteled. Subparagraph (a) (4) is redesignated (a) (3) and subparagraph (d) (4) is redesignated (d) (3).

6. In section 10 (a) (1) the next to the last sentence from the end of the subparagraph reading as follows is deleted: "In addition to the foregoing, the copy submitted shall contain a statement showing the total number of bulls of all grades included in the drove."

7. In section 10 (a) (3) the next to the last sentence from the end of the paragraph, reading as follows is deleted: "In addition to the foreging, the copy submitted shall contain a statement showing the total number of bulls of all grades included in the drove."

8. In section 10 (a), subparagraph (5) is deleted and subparagraphs (6) and (7) are redesignated (5) and (6), respectively.

9. In redesignated subparagraph (5) of section 10 (a) in the phrase "subparagraph (1), or (3) and (5) above" the words "and (5)" are deleted and in the undesignated paragraph commencing with "*Provided,* That no slaughterer * * *" the figures "(a) (5)" are inserted in place of "(a) (6)" in both instances.

10. In redesignated subparagraph (6) of section 10 (a) in the two phrases "subparagraphs (1) or (3) and (5) above", the words "and (5)" are deleted in both instances.

11. In section 11, subparagraphs (b) (4), (5) and (6) are amended to read as follows:

(4) Fourth, refer to paragraph (c) of this section for the maximum permissible average cost for the yield obtained in paragraph (b) (3) above applicable to the zone or market determined under paragraph (b) (1) above. If the yield is less than 46 percent, the maximum permissible average cost shall be determined by subtracting from the appropriate maximum permissible average cost for a yield of 46 percent, 35 cents per hundredweight for each one-half percent that such yield is less than 46 percent. If the yield is more than 60 percent, the maximum permissible average cost shall be determined by adding to the appropriate maximum permissible cost for a yield of 60 percent, 35 cents per hundredweight for each one-half percent that such yield is more than 60 percent.

Example. Paragraph (c) of this Section gives $12.45 as the maximum permissible average cost for a yield of 51 percent, the yield obtained in the example under paragraph (b) (3) above, applicable to the Chicago zone, determined to be the appropriate zone under paragraph (b) (1) above. If the yield had been 45 percent, the maximum permissible average cost would be obtained by subtracting 70 cents per hundredweight from $8.95 per hundredweight, the maximum permissible average cost for a 46 percent yield in the Chicago zone. If the yield obtained had been 60.5 percent, the maximum permissible average cost would be obtained by adding 35 cents per hundredweight to $18.75 per hundredweight, the maximum permissible average cost for a yield of 60 percent in the Chicago zone.

(5) Fifth, multiply the maximum permissible average cost determined under paragraph (b) (4) above by the number of hundredweight, live weight, of the cattle specified in paragraph (b) (2) above.

Example. The number of hundredweight, live weight, specified in the example under paragraph (b) (2) above is 104.57. Multiplying $12.45, the maximum permissible average cost determined in the example under subparagraph (b) (4) above, by 104.57, gives $1,301.90.

(6) Sixth, the result obtained in paragraph (b) (5) above is the maximum amount (total cost of cattle) which a slaughterer may pay for the cattle slaughtered in such slaughtering establishment during such accounting period.

Example. The figure $1,301.90 obtained in the example under subparagraph (b) (5) above is the maximum amount (total cost of cattle) which a slaughterer legally could pay for the ten cattle slaughtered in an establishment in Chicago as given in the examples under paragraphs (b) (1) through (b) (5) above.

12. Section 11 (c) is amended to read as follows:

(c) TABLE OF MAXIMUM PERMISSIBLE AVERAGE COSTS FOR SLAUGHTERERS SUBJECT TO THE PROVISIONS OF SECTION 11

ARTICLE I—SCOPE OF THE REGULATION

SECTION 1. *Prices higher than ceiling prohibited.* (a) On and after September 9, 1946, regardless of any contract or other obligation, no person shall sell or deliver and no person shall buy or receive in the course of trade or business, any hardwood flooring covered by this regulation for direct-mill shipment at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *What products, transactions and persons are covered.* This regulation covers all direct mill sales of unfinished and prefinished hardwood flooring produced from the species and in the regions indicated as follows:

Species	*Regions where produced*
Oak, pecan and gum	Anywhere in the United States.
All hardwood species except oak, pecan, gum, hard maple and birch.	Anywhere in the United States except in the Northern, Northeastern, and North Central hardwood regions as those regions are described in Maximum Price Regulations 223, 368, and 155.

For the purposes of this regulation, prefinished hardwood flooring means flooring that has been sanded, filled, finished, waxed, and pressure rubbed to form a finished product ready for immediate use after installation. The regulation applies regardless of the kind of mill or plant in which the flooring is produced, and regardless of whether the particular item is specifically priced in the price tables or not. Any person who makes a sale of this kind for himself or others, is subject to this regulation.

All grade terms in this regulation have the meaning given in the effective Official Flooring Grading Rules for Oak, Pecan, Beech, Birch and Hard Maple issued by the National Oak Flooring Manufacturers' Association insofar as those rules apply to species covered by this regulation. One of the grade requirements of these rules, and of this regulation in order for the prices established herein to be charged, is that the hardwood flooring of the indicated species must be made from properly kiln-dried lumber, side matched and end matched and machined to pattern. In addition, of course, it must meet all of the other grade requirements.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 3. *Maximum f. o. b. mill prices.* (a) The maximum f. o. b. mill prices for the hardwood flooring covered by this regulation are set forth in Articles IV to VIII, inclusive.

(b) *Small quantity shipments, other than by rail at the carload rail rate or water.* When the purchaser's order specifically requires that shipments of hardwood flooring covered by this regulation be made solely by some means of transportation other than rail at the rail carload rate, or water, an addition of $4.00 per thousand feet board measure to the maximum f. o. b. mill prices for the hardwood flooring so ordered, may be made by the seller. The $4.00 addition may be made by the seller under the conditions referred to in this paragraph if shipment is made solely by truck, express or by rail at the less-than-carload rates. If all or any part of the hardwood flooring covered by such order is shipped by rail at the carload rail rate or water, the above addition shall not be made.

SEC. 4. *Delivered prices*—(a) *Common or contract carrier.* When shipment is by common or contract carrier, the maximum delivered price of hardwood flooring under this regulation shall be an amount which is not greater than the permissible f. o. b. mill maximum price plus either (1) the actual transportation charges paid or owed by the seller to a common or contract carrier for shipment from the seller's mill to the point of delivery required by the purchaser except as stated in paragraph (b) below, or (2) transportation charges based upon estimated weights contained in the table below for shipment from the seller's mill to the point of delivery required by the purchaser except as stated in paragraph (b) below. Transportation charges based upon estimated weights shall be figured by multiplying the rail rate by the estimated weights given in the following table, evened out to the nearest quarter-dollar per 1000 feet board measure:

1½" x 2"	1,300	1,050
¾" x 2"	1,000	800

(b) *Trucking to railhead.* When a truck haul precedes rail shipment, as when a mill located away from the railhead hauls hardwood flooring by truck to the railhead, no addition may be made for the truck haul. However, in the following two cases a mill may apply for special permission to make an addition:

(1) When the mill was located away from rail connection because it specialized in water-borne hardwood flooring and where shortage of shipping has forced it to operate by rail.

(2) When a mill's rail connection has been abandoned since September 5, 1941. (Note: The word, "abandoned," means total and permanent abandonment.)

The application should be made by letter to the Lumber Branch, Office of Price Administration, Washington 25, D. C. No additions may be made on quotations or sales for trucking to a railhead until the Office of Price Administration has given the seller permission to make such additions.

SEC. 5. *Grades, services, or extras not listed.* (a) If a seller wishes to sell a grade or item which is not specifically priced in the price tables, he must apply to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for a maximum price. He must provide the following information:

(1) The requested price;

(2) A complete description of the item to be priced;

(3) The price differential between it and the most comparable item in the price tables, in October 1941, from the seller's own records, or if that is impossible, from experience of the trade. If no established price differential which can be used for comparison existed, a detailed analysis of the calculation of the requested price should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but the final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

SEC. 6. *Maximum export prices.* The maximum price at which a person may export any commodity to which this regulation is applicable shall be determined in accordance with the Maximum Export Price Regulation as revised, issued by the Office of Price Administration.

SEC. 7. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of the shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 8. *Distributors' direct-mill sales—*(a) *Mark-up on wholesale type direct-mill sale.* Subject to the exceptions and limitations set forth in paragraph (f), direct-mill distributors and distribution yards may on a wholesale type direct-mill sale add 5 percent to the mill maximum price established in or approved under this regulation. The addition may be evened out to the nearest quarter dollar per M'BM, or the addition may be added as one lump sum to the total amount of the bill based on the mill maximum prices.

(b) *Mark-up on a commission type direct-mill sale.* Subject to the exceptions and limitations set forth in paragraph (f), the maximum price for flooring purchased and sold under this regulation on a commission type direct-mill sale, is 3 percent higher than the mill maximum price. The mill maximum price, including the commission, may be evened out to the nearest quarter dollar per M'BM, or the addition may be added as one lump sum to the total amount of the bill based on the mill maximum prices. The mill must pay to the commission man at least the amount added as a mark-up so that the mill's realization shall not exceed the mill maximum prices.

(c) *Pyramiding prohibited.* The price additions permitted in this section may not be added more than once to the mill maximum price in the regulation regardless of the number of persons participating in the transaction.

(d) *Application for and granting of registration as a direct-mill distributor.* All persons desiring to operate as direct-mill distributors must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for, and receive, a registration number before charging or receiving the addition provided in paragraphs (a) and (b) of this section. (Distribution yards need not apply.) The application shall contain either a statement showing all connections which the applicant has with any mill, concentration yard, or other lumber or flooring producer, which may have any bearing on the question of "control relationship" as described in paragraph (f) (5) of this section, or a statement showing that he has no connection with any mill, concentration yard, or other lumber or flooring producer, which has any bearing on the question of "control relationship" as described in paragraph (f) (5) of this section. Anyone previously registered as a direct-mill distributor under Supplementary Order 150 may continue to act under such regulation without reapplying.

(e) *Definition of terms—*(1) *Direct-mill sales.* A direct-mill sale is one which originates at a mill and in which the flooring reaches the consumer or distribution yard without becoming a part of the stock of any intervening purchaser.

(2) *Direct-mill distributor.* A direct-mill distributor is a wholesaler or commission man who is registered as such by the Lumber Branch of the Office of Price Administration, Washington, D. C., and receives his registration number.

(3) *Distribution yard.* A distribution yard is a wholesale or retail lumber yard as defined in 2nd Revised Maximum Price Regulation 215.

(4) *Wholesale type direct-mill sale.* A wholesale type direct-mill sale is a direct-mill sale in which the seller buys flooring from a mill, wholesaler or concentration yard, and sells the flooring to the buyer in the same form.

(5) *Commission-type sale.* A commission-type sale is a direct-mill sale through a commission man. For the purposes of this section, a commission man is a distribution yard or a person who represents, and customarily sells lumber and/or flooring in carload quantities for, two or more mills or concentration yards which are independent of each other; receives his compensation from the mills in the form of commission based on the amount sold; and operates independently of both buyer and seller.

(f) *Exceptions and limitations.* The mark-ups permitted in this section may not be made in the following cases:

(1) On any sale of flooring under this regulation for which the invoice from the mill or concentration yard does not contain the statement "This mill has no control relationship with (name of distributor) as defined in Revised Supplementary Order 150".

(2) On any sale of less than carload quantities when shipped by rail, except that a sale for resale purposes in less than carload quantities when shipped in a pool carload may carry the mark-up.

(3) On any sale of less than 5 M'BM when shipped by truck or water.

(4) On any sale which carries an addition for a small-quantity type sale.

(5) On any sale of flooring which originates at a mill or concentration yard with which the direct-mill distributor has a "control relationship." A "control relationship" includes any of the following:

(i) *Profit sharing arrangement, direct or indirect, which was established on or after July 1, 1943.* This means a financial interest by a direct-mill distributor in the profits, return or realization of a mill or concentration yard, or by a mill or concentration yard in the profits, return or realization of a direct-mill distributor, and includes common ownership or control of a mill and direct-mill distributor by a third person. It also includes any arrangement whereby a distributor or producer shares in the profits of the other, whether such arrangement is oral or written, direct or indirect. Where a mill, concentration yard, or direct-mill distributor is a corporation, stock ownership of more than 10 percent of the total issued outstanding stock by a direct-mill distributor in the mill or concentration yard, or vice versa, constitutes a "control relationship."

(ii) *Family relationship.* A family relationship exists if any member of the family of the owner or part owner to the extent of more than 10 percent of a mill or concentration yard, has any interest in a direct-mill distributor, or vice versa, and such interest was acquired on or after July 1, 1943. Member of a family means any person related to an individual or his spouse by blood or marriage within the third degree.

(g) *Invoicing requirements on distributor's direct-mill wholesale type sale.* The invoice on any distributor's direct-mill wholesale type sale must be plainly marked "wholesaler's direct-mill sale" and must show the name and registration number of the direct-mill distributor. The invoice must also bear the following endorsement: "The flooring covered by this invoice did not originate at a mill or concentration yard with which we have a control relationship."

(h) *Invoicing requirements on direct-mill commission type sale.* The invoice on any direct-mill commission type sale must be plainly marked "commission man's direct-mill sale" and must show the name and registration number of the direct-mill distributor. The invoice must also bear the following endorsement: "We do not have a control relationship with (name of the distributor)".

(i) *Maximum price when endorsement on invoice is false.* If a mill or concentration yard makes a statement on an invoice that it has no control relationship with the direct-mill distributor, and such statement is false, the maximum prices at which the flooring covered by such invoice may be sold by it are 5 percent less than the mill maximum price.

(j) *Suspension of licenses.* Any person making a sale under this regulation is subject to the provisions of licensing Order No. 1. A violation of any provision of this regulation is a violation of the seller's license. Violations of the license or of this regulation may result in suspension of the license in accordance with the provisions of the Emergency Price Control Act of 1942, as amended.

(k) Any provision in this regulation which prohibits the charging, receiving or paying a commission for the service of procuring flooring shall not be deemed to prohibit the payment and receipt of the commission man's and wholesaler's mark-ups permitted by this section.

ARTICLE III—SPECIFIC DUTIES AND PRIVILEGES AND PROHIBITED PRACTICES

SEC. 9. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

SEC. 10. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

It shall be a violation of the regulation to mark, label, or otherwise identify hardwood flooring produced outside the regions covered by Articles V and VIII, in any manner which would reasonably lead any purchaser to believe that the flooring had been produced within the regions covered by Articles V and VIII.

It shall be a violation of this regulation for a flooring mill to deliver or agree to deliver flooring covered by this regulation to a person in consideration of, or in return for, the delivery of lumber to such flooring mill, or to accomplish the same result by any other trading devices, the effects of which are to give or receive additional consideration of any type, over and above the payment of the maximum price.

SEC. 11. *Records.* All sellers and all buyers of hardwood flooring covered by this regulation for direct-mill shipment must retain a copy of the invoice covering each transaction or maintain records in other form containing a complete description of the flooring, name and address of the other party to the transaction, date of sale, and the price paid, including any special addition for extra service, working, or specification. These records must be retained for two years, for inspection by the Office of Price Administration.

SEC. 12. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 13. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 14. *Imports.* The provisions of this regulation do not apply to the purchases, sales or deliveries of the commodities named in this regulation if they originate outside of and are imported into the continental United States. Sales, purchases, and deliveries of such imported commodities are governed by the provisions of Second Revised Supplementary Regulation No. 14 to the General Maximum Price Regulation.

SEC. 15. *Relation to other regulations.* Any sale or delivery covered by this regulation is not subject to the General Maximum Price Regulation.

ARTICLE V—PRICE TABLES

The maximum prices established in Article V may not be charged except for flooring produced in mills located in certain regions. These regions are the Appalachian, North Central, Northern and Northeastern hardwood lumber regions, as defined in Maximum Price Regulations 146, 155, 223, and 368. The maximum prices set forth are for 1000 feet board measure for the indicated species, grade, and size, f. o. b. mill.

In order that the Office of Price Administration may properly enforce these maximum prices, particularly on sales out of distribution yard stocks, it is necessary that it maintain an accurate file of hardwood flooring mills located in these regions, and that all flooring produced in such mills be easily identifiable as such. Therefore, the following two requirements must be complied with before the prices in this Article V may be charged:

1. The producing mill must register with the Lumber Branch, Office of Price Administration, Washington 25, D. C., and must keep on file an acknowledgement from OPA that the registration has been received. The registration may be in any form so long as it shows the exact name of the mill, and the location of the mill (town, county, and State).

2. The producing mill must either stamp each piece with the name (or trade name) and location (town and State) of the mill, or securely tag or label each bundle, the tag or label to bear the following wording:

(Location of producing mill)
Authorized maximum price fixed by Article V of MPR 458

The maximum prices for any oak flooring produced by a mill which fails to meet the registration and labeling requirements set forth above shall be the maximum prices established in Article IV of the regulation.

The maximum prices established in Article VIII may not be charged except for flooring produced in mills located in the Appalachian hardwood region, as defined in Maximum Price Regulation 146. The maximum prices set forth are for 1000 feet board measure for the indicated species, grade, and size, f. o. b. mill.

ARTICLE I—SCOPE OF THE REGULATION

SECTION 1. *Prices higher than ceiling prohibited.* (a) On and after September 9, 1946, regardless of any contract or other obligation, no person shall sell or deliver and no person shall buy or receive in the course of trade or business, any hardwood flooring covered by this regulation for direct-mill shipment at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *What products, transactions, and persons are covered.* This regulation covers all direct-mill sales of unfinished and prefinished hardwood flooring produced from the species and in the regions indicated as follows:

Species	Regions where produced
Hard Maple and Birch	Anywhere in the United States.
Beech and all other hardwood species except Hard Maple, Birch, Oak, Pecan, and Gum.	Northern, Northeastern (except Canada) and North Central, as those regions are described in Maximum Price Regulations 223, 368, and 155, respectively.

This regulation applies regardless of the kind of mill or plant in which the flooring is produced, and regardless of whether the particular item is specifically priced in the price tables or not. Any person who makes a direct-mill sale for himself or others is subject to this regulation.

NOTE: See Second Revised Maximum Price Regulation 215 for mark-ups and additions permitted on sales out of distribution yard stock.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 3. *Maximum f. o. b. mill prices* (a) The maximum f. o. b. mill prices for maple, birch, and beech flooring are set forth in Article IV.

(b) *Small quantities.* The following additions per M'BM may be made when the purchaser (or purchasers in the case of a pool car) orders an item consisting of one species, thickness, and grade, in the following quantities:

Quantity ordered:	*Addition per M'BM*
3000 to 4000 feet	$1.00
2000 to 2999 feet	2.00
1000 to 1999 feet	2.50
999 feet or less	3.00

SEC. 4. *Delivered prices*—(a) *Common or contract carrier.* When shipment is by common or contract carrier, the maximum delivered price of hardwood flooring under this regulation shall be an amount which is not greater than the permissible f. o. b. mill maximum price plus either (1) the actual transportation charges paid or owed by the seller to a common or contract carrier for shipment from the seller's mill to the point of delivery required by the purchaser except as stated in paragraph (b) below, or (2) transportation charges based upon estimated weights contained in the table below for shipment from the seller's mill to the point of delivery required by the purchaser except as stated in paragraph (b) below. Transportation charges based upon estimated weights shall be figured by multiplying the rail rate by the estimated weights given in the following table, evened out to the nearest quarter-dollar per 1000 feet board measure:

33/32 x 2 1/2"	2,500
33/32 x 3 1/2"	2,600

(b) *Trucking to rail head.* When a truck haul precedes rail shipment, as when a mill located away from the rail head hauls hardwood flooring by truck to the rail head, no addition may be made for the truck haul. However, in the following two cases a mill may apply for special permission to make an addition:

(1) When the mill was located away from rail connection because it specialized in water-borne hardwood flooring and where shortage of shipping has forced it to operate by rail.

(2) When a mill's rail connection has been abandoned since September 5, 1941. (Note: The word "abandoned" means total and permanent abandonment.)

The application should be made by letter to the Lumber Branch, Office of Price Administration, Washington 25, D. C. No additions may be made on quotations or sales for trucking to a rail head until the Office of Price Administration has given the seller permission to make such additions.

SEC. 5. *Grades, services, or extras not listed.* (a) If a seller wishes to sell a grade or item which is not specifically priced in the price tables, he must apply to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for a maximum price. He must provide the following information:

(1) The requested price;

(2) A complete description of the item to be priced;

(3) The price differential between it and the most comparable item in the price tables, in October 1941, from the seller's own records, or if that is impossible, from experience of the trade. If no established price differential which can be used for comparison existed, a detailed analysis of the calculation of the requested price should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but the final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

SEC. 6. *Maximum export prices.* The maximum price at which a person may export any commodity to which this regulation is applicable shall be determined in accordance with the Maximum Export Price Regulation, as revised, issued by the Office of Price Administration.

SEC. 7. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 8. *Distributors' direct-mill sales*—(a) *Mark-up on wholesale type direct-mill sale.* Subject to the exceptions and limitations set forth in paragraph (f), direct-mill distributors and distribution yards may on a wholesale type direct-mill sale add 5 percent to the mill maximum price established in or approved under this regulation. The addition may be evened out to the nearest quarter dollar per M'BM, or the addition may be added as one lump sum to the total amount of the bill based on the mill maximum prices.

(b) *Mark-up on a commission type direct-mill sale.* Subject to the exceptions and limitations set forth in paragraph (f), the maximum price for flooring purchased and sold under this regulation on a commission type direct-mill sale, is 3 percent higher than the mill maximum price. The mill maximum price, including the commission, may be evened out to the nearest quarter dollar per M'BM, or the addition may be added as one lump sum to the total amount of the bill based on the mill maximum prices. The mill must pay to the commission man at least the amount added as a mark-up so that the mill's realization shall not exceed the mill maximum prices.

(c) *Pyramiding prohibited.* The price additions permitted in this section may not be added more than once to the mill maximum price in the regulation regardless of the number of persons participating in the transaction.

(d) *Application for and granting of registration as a direct-mill distributor.* All persons desiring to operate as direct-mill distributors must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for, and receive, a registration number before charging or receiving the addition provided in paragraphs (a) and (b) of this section. (Distribution yards need not apply.) The application shall contain either a statement showing all connections which the applicant has with any mill, concentration yard, or other lumber or flooring producer, which may have any bearing on the question of "control relationship" as described in paragraph (f) (5) of this section, or a statement showing that he has no connection with any mill, concentration yard, or other lumber or flooring producer, which has any bearing on the question of "control relationship" as described in paragraph (f) (5) of this section. Anyone previously registered as a direct-mill distributor under Supplementary Order 150 may continue to act under such regulation without reapplying.

(e) *Definition of terms*—(1) *Direct-mill sales.* A direct-mill sale is one which originates at a mill and in which the flooring reaches the consumer or distribution yard without becoming a part of the stock of any intervening purchaser.

(2) *Direct-mill distributor.* A direct-mill distributor is a wholesaler or commission man who is registered as such by the Lumber Branch of the Office of Price Administration, Washington, D. C., and receives his registration number.

(3) *Distribution yard.* A distribution yard is a wholesale or retail lumber yard as defined in 2d Revised Maximum Price Regulation 215.

(4) *Wholesale type direct-mill sale.* A wholesale type direct-mill sale is a direct-mill sale in which the seller buys flooring from a mill, wholesaler or concentration yard, and sells the flooring to the buyer in the same form.

(5) *Commission-type sale.* A commission-type sale is a direct-mill sale through a commission man. For the purposes of this section, a commission man is a distribution yard or a person who represents, and customarily sells lumber and/or flooring in carload quantities for, two or more mills or concentration yards which are independent of each other; receives his compensation from the mills in the form of commission based on the amount sold; and operates independently of both buyer and seller.

(f) *Exceptions and limitations.* The mark-ups permitted in this section may not be made in the following cases:

(1) On any sale of flooring under this regulation for which the invoice from the mill or concentration yard does not contain the statement "This mill has no control relationship with (name of distributor) as defined in Revised Supplementary Order 150".

(2) On any sale of less than carload quantities when shipped by rail, except that a sale for resale purposes in less than carload quantities when shipped in a pool carload may carry the mark-up.

(3) On any sale of less than 5 M'BM when shipped by truck or water.

(4) On any sale which carries an addition for a small-quantity type sale.

(5) On any sale of flooring which originates at a mill or concentration yard with which the direct-mill distributor has a "control relationship". A "control relationship" includes any of the following:

(i) *Profit sharing arrangement, direct or indirect, which was established on or after July 1, 1943.* This means a financial interest by a direct-mill distributor in the profits, return or realization of a mill or concentration yard, or by a mill or concentration yard in the profits, return or realization of a direct-mill distributor, and includes common ownership or control of a mill and direct-mill distributor by a third person. It also includes any arrangement whereby a distributor or producer shares in the profits of the other, whether such arrangement is oral or written, direct or indirect. Where a mill, concentration yard, or direct-mill distributor is a corporation, stock ownership of more than 10 percent of the total issued outstanding stock by a direct-mill distributor in the mill or concentration yard, or vice versa, constitutes a "control relationship".

(ii) *Family relationship.* A family relationship exists if any member of the family of the owner or part owner to the extent of more than 10 percent of a mill or concentration yard, has any interest in a direct-mill distributor, or vice versa, and such interest was acquired on or after July 1, 1943. Member of a family means any person related to an individual or his spouse by blood or marriage within the third degree.

(g) *Invoicing requirements on distributor's direct-mill wholesale type sale.* The invoice on any distributor's direct-mill wholesale type sale must be plainly marked "wholesaler's direct-mill sale" and must show the name and registration number of the direct-mill distributor. The invoice must also bear the following endorsement: "The flooring covered by this invoice did not originate at a mill or concentration yard with which we have a control relationship."

(h) *Invoicing requirements on direct-mill commission type sale.* The invoice on any direct-mill commission type sale must be plainly marked "commission man's direct-mill sale" and must show the name and registration number of the direct-mill distributor. The invoice must also bear the following endorsement: "We do not have a control relationship with (name of the distributor)".

(i) *Maximum price when endorsement on invoice is false.* If a mill or concentration yard makes a statement on an invoice that it has no control relationship with the direct-mill distributor, and such statement is false, the maximum prices at which the flooring covered by such invoice may be sold by it are 5 percent less than the mill maximum price.

(j) *Suspension of licenses.* Any person making a sale under this regulation is subject to the provisions of Licensing Order No. 1. A violation of any provision of this regulation is a violation of the seller's license. Violations of the license or of this regulation may result in suspension of the license in accordance with the provisions of the Emergency Price Control Act of 1942, as amended.

(k) Any provision in this regulation which prohibits the charging, receiving or paying a commission for the service of procuring flooring shall not be deemed to prohibit the payment and receipt of the commission man's and wholesaler's mark-ups permitted by this section.

ARTICLE III—SPECIFIC DUTIES AND PRIVILEGES AND PROHIBITED PRACTICES

SEC. 9. *Petitions for adustmjent or amendment*—(a) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

(b) *Applications for adjustment*—(1) *When adjustment may be granted.* The Price Administrator may by order adjust the maximum prices established under this regulation for any seller of maple, birch and beech flooring whenever he finds that the seller's maximum prices are at such a level that (taking into account costs of production and the overall profit position of the seller) production or supply of flooring is impeded or threatened.

(2) *Factors which may be considered.* The following factors are relevant to the consideration of whether maximum prices are at such a level that production or supply of the flooring is impeded or threatened:

(i) Whether, and by what amount, the maximum price is below or above unit manufacturing costs.

(ii) Whether, and by what amount, the maximum price is below or above total unit costs.

(iii) Whether, and by what amount, the seller's current over-all profits, before income and excess profits taxes, are greater or less than his average over-all profits during a normal base period, adjusted to reflect any change from the normal base period average investment.

(iv) Whether greater efficiency in production or merchandising can be reasonably expected so that an adjustment would not be necessary.

(v) Whether the seller previously sold the particular type of flooring under consideration at a price which was below his total unit costs.

(3) *Form and contents of applications.* Applications under this section must be filed in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

All applications must contain:

(i) Profit and loss statements, in the detail normally prepared by the applicant, covering the company's entire operations for the years 1936 through 1939, the last calendar or fiscal year preceding the filing of the application, the last quarter of such calendar or fiscal year and the available interim period for the current calendar or fiscal year.

(ii) Operating statements for maple, birch, and beech flooring operations only, for the last calendar or fiscal year preceding the filing of the application, the last quarter of such calendar or fiscal year and the available interim period for the current calendar or fiscal year.

(iii) A tabulation showing the production of maple, birch and beech flooring and each item within each grade for the last calendar or fiscal year preceding the filing of the application, the last quarter of such calendar or fiscal year and the available interim period for the current calendar or fiscal year.

Companies which have previously submitted any of the above-required data may omit such items from the data submitted with their applications.

SEC. 10. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

It shall be a violation of this regulation for a flooring mill to deliver or agree to deliver flooring covered by this regulation to a person in consideration of, or in return for, the delivery of lumber to such flooring mill, or to accomplish the same result by any other trading devices, the effects of which are to give or receive additional consideration of any type,

over and above the payment of the maximum price.

SEC. 11. *Records.* All sellers and all buyers of hardwood flooring covered by this regulation for direct-mill shipment must retain a copy of the invoice covering each transaction or maintain records in other form containing a complete description of the flooring, name and address of the other party to the transaction, date of sale, and the price paid, including any special addition for extra service, working, or specification. These records must be retained for two years, for inspection by the Office of Price Administration.

SEC. 12. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 13. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 14. *Imports.* The provisions of this regulation do not apply to the purchases, sales, or deliveries of the commodities named in the regulation if they originate outside of and are imported into the continental United States. Sales, purchases, and deliveries of such imported commodities are governed by the provisions of Second Revised Supplementary Regulation No. 14 to the General Maximum Price Regulation.

SEC. 15. *Relation to other regulations.* Any sale or delivery covered by this regulation is not subject to the General Maximum Price Regulation.

PART 1412—SOLVENTS

[MPR 37, Amdt. 19]

BUTYL ALCOHOL AND ESTERS THEREOF

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 37 is amended to read as follows:

1. Section 1412.116 (a) (3) is amended to read as follows:

(3) *Sale by resellers.* The maximum prices per pound for sales by resellers in the continental United States or in a territory or possession of the United States shall be the sum of (i) the reseller's cost of acquisition of the specific lot of normal fermentation butyl alcohol or normal fermentation butyl acetate and (ii) the percentage markup he had in effect on March 31, 1946 to the same class of purchaser on sales of normal fermentation butyl alcohol or normal fermentation butyl acetate, as the case may be. These prices are subject to the same freight and trade practices that prevailed on June 29, 1946.

2. Section 1412.116 (a) (4) (iii) is deleted.

3. Section 1412.116 (d) is added to read as follows:

(d) *Special pricing*—(1) *Sales of butyl alcohol produced wholly from grain or molasses at separate plants owned by the same producer.* The maximum prices for each monthly period commencing September 1, 1946, for sales by producers of butyl alcohol produced wholly from grain at one plant and produced wholly from molasses at another plant, when such plants are owned by the same producer, shall be the weighted average of the maximum prices applicable to the butyl alcohols to be produced during that month.

(2) *Sales of butyl acetate by a producer who makes butyl alcohol at separate plants owned by him.* Where a producer uses his own butyl alcohol produced wholly from molasses at one of his plants when the other plant produces butyl alcohol wholly from grain and the butyl alcohol produced wholly from molassess is used by him in the manufacture of butyl acetate, the base delivered maximum prices for sales of such butyl acetate made from molasses butyl alcohol by such producer shall be $.2115 per pound. For every increase or decrease of $.005 per pound in the weighted delivered average price of butyl alcohol as established by paragraph (d) (1) above from a base delivered price of $.226 per pound, the base delivered maximum price for butyl acetate shall be increased or decreased, as the case may be, by $.0035 per pound.

This amendment shall become effective September 4, 1946.

Issued this 4th day of September 1946.

PAUL A. PORTER,
Administrator.

SUBPART B—DELEGATIONS OF AUTHORITY

Section 1608.822–6 is added as follows:

§ 1608.822–6 *Delegations of authority within the Reconstruction Finance Corporation*—(a) *Redelegation to RFC–PAB of authority delegated on February 26, 1944 to the renegotiating subsidiaries of the RFC by War Contracts Price Adjustment Board pursuant to the Renegotiation Act as amended by Title VII of the Revenue Act of 1943.*

Whereas, pursuant to section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended by Public Law 108—78th Congress approved July 1, 1943 (herein called the "1942 Act"), the respective boards of directors of Defense Plant Corporation, Defense Supplies Corporation, Metals Reserve Company and Rubber Reserve Company (all wholly owned and managed subsidiaries of the Reconstruction Finance Corporation created pursuant to section 5d (3) of the RFC Act, as amended) were empowered to renegotiate all contracts of such subsidiaries and all subcontracts thereunder; and

Whereas, under a delegation of authority executed as of July 1, 1943 by each of said subsidiaries pursuant to subsection (f) of the 1942 Act, all powers, authority and discretion vested in them under the 1942 Act were delegated to the RFC Price Adjustment Board which was created under the terms of such delegation for the purpose of centralizing the control of the responsibilities vested in the subsidiaries under the 1942 Act; and

Whereas, the Renegotiation Act, as amended by Title VII of the Revenue Act of 1943, effective February 25, 1944 (herein called the "1943 Act"), has established an interdepartmental renegotiation board called the War Contracts Price Adjustment Board (herein referred to as the "War Contracts Board") and has vested therein all renegotiation powers with respect to the renegotiation of fiscal years, of contractors and subcontractors subject to renegotiation, ending after June 30, 1943, thus superseding the authority delegated by the subsidiaries to the RFC Price Adjustment Board to renegotiate fiscal years of contractors and subcontractors ending after the latter date; and

Whereas, the War Contracts Board, pursuant to subsection (d) (4) of the 1943 Act, on February 26, 1944 delegated to the subsidiaries and the other Departments and Agencies whose contracts and subcontracts are subject to the renegotiation under the 1942 Act, certain of the powers, functions and duties of the War Contracts Board vested in such board under the 1943 Act, as more specifically appears from a copy of such delegation which is attached hereto; and

Whereas, consistently with their policy of centralizing the control of their responsibilities for renegotiation, the subsidiaries desire to redelegate to the RFC Price Adjustment Board the authority vested in them by the War Contracts Board;

Now, therefore,

1. The respective boards of Directors of Defense Plant Corporation, Defense Supplies Corporation, Metals Reserve Company and Rubber Reserve Company, pursuant to subsection (d) (4) of the 1943 Act, hereby delegate to the RFC Price Adjustment Board all of the powers, functions and duties conferred upon them, respectively, by the War Contracts Board under the aforesaid delegation dated February 26, 1944, and all powers, functions and duties which may hereafter be conferred upon them by said War Contracts

Board, with full authority to make such redelegations of said powers, functions and duties as the RFC Price Adjustment Board may from time to time deem necessary or appropriate.

2. All money recovered in renegotiation, with respect to fiscal years of contractors and subcontractors ending after June 30, 1943, by the RFC Price Adjustment Board in respect of amounts paid to such contractors or subcontractors other than from appropriations from the Treasury shall be held for the account of such subsidiaries.

3. This delegation shall remain in full force and effect until revoked in writing by the joint action of the boards of directors of said subsidiaries, or until the RFC Price Adjustment Board shall decline in writing the further exercise of the discretion and authority herein delegated or redelegated to it.

4. The powers, functions and duties delegated and redelegated hereby shall be effective immediately and shall be retroactive to February 25, 1944, the effective date of the Revenue Act of 1943.

In witness whereof, the parties hereto have caused this delegation and redelegation of authority to be executed as of March 1, 1944.

[Circ. No. 1619]

PART 192—OIL AND GAS LEASES

MISCELLANEOUS AMENDMENTS

Sections 192.56f, 192.78 and 192.91 are amended to read as follows:

§ 192.56f *Procedure after discovery.* An application for royalty benefits under the act of December 24, 1942 (56 Stat. 1080; 30 U. S. C., Sup. V, 223, note) by reason of any claimed discovery of a new oil or gas field or deposit shall be filed in duplicate by the lessee or his authorized agent or operator in the office of the appropriate Federal oil and gas supervisor. The supervisor shall forward the application to the Director of the Geological Survey with a report and recommendation.

The application shall identify the lessee and operator, the serial number of the lease, the exact location of the well or wells, the name of the productive sand or zone, the depth to the top of the productive formation, the amount of productive strata penetrated, and a complete itemized production statement by days, not exceeding 30, from the date of the discovery. If the discovery is made on unitized land, as provided herein, the application should identify all leases affected.

The claimant shall conduct such test and furnish such well data and geologic evidence as may be required by the Federal oil and gas supervisor.

With respect to the application, the determination as to whether a new oil or gas field or deposit has been discovered and the effective date of such discovery shall be made by the Director of the Geological Survey. Subsequent to such a determination and after receipt of a report from the Bureau of Land Management on the lease, lessee, and operator, the Director of the Geological Survey may grant or reject the application as may be proper. The Director shall notify the applicant and the Bureau of Land Management of the determination made and the action taken on the application. Such determination and action shall be subject to the right of appeal to the Secretary as provided in 30 CFR, Cum. Supp., 221.66.

§ 192.78 *Action by the Bureau of Land Management.* The Director of the Bureau of Land Management shall consider the application and report submitted by the Director of the Geological Survey. If no objection to the renewal of the lease appears to the Director of the Bureau of Land Management, copies of a renewal lease, in triplicate, dated the first day of the month in which the original lease terminated, will be forwarded to the lessee for execution and return together with a satisfactory lease bond. Upon receipt of the lease forms and bond properly executed by the lessee, the Director of the Bureau of Land Management may execute the lease. After the lease is executed a copy shall be sent to the lessee.

§ 192.91 *Action by the Bureau of Land Management.* (a) The Director of the Bureau of Land Management shall consider the application and report submitted by the Director of the Geological Survey. Except as provided in paragraph (b) of this section, if no objection to the exchange of the lease appears to the Director of the Bureau of Land Management, copies of an exchange lease in triplicate will be forwarded to the lessee through the manager for execution and return together with a satisfactory lease bond. Upon receipt of the lease forms and bond properly executed by the lessee, the Director of the Bureau of Land Management may execute the lease. After the lease is executed one copy shall be delivered to the lessee.

(b) If the effect of the exchange would be to reduce the current royalty values more than 20 percent, the Director of the Bureau of Land Management will prepare a letter to the Secretary of the Interior calling attention to this feature, with a complete showing of all other facts which might be of importance in determining whether an approval of the exchange would be to the advantage of the United States, and recommending authorization of the exchange lease, if such a recommendation is deemed warranted by the Director of the Bureau of Land Management. In this case bond and lease forms will not be prepared for transmittal to the lessee through the manager until such authorization is received from the Secretary of the Interior. Upon such authorization, copies of an exchange lease in triplicate will be forwarded to the lessee through the manager for execution and return together with a satisfactory lease bond. Upon receipt of the lease forms and bond properly executed by the lessee, the Director of the Bureau of Land Management may execute the lease. After the lease is executed, one copy will be delivered to the lessee.

§ 244.10 *Construction in advance of permit or easement; trespass.* The Director of the Bureau of Land Management may grant authority to construct project works over and through Interior Department lands in advance of approval of a permit or easement for the right-of-way or site upon a satisfactory showing of the necessity for such action, if found compatible with the public interest. Applications for such authority shall be cleared with interested agencies of the Department. The applicant for such authority shall agree that such construction is done at the applicant's own risk and that the applicant will make full and prompt compliance with all requirements laid down by the Department as conditions precedent to the approval of the permit or easement. Applications for such authority should be filed with the agency of the Department of the Interior having supervision of the land involved. Such agency shall submit the record with an appropriate report and recommendation to the Director of the Bureau of Land Management.

Any occupancy or use of the public lands without authority will subject the person occupying or using the land to prosecution and liability for trespass.

Section 245.8 is amended to read as follows:

Applications for such authority shall be cleared with interested agencies of the Department. The applicant for such authority shall agree that such construction is done at the applicant's own risk and that the applicant will make full and prompt compliance with all requirements laid down by the Department as conditions precedent to the approval of the permit or easement. Applications for such authority should be filed with the agency of the Department of the Interior having supervision of the land involved. Such agency shall submit the record with an appropriate report and recommendation to the Director of the Bureau of Land Management.

Any occupancy or use of the public lands without authority will subject the person occupying or using the land to prosecution and liability for trespass.

PART 505—LEASING OF STATE, COUNTY OR PRIVATELY OWNED LANDS IN GRAZING DISTRICTS

Sections 505.0, 505.3, 505.5, 505.8 and 505.9 are amended to read as follows:

§ 505.0 *Authority.* The act of June 23, 1938 (52 Stat. 1033; 43 U. S. C. 315m-1, 315m-4, inc.), commonly known as the Pierce Act, authorizes the Secretary of the Interior in his discretion to lease, at rates to be determined by him, any State, county, or privately owned lands chiefly valuable for grazing purposes and lying within the exterior boundaries of grazing districts created under the Taylor Grazing Act of June 28, 1934 (48 Stat. 1269, as amended, 43 U. S. C. 315, et seq.) when in his judgment, the leasing of such lands will promote the orderly use of the district and aid in conserving the forage resources of the public lands therein.

Pursuant to section 161 of the Revised Statutes (5 U. S. C. 22) and section 2 of the act of June 28, 1934 (43 U. S. C. 315a), the Director of the Bureau of Land Management may approve leases under the Pierce Act on behalf of the United States in accordance with the regulations in this part. Leases so approved by the Director need not be submitted for Secretarial approval.

§ 505.3 *Form of lease.* Leases under the Pierce Act should conform in general to the form printed in § 505.11. This form is believed adaptable for use in all of the States within which grazing districts have been established under the Taylor Grazing Act. Leases under the Pierce Act must be executed by the lessor in the manner prescribed by the laws of the State within which the lands leased are situated.

§ 505.5 *Approval by the Director of the Bureau of Land Management.* Local negotiations for leasing of lands under this act will be carried on by the regional grazier, but the lease and any renewal thereof, will not be effective until approved by the Director of the Bureau of Land Management. Upon such approval the lease should be recorded in the land records of the county in which the land is situated.

§ 505.8 *Disposition of receipts.* All moneys received in the administration of lands leased under the Pierce Act will be deposited in the Treasury of the United States as provided in section 4 of that act and will be available when appropriated by the Congress for the leasing of lands. Distribution of such receipts, therefore, will not be made as provided in sections 10 and 11 of the Taylor Grazing Act (48 Stat. 1273; 43 U. S. C. 315i, 315j).

§ 505.9 *Allocation of funds appropriated.* Moneys received in the administration of lands leased under the Pierce Act, when appropriated by the Congress, will be allocated to the budgets of the regional graziers for disbursement in accordance with that act and the regulations in this part. Records of disbursements thereof will be maintained under existing procedure.

The form of lease set out in 43 CFR, Cum. Supp., 505.11 is amended by striking out the words "Secretary of the Interior" and "Under Secretary of the Interior" wherever the latter words appear.

Acting Director.

PART 503—ADMINISTRATION; PROCEDURES

CERTIFICATION OF TRANSPORTATION PERSONNEL FOR DEFERMENT FROM MILITARY SERVICE

Explanatory statement. The Office of Defense Transportation has been authorized to act as agent for the Civilian Production Administration to certify for deferment from induction into military service certain transportation workers who qualify under the standards set forth in Local Board Memorandum No. 115, as amended August 12, 1946, issued by National Headquarters, Selective Service System, Washington 25, D. C. The amended memorandum provides that the Civilian Production Administration will make certifications for deferment to the Director of Selective Service of qualified registrants engaged in transportation. However, full authority for the certification of transportation workers has been delegated to the Office of Defense Transportation by the Administrator of the Civilian Production Administration by Directive 45. The Office will indicate on each Form 42A (Special-Revised) certified by it that certification is made as the duly authorized agent of the Administration.

The standards for certification appear in Part IV, section 6 of the amended Local Board Memorandum No. 115, which reads in part as follows:

Production and transportation. The Civilian Production Administration will certify to the Director of Selective Service registrants engaged in production and transportation as follows:

(a) Supervisory, technical, or scientific personnel whose removal would significantly retard production in industries essential to reconversion or otherwise essential to the national existence;

(b) Qualified and irreplaceable production workers in industries designated as critical by the Civilian Production Administration.

Paragraph (a) is deemed to be self-explanatory except for definition. Supervisory workers are defined by Selective Service as those individuals exercising direction over other workers down to and including gang foremen but not assistant foremen. Technical and scientific personnel are those having the status of graduate engineers or technicians, or those who by experience and training are qualified to do similar work.

Paragraph (b) has been interpreted by the National Headquarters of Selective Service to include qualified and irreplaceable workers in transportation. The term "qualified and irreplaceable worker" has been defined as covering skilled men whose period of preparatory training was at least two years and who can be proven to be irreplaceable and indispensable.

The occupational coverage outlined here is admittedly broad, but it should be understood that this is not an offer of blanket deferment for registrants qualifying under the standards. The transportation manpower situation is good in most parts of the country and the certifications made by the Office of Defense Transportation will be limited to those localities and situations where personnel shortages in occupations of the above types are truly acute.

Form 42A (Special-Revised) may be secured from any local selective service board or any State Headquarters of the Selective Service System or from National Headquarters, Selective Service System, Washington 25, D. C.

Cases of registrants now classified in I–A, I–A–O, or IV–E will be reopened by local boards in their discretion upon receipt by the boards of certified Form 42A (Special-Revised). With respect to any registrant facing imminent induction, his employer should advise registrant's local board if a Form 42A (Special-Revised) has been forwarded for certification of such registrant.

Form 42A (Special-Revised) may be filed, uncertified, directly with local boards as heretofore, in accordance with Part II, paragraphs 1 and 3) of Local Board Memorandum No. 115, as amended August 12, 1946.

The order set forth below provides for the manner of submitting and handling of Forms 42A (Special-Revised) with respect to registrants whose deferment is requested because of their employment in domestic transportation.

This explanatory statement shall not be construed to alter the meaning of any provision of the order or of any rule, regulation, direction, or interpretation issued by the Selective Service System.

The text of Administrative Order ODT 33 follows:

Pursuant to the Selective Training and Service Act of 1940, as amended; Local Board Memorandum No. 115, as amended August 12, 1946, issued by National Headquarters, Selective Service System; Directive 45 of the Civilian Production Administration; Executive Orders 8989, as amended, 9156 and 9214; and in order to provide for the certification for deferment from induction into the military service of certain transportation workers to secure maximum utilization of the domestic transportation facilities of the Nation for defense, *It is hereby ordered,* That:

(ii) State the facts showing the effect that the loss of registrant's services would have on the carrier's operations;

(b) The employer shall assign consecutive numbers to the Forms 42A (Special-Revised) which he submits. He shall place such a number in the upper right-hand corner of each form, and similarly shall place the same number on the statement accompanying the form.

For carriers not serviced by the receiving agencies listed above, forms and statements will be sent to the Director, Division of Manpower and Materials, Office of Defense Transportation, Washington 25, D. C.

§ 503.551 *Processing of Form 42A (Special-Revised) by receiving agencies.* (a) The receiving agency:

(1) Will transmit the forms and statements received, after examining the same for completeness, to the Director, Division of Manpower and Materials, Office of Defense Transportation, Washington 25, D. C.;

(2) Will handle all correspondence relating to forms and statements, including the return of the same for correction and of those in respect of which certification has been refused by the Office of Defense Transportation; and

(3) Will keep an accurate record for ready reference of the disposition of forms handled by it.

(b) Each form certified by the Office of Defense Transportation will be sent directly to National Headquarters, Selective Service System, for transmittal to the appropriate local board.

ONEIDA LTD.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Revised Supplementary Order No. 119; *It is ordered:*

Order No. 17 under Supplementary Order No. 119 is redesignated Revised Order No. 17 under Revised Supplementary Order No. 119, and is amended and revised to read as follows:

(a) *Manufacturer's ceiling prices.* Oneida Ltd., Oneida, New York, may compute its adjusted ceiling prices for sales by it of all articles of silver plated flatware which it manufactures as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by no more than 23.4 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with Note 3 in section 8 of Revised Supplementary Order No. 119.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' maximum prices.* Purchasers for resale of an article of silver plated flatware which the manufacturer has sold at an adjusted maximum price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable

article" for which he has a properly established maximum price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

A purchaser for resale of an article covered by this order which is also covered by Maximum Price Regulation No. 210, shall determine his maximum prices for resale of such articles in accordance with the provisions of Maximum Price Regulation No. 210. A purchaser for resale who determines his maximum price for the sale of an article covered by this order pursuant to the method set forth in § 1372.102 of that regulation shall add his "initial percentage markup" to the actual invoice price (not to exceed his supplier's ceiling price) to him.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable Office of Price Administration regulation.

(d) *Relationship between this order and other orders.* The provisions of Supplementary Order No. 153 and of Order No. 226 under § 1499.159b of Maximum Price Regulation No. 188 shall not apply to any of the articles covered by this order.

(e) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify each purchaser in writing of the method of determining adjusted ceiling prices for sales of the articles covered by this order. This notice may be given in any convenient form.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 4th day of September 1946.

Issued this 3d day of September 1946.

PAUL A. PORTER,
Administrator.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 8. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.219 and all other provisions of Maximum Price Regulation No. 120.

[Pittsburgh Adopting Order 43 Under Basic Order 1 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN BEAVER COUNTY, PA.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of Region 2 by the Emergency Price Control Act of 1942 as amended, by General Order No. 68 as amended, and by Revised Procedural Regulation No. 1, which authority has been duly delegated by such Regional Administrator to the District Director, Pittsburgh District Office, it is hereby ordered:

SECTION 1. *What this order covers.* This Adopting Order under Basic Order No. 1 as amended, under General Order No. 68 as amended, covers sales by all persons to ultimate users or to purchasers for resale on an installed basis, of certain building materials listed in Schedule A hereto annexed[1] and generally known as "hard mason materials". All provisions of Basic Order No. 1 as amended, under General Order 68, as amended, are adopted in this order and are just as much a part of this order as if specifically set forth herein. If Basic Order No. 1 as amended, is further amended in any respect, the provisions of said order as amended, shall likewise without further action, become part of this order. All persons subject to this Adopting Order are also subject to Basic Order No. 1 as amended under General Order 68 as amended, and should be familiar with the provisions of said order.

SEC. 2. *Territory covered by this order.* The geographical area covered by this order is the county of Beaver in the State of Pennsylvania.

SEC. 3. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Schedule A hereto annexed and made a part of this order. The prices fixed in Schedule A cover all sales in the territory covered by this order, regardless of the location of the place of business of the seller.

SEC. 4. *Discounts, allowances, and terms of sale.* The maximum prices set forth in Schedule A are delivered prices on sales of more than $10 within a radius of 5 miles of the seller's yard. On delivered sales of $10 or less, a delivery charge of not more than 10% of the amount of the sale, may be made. All customary allowances, discounts and differentials must be preserved.

SEC. 5. *Relationship of this order to Basic Order No. 1 as Amended, Under General Order No. 68 as Amended, and to General Maximum Price Regulation, and other maximum price regulations.* As previously stated, all provisions of Basic Order No. 1 as amended, are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by the General Maximum Price Regulation, or by any other applicable regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall remain applicable to sales covered by this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each place of business within the area covered by this order.

SEC. 7. *Records and sales slips*—(a) *Required information.* The provisions of section (e) of Basic Order No. 1 as amended, covering sales slips and records are adopted in and applicable to this order, as if specifically set forth herein, and also on any sale of $25 or more, each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

(b) *Maximum prices for insufficiently described items.* Where the seller's records or sales slip upon a sale of any commodity covered by this order in the area covered by this order, do not contain a sufficiently complete description to identify the exact nature, type, size, or quantity of the commodity, and thus determine the maximum price fixed by Schedule A of this order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under Schedule A of this order in accordance with the incomplete description.

SEC. 8. *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective 12:01 A. M. July 1, 1946.

Issued this 20th day of June 1946.

District Director.

[Region II Rev. Adopting Order 2 Under Basic Order 1 Under Gen. Order 68, Amdt. 1]

BUILDING AND CONSTRUCTION MATERIALS IN NEW YORK CITY AND IN NASSAU COUNTY, N. Y.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, Revised Adopting Order No. 2, under Basic Order No. 1, as amended, under General Order No. 68, as amended, is hereby amended in the following respects:

1. A new section designated section 3A, is added immediately after section 3 to read as follows:

SEC. 3A. *Adjustment to reflect increase in suppliers price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers (including those subject to area orders issued under General Order 68) may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by an industry-wide or area-wide amendment or order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the Amendment or order increasing your suppliers maximum price.

2. Schedule A is amended as follows:

(a) The title of Schedule (A) is amended to read Revised Schedule A, dated June 30, 1946.

(b) Revised Schedule (A) is amended to read as follows:

[Richmond Order G–3 Under Gen. Order 68 and MPR 592]

BUILDING AND OTHER LIKE MATERIALS IN VIRGINIA

For the reasons set out in the accompanying opinion, it is hereby ordered:

SECTION 1. *Sales covered by this order.* Subject to the exclusions of section 2 below, this order shall apply to every sale—

(a) Which is a sale of any material listed in a schedule of this order included in Sec. 8 below, and (b) in which, within the area described in that schedule either the seller has his place of business or the material is to be installed or used by or for the purchaser, and (c) which is made either to an ultimate user (including, e. g., any commercial, industrial, institutional, governmental and individual or private user) or to any person buying for resale installed (including, e. g., any building contractor)—

it being intended by any reference appearing in this order to Sec. 8 or any schedule thereof to refer to the same as hereby made effective or as hereafter from time to time amended.

SEC. 2. *Sales excluded from this order.* This order shall not apply to any sale:

(a) of materials for installation or use by or for the purchaser within the counties of Arlington and Fairfax, any town or other place therein or the city of Alexandria, or (b) by a mail-order seller to the extent that such sale may have been exempted from the operation of this order as provided by section (f) of General Order No. 68, or (c) of clay building brick by any person other than the manufacturer out of stock not on the manufacturer's premises, or (d) of roofing or siding to any person buying the same for resale installed on old construction;

but the sales hereinabove in this section listed shall not thereby be deemed to be exempted from the operation of any regulation or order (other than this order) establishing prices for such sales.

SEC. 3. *Relation of this order to other regulations or orders.* Except insofar as the General Maximum Price Regulation, as heretofore or hereafter amended, is inconsistent herewith, it shall apply to all sales covered by this order; but, as to all such sales, this order (subject to the provisions of subsection (e) of section 4 thereof) shall supersede all regulations or orders, other than the General Maximum Price Regulation, heretofore or hereafter issued by the Office of Price Administration, including the following under General Order No. 68:

Number G–1, issued by the Director of the Roanoke District Office, Office of Price Administration, effective January 8, 1946.

Number G–1,, issued by the undersigned effective February 1, 1946.

Number G–2, issued by the undersigned effective April 8, 1946.

SEC. 4. *Maximum prices.* (a) Subject to the provisions of the following subsec-

tions of this sec. 4, on any sale of any material that is listed in some schedule hereof and is to be installed or used by or for the purchaser within the area described in that schedule, the price set out for the material in section (c) of the schedule shall be the seller's maximum price for the sale.

(b) If, however, the seller's place of business is within the area described in some other schedule hereof, section (c) of which lists the material sold and sets out a lower maximum price therefor than that determined pursuant to subsection (a) of this sec. 4, then such lower price shall be the seller's maximum price for the sale.

(c) Notwithstanding the provisions of the preceding subsections, the seller (except on sales of clay building brick) may require the purchaser to assume transportation costs on terms not more onerous than during March, 1942, were required of any purchaser of the same class by the seller or (if he was not then in business) by his most closely competitive seller of the same class who was.

(d) Notwithstanding the provisions of the preceding subsections, the seller's maximum price for clay building brick, if it is to be installed or used by or for the purchaser at a site within the seller's normal trading area as it existed in March 1942, shall be reduced by all transportation costs incurred by or for the purchaser, but if the site is outside that area and the seller does not make delivery to the site, then his maximum price shall be reduced by the sum of $5.50.

(e) Notwithstanding the provisions of the preceding subsections, the prices set out in section (c) of any schedule hereof shall be increased as and to the extent authorized by any order or regulation of the Office of Price Administration, or by any amendment thereof, but not unless the order, regulation or amendment takes effect subsequently to the effective date appearing on that schedule and authorizes sellers making sales covered by this order to increase their prices.

(f) Notwithstanding the provisions of the preceding subsections, maximum prices thereby established shall be reduced by the discount for prompt payment provided for by the schedules hereof.

SEC. 5. *Posting.* Every seller making sales covered by this order shall, in each of his places of business situated within the area described in any schedule hereof, post a copy of such schedule so that it shall be plainly visible to all purchasers.

SEC. 6. *Sales-slips and records.* (a) On every sale covered by this order, if the seller has customarily given purchasers sales slips or other evidence of sale, he shall continue to do so. Without regard to previous custom the seller upon the purchaser's request shall give him a receipt. If the seller customarily prepared sales-slips in more than one copy he must keep for at least six months after delivery a duplicate copy of each sales-slips delivered by him pursuant to this section; but without regard to previous custom he shall keep records of every sale amounting to $50.00 or more.

(b) Receipts required to be given to purchasers and records required to be kept by sellers shall show at least: (1) date of sale, (2) name and address of seller and purchaser, (3) complete description of each item sold and (4) the price received for it.

SEC. 7. *Violations.* On and after the effective date of this order it shall be a violation thereof:

(a) To make or offer to make any sale, to make or offer to make delivery, or in the course of trade or business to buy or offer to buy, at a price in excess of the price established by this order, or

(b) To evade any provision of this order by any scheme or device, or

(c) To require the purchaser, as a condition of his purchase, to make any additional purchase.

Any person violating this order, whether as hereinabove set out or otherwise, shall be subject to all criminal penalties, civil enforcement actions, license suspension proceedings and actions for triple damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 8. *Schedules.*

NEW YORK STATE NATURAL GAS CORP.

NOTICE OF APPLICATION

SEPTEMBER 3, 1946.

Notice is hereby given that on August 22, 1946, an application was filed with the Federal Power Commission by New York State Natural Gas Corporation (hereinafter referred to as "Applicant"), a New York corporation with its principal place of business in New York, New York, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended to authorize the Applicant to construct and operate a regulator and metering station at Rossburg, New York, and to sell natural gas to Fillmore Gas Company, Inc., for resale to ultimate consumers in eleven towns and one village in Livingston, Wyoming, and Allegany Counties, New York, as hereinafter more particularly described.

From the application and the exhibits it appears that except for the aforesaid metering and regulating station which is to be located at the point of delivery at Rossburg, New York, that suitable connections for delivery of natural gas from Applicant to Fillmore Gas Company, Inc., presently exist between facilities about to be acquired by Applicant and Fillmore Gas Company, Inc., from Cabot Gas Corporation. It further appears that the rates to be charged Fillmore Gas Company, Inc. are governed by the contract submitted with the application and that Applicant proposes to commence the aforesaid delivery of natural gas coincidentally with the completion of the acquisition of the Cabot Gas Corporation facilities.

Applicant estimates the over-all total cost of construction of facilities described herein will be $3,000, which it proposes to finance with cash on hand.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of New York State Natural Gas Corporation should file with the Federal Power Commission, Washington 25, D. C., not later that fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Merchants Service Corporation was dissolved and final disposition of all assets and liabilities was made August 27, 1942.

PAR. 4. Volunteer Stores, Inc., of America was organized by Merchants Service Corporation to lease from Volunteer Stores, Inc. of Tennessee the controlled private or buyers' label "Volunteer" and the Volunteer Stores system of retail distribution for the use of Merchants Service Corporation wholesale grocer shareholders. Volunteer Stores, Inc. of Tennessee is a Tennessee corporation controlled by King, Dobbs & Company, Chattanooga, Tennessee. King, Dobbs & Company was a shareholder in Merchants Service Corporation, is a shareholder in respondent Recorg Supply Corporation and Volunteer Stores, Inc. of America, and also appears as a member on respondent Paul M. All distributors operating under the Volunteer franchise were required to stock a specified number of items and it was further provided that any Merchants Service Corporation member failing to actively sponsor and promote the Volunteer Stores movement in the territory allotted would automatically forfeit the franchise to any other Merchants Service Corporation member desiring to actively sponsor and promote the Volunteer movement in such allotted territory. In addition to those Merchants Service Corporation wholesale grocer shareholders exclusively franchised for allotted territories, said label or brand was also made available to other groups of retail dealers sponsored by Merchants Service Corporation wholesale grocer shareholders where such sponsored retail dealers displayed on their store windows the legend "Affiliated with Volunteer Food Stores."

The surviving corporation, Alabama Gas, would issue and sell to The Chase National Bank of New York $2,000,000 principal amount of serial notes, $1,400,000 principal amount of such notes bearing interest initially at the rate of 2% per annum and maturing serially at the rate of $70,000 semi-annually commencing April 1, 1947; $600,000 principal amount of such notes bearing interest initially at the rate of 2½% per annum and maturing on October 1, 1957. The interest rate is subject to upward adjustment which is more fully set out in the filing, but in no event shall the interest rate exceed 3% per annum.

Alabama Gas proposes to apply the proceeds to be received from the issue of the notes towards (a) the redemption of all its outstanding First Mortgage Bonds, 4½% Series, due 1951 in the principal amount of $1,102,000 at the call price of 100.25%; and (b) the payment of a 6% First Mortgage Income Note due 1944 of Alabama Natural outstanding in the principal amount of $350,000, now owned by Southern. The balance, after payment of expenses, of approximately $538,000 will be used for financing its operations as a public utility company, including construction of additions and purchases of gas appliances for sale to its customers.

Southern proposes to use all or the major portion of the amount paid to it by Alabama Gas for the purchase of additional common stock of Birmingham Gas Company in accordance with an application to be filed with the Commission.

Sections 6 (b), 7, 9 (a), 10, 12 (c), 12 (d) and 12 (f) of the Act and Rules U-42, U-43, U-45 and U-50 promulgated thereunder have been designated as being applicable to the proposed transactions. The filing further states that the acquisition by Alabama Gas, the surviving corporation, of the utility assets of the constituent companies is subject to the jurisdiction of the Alabama Public Service Commission and would be exempt from sections 9 (a) and 10 of the act by virtue of section 9 (b) (1) thereof upon the express authorization of the proposed acquisition by the Alabama Public Service Commission.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations (or both) shall not be granted or be permitted to become effective except pursuant to further order of the Commission.

It is ordered, That a hearing on said matters under the applicable provisions of the act and the Rules of the Commission thereunder be held on September 17, 1946, at 10:00 a. m., e. d. s. t., at the office of the Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. Any person proposing to be heard or otherwise to participate in these proceedings shall file with the Secretary of the Commission, on or before September 16, 1946, a written request relative thereto as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Willis E. Monty or any other officer or officers of this Commission designated by it for that purpose, shall preside at the hearing on such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed merger will serve the public interest by tending toward the economical and efficient development of an integrated public utility system;

2. Whether the proposed acquisition of utility assets by Alabama Gas has been expressly authorized by a State Commission, and whether the proposed issuance and sale of securities by Alabama Gas are solely for the purpose of financing the business of Alabama Gas and have been expressly authorized by the State Commission of the State in which Alabama Gas is organized and doing business.

3. Whether the proposed transactions are detrimental to the carrying out of the provisions of section 11 (b) of the act.

4. Whether the payment by Alabama Gas to Southern of the 6% First Mortgage Income Note in the principal amount of $350,000 is detrimental to the public interest or the interest of investors or consumers.

5. Whether the fees, commissions, or other remunerations to be paid in connection with the proposed transactions are reasonable.

6. Whether the accounting entries to be made in connection with the proposed transactions are proper and in accordance with sound accounting principles.

7. Generally, whether the proposed transactions are in all respects in the public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder and, if not, what modifications should be required to be made therein and what terms and conditions should be imposed to satisfy the statutory standards.

It is further ordered, That notice of said hearing is hereby given to the applicants-declarants and to all interested persons; said notice to be given to Southern Natural Gas Company, Alabama Gas Company, Alabama Natural Gas Corporation, Huntsville Gas Company, Alabama Public Service Commission, and the Federal Power Commission, by registered mail, and to all other persons by general release of this Commission, distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this notice in the FEDERAL REGISTER.

TITLE 7—AGRICULTURE

Subtitle A—Office of Secretary of Agriculture

PART 7—PRICE DECONTROL AND RECONTROL

ADJUSTMENT IN MAXIMUM PRICE FOR FLAXSEED

Pursuant to the authority vested in me by the Emergency Price Control Act of 1942, as amended, and particularly by section 1A (e) (2) (A) of said act as added by the Price Control Extension Act of 1946, I hereby determine that continuation of the maximum price applicable to flaxseed on June 30, 1946, would impede the necessary production of such commodity and that an adjustment in such price is necessary to obtain the necessary production. I, therefore, recommend to the Price Administrator that the maximum price for U. S. An increase in the ceiling price of flaxseed is necessary to encourage the movement of 1946 crop to crushing mills and to encourage a greater production of flaxseed in 1947. I have, therefore, recommended that the maximum price for flax-

The Bureau shall make no independent determinations concerning any matter determinable by the Bonneville Power Administrator, but shall accept the determinations of the Administrator or his designated agents with respect thereto as evidenced either by tax returns filed pursuant to section 1426 (j) of the Internal Revenue Code or by certifications. In any case in which information necessary to the disposition of a claim or proceeding shall be lacking as to any matter determinable by the Bonneville Power Administrator, or in which information set forth in such tax returns appears to be incomplete or questionable, the Bureau shall request the Bonneville Power Administrator or his appropriate designated agent to make certification to it in writing of such missing, incomplete, or questionable information.

7. Section 403.708, paragraph (e), is amended by changing the last subparagraph thereof to read as follows:

§ 403.708 *Reconsideration.* • • •

(e) *Reconsidered determination.* • • •.

(f) *Procedure in cases involving wartime maritime services in the employ of the United States and certain services in the employ of the Bonneville Power Administrator.* Special provisions concerning review of decisions with respect to matters determinable by the Administrator, War Shipping Administration (see § 403.706 (a) (6)), and by the Bonneville Power Administrator (see § 403.706 (a) (7)) are contained in § 403.711a.

10. Section 403.711a is amended to read as follows:

§ 403.711a *Hearing and review in cases involving wartime maritime services in the employ of the United States and certain services in the employ of the Bonneville Power Administrator.* The provisions of this section shall govern hearings and review in all cases in which issues appear or are presented involving wartime maritime services constituting employment in the employ of the United States (see § 403.803 (d)) or involving services constituting employment in the employ of the Bonneville Power Administrator (see § 403.803 (e)).

The Appeals Council, its members and referees, and the Regional Directors of the Social Security Administration for the Territories of Alaska and Hawaii, in matters determinable by the Administrator, War Shipping Administration, pursuant to section 209 (o) of the act (see §§ 403.803 (d) and 403.827 (c)) and in matters determinable by the Bonneville Power Administrator pursuant to section 209 (p) of the act (see §§ 403.803 (e) and 403.827 (d)) and involved in or presented at hearings conducted pursuant to section 205 (b) of the act, as amended, will make determinations of such matters under their designation as agents of the Administrator, War Shipping Administration, or under their designation as agents of the Bonneville Power Administrator, as the case may require. Such designations are set out in General Order No. 50 of the Administrator, War Shipping Administration, and in a letter of the Bonneville Power Administrator to the Social Security Board dated July 3, 1946. When hearing or reviewing a case involving such wartime maritime service or involving such service in the employ of the Bonneville Power Administrator, the Appeals Council, member, referee, or Regional Director will function in a dual capacity, on the one hand as designated agent of the Administrator, War Shipping Administration, or of the Bonneville Power Administrator, as the case may require, and on the other hand as referee or Appeals Council, as the case may be, in the Social Security Administration. All issues involved in such a case may be disposed of at a single hearing or review and by a single decision.

(a) *Right to hearing.* Any party designated in § 403.709 (c) shall be entitled to a hearing with respect to any matter designated in § 403.706 (a) after an initial determination has been made by the Bureau, if such party files, as provided in § 403.709 (b), a written request for such hearing.

(b) *Parties to hearing.* The parties to a hearing in cases involving wartime maritime services constituting employment in the employ of the United States shall be those specified in § 403.709 (c) together with the General Agent of the War Shipping Administration who shall have filed the tax return or made the certification referred to in § 403.706 (a) (6), or, in the event that there is no such General Agent, the Administrator, War Shipping Administration. The parties to a hearing involving employment in the employ of the Bonneville Power Administrator shall be those specified in § 403.709 (c) together with the Bonneville Power Administrator.

(c) *Conduct of hearing.* The hearing shall be conducted in accordance with § 403.709 (d) (e) (f) (g) (h) (i) and (j), except as hereinafter set forth. Evidence shall be received from any party as to the performance of services claimed to be wartime maritime services constituting employment in the employ of the United States (see § 403.803 (d)) or claimed to be employment in the employ of the Bonneville Power Administrator (see § 403.803 (e)), as the case may require, the period of performance of such services, the remuneration therefor, the periods in which and for which such remuneration was paid, and whether the remuneration for services in the employ of the Bonneville Power Administrator constitutes wages (see § 403.827 (c) and (d)).

(d) *Referee's decision or certification to Appeals Council.* As soon as practicable after the close of a hearing, the referee shall make a decision in the case or certify the case to the Appeals Council for decision. The referee shall not remand to the Bureau for revision any case heard pursuant to the provisions of this section.

The referee's decision shall be based upon the evidence adduced at the hearing. The decision shall be made in writing and be divided into two parts. The first part shall consist of a determination relative to the question of wartime maritime service constituting employment in the employ of the United States as defined by section 209 (o) (1) of the act, or relative to the question of service constituting employment in the employ of the Bonneville Power Administrator as defined by section 209 (p) (1) of the act, as the case may require, specifically whether the performance of the services in question constitute such employment, the period of such employment, the remuneration therefor, the periods in which and for which such remuneration was paid, and whether the remuneration for services in the employ of the Bonneville Power Administrator constitutes wages under section 209 of the act. The determination shall contain findings of fact and a statement of reasons. Such determination shall be made by the referee as agent for the Administrator, War Shipping Administration, or the Bonneville Power Administrator, as the case may require, and shall be so subscribed by him. In reaching and making such determination as designated agent, the referee shall follow the provisions of section 209 (o) of the Act (see §§ 403.803 (d) and 403.827 (c)) and the regulations or orders issued pursuant thereto from time to time by the Administrator, War Shipping Administration, or the provisions of section 209 (p) of the act (see §§ 403.803 (e) and 403.827 (d)) and the regulations or orders issued pursuant thereto from time to time by the Bonneville Power Administrator, as the case may require. The second part of the decision shall consist of the referee's findings and statements of reasons upon all matters not determinable by the Administrator, War Shipping Administration, or the Bonneville Power Administrator, together with his decision in the entire case, based upon both his determination as such designated agent and his findings as referee in the Social Security Administration. In reaching the conclusions required by the second part of the decision he shall be governed by all rules and regulations of the Social Security Administration.

A copy of the decision shall be mailed to the parties at their last known addresses.

(e) *Procedure before Appeals Council on certified case.* The procedure before the Appeals Council when a case has been certified to it by a referee without decision shall be as set forth in § 403.710 (a), except that the decision of the Appeals Council shall be in the form prescribed in paragraph (d) of this section.

(f) *Procedure before Appeals Council on review of referee's decision.* The decision of a referee made as provided in paragraph (d) of this section shall be subject to review by the Appeals Council in the manner provided by § 403.710 (b). The procedure before the Appeals Council on such review shall be as provided in § 403.710 (c), and a case may be remanded to a referee as provided in § 403.710 (d). The decision of the Appeals Council, where the case is not remanded, shall be in the form and mailed as prescribed by § 403.710 (d) except that it shall be divided into two parts in the form prescribed in paragraph (d) of this section.

(g) *Extension of time and revision.* The provisions for extensions of time, revision, and extensions of time for commencing a civil action in a district court of the United States, set forth in § 403.711, shall be applicable to proceedings under this section.

(h) *Effect of decisions.* Decisions of the Appeals Council and decisions of referees not reviewed by the Appeals Council, rendered under this section, shall be final and binding upon all parties to the hearing, subject only to review by a civil action filed in a district court of the United States as provided by section 205 (g) of the act, or as provided in paragraph (g) of this section.

That portion of the final decision which represents the determination of the Administrator, War Shipping Administration, by his designated agent, or of the Bonneville Power Administrator, by his designated agent, as the case may require, shall supersede all previous determinations and certifications of such Administrator or his designated agents as to the matters involved in such factor of the final decision.

11. The statutory provisions preceding § 403.801 are amended by inserting after subsection (o) of section 209 and immediately preceding section 1101 of the act the following:

(p) (1) The term "employment" shall include such service as is determined by the Bonneville Power Administrator (hereinafter called the Administrator) to be performed after December 31, 1945, by a laborer, mechanic, or workman, in connection with construction work or the operation and maintenance of electrical facilities, as an employee performing service for the Administrator, but shall not include any service performed by such a laborer, mechanic, or workman, to whom the Act of May 29, 1930 (46 Stat. 468), as amended, applies.

(2) The Social Security Board shall not make determinations as to whether an individual has performed services which are employment by reason of this subsection, the periods of such services, the amounts of remuneration for such services which constitutes "wages" under the provisions of this section, or the periods in which or for which such wages were paid, but shall accept the determinations with respect thereto of the Administrator, and such agents as he may designate, as evidenced by returns filed by the Administrator as an employer pursuant to section 1426 (j) of the Internal Revenue Code and certifications made pursuant to this subsection. Such determinations shall be final and conslusive.

(3) The Administrator is authorized and directed, upon written request of the Social Security Board, to make certification to it with respect to any matter determinable for the Board by the Administrator under this subsection, which the Board finds necessary in administering this title. (As added by section 7 (b) of the Act of October 23, 1945, 59 Stat. 546.)

12. The statutory provisions preceding § 403.803 are amended by inserting at the end thereof the following:

SECTION 209 (p) OF THE ACT

(p) (1) The term "employment" shall include such service as is determined by the Bonneville Power Administrator (hereinafter called the Administrator) to be performed after December 31, 1945, by a laborer, mechanic, or workman, in connection with construction work or the operation and maintenance of electrical facilities, as an employee performing service for the Administrator, but shall not include any service performed by such a laborer, mechanic, or workman, to whom the Act of May 29, 1930 (46 Stat. 468), as amended, applies.

(2) The Social Security Board shall not make determinations as to whether an individual has performed services which are employment by reason of this subsection, the periods of such services, the amounts of remuneration for such services which constitutes "wages" under the provisions of this section, or the periods in which or for which such wages were paid, but shall accept the determinations with respect thereto of the Administrator, and such agents as he may designate, as evidenced by returns filed by the Administrator as an employer pursuant to section 1426 (j) of the Internal Revenue Code and certifications made pursuant to this subsection. Such determinations shall be final and conclusive.

(3) The Administrator is authorized and directed, upon written request of the Social Security Board, to make certification to it with respect to any matter determinable for the Board by the Administrator under this subsection, which the Board finds necessary in administering this title. (As added by section 7 (b) of the Act of October 23, 1945, 59 Stat. 546.)

13. Section 403.803, paragraph (a), is amended by changing the first sentence to read:

§ 403.803 *Employment after December 31, 1939*—(a) *In general.* Whether services performed on or after January 1, 1940, constitute employment is determined under section 209 (b) of the act, effective on and after January 1, 1940, under section 209 (o) of the act, effective on and after October 1, 1941, and under section 209 (p) of the act, effective on and after January 1, 1946, each as amended from time to time. • • •

14. Section 403.803, paragraph (b), is amended by changing the first sentence to read:

§ 403.803 *Employment after December 31, 1939.* • • •

(b) *Services performed within the United States.* Services performed on or after January 1, 1940, within the United States, that is, within any of the several States, the District of Columbia, or the Territory of Alaska or Hawaii, by an employee for the person employing him, unless specifically excepted by section 209 (b) of the act, as modified by section 209 (o) and section 209 (p), constitute employment within the meaning of the act.

15. Section 403.803 is further amended by adding a new paragraph, (e), as follows:

§ 403.803 *Employment after December 31, 1939.* • • •

(e) *Services in the employ of the Bonneville Power Administrator.* Services performed by a laborer, mechanic, or workman, not subject to the Civil Service Retirement Act (46 Stat. 468) as amended, in connection with construction work or the operation and maintenance of electrical facilities as an employee performing service for the Bonneville Power Administrator, if performed on or after January 1, 1946, constitute employment. If services of the foregoing type are performed both by employees subject to the Retirement Act and employees not so subject, only the services performed by the employees not so subject constitute employment under this section. The citizenship or residence of the employee is immaterial.

In making decisions (see §§ 403.706–403.711a), the Social Security Administration will accept as conclusive upon it final determinations of the Bonneville Power Administrator and his designated agents under section 209 (p) of the act as to whether an individual has performed services described herein which are employment by reason of such section, or as to the periods of such services.

16. The first sentence of § 403.806 is amended to read:

§ 403.806 *Excepted services in general.* Except as provided by section 209 (o) of the act, effective on and after October 1, 1941 (see § 403.803 (d)), and by section 209 (p), effective on and after January 1, 1946 (see § 403.803 (e)), services performed on or after January 1, 1940, by an employee for the person employing him do not constitute employment under title II of the act if they are specifically excepted by any of the numbered paragraphs of section 209 (b) of the act, effective January 1, 1940, as amended from time to time. • • •

17. The first paragraph of § 403.807 is amended to read as follows:

§ 403.807 *Included and excluded services.* If a portion of the services performed by an employee for the person employing him during a pay period constitutes employment, and the remainder does not constitute employment, all the services of the employee during the period shall be treated alike, that is, all as included or as excluded. The time during which the employee performs services which under section 209 (b), (o) or (p) of the act constitute employment and the time during which he performs services which, under such section do not constitute employment, within the pay period, determine whether all the services during the pay period shall be deemed to be included or excluded.

18. The first sentence of § 403.813 is amended to read:

§ 403.813 *United States and instrumentalities thereof.* Services performed in the employ of the United States Government, except as provided in section 209 (o) (as to which see § 403.803 (d)) and section 209 (p) (as to which see § 403.803 (e)) of the act, are excepted.

19. The following statutory provisions are inserted immediately preceding § 403.827:

Such determinations shall be final and conclusive.

(3) The Administrator is authorized and directed, upon written request of the Social Security Board, to make certification to it with respect to any matter determinable for the Board by the Administrator under this subsection, which the Board finds necessary in administering this title. (As added by section 7 (b) of the Act of October 23, 1945, 59 Stat. 546, effective January 1, 1946.)

20. Section 403.827 is amended by adding at the end a new paragraph, (d), as follows:

§ 403.827 *Wages.* • • •

(d) *Determination of wages for services by employees of the Bonneville Power Administrator.* In making decisions (see §§ 403.706–403.711a) the Social Security Administration will accept as conclusive upon it final determinations of the Bonneville Power Administrator and his designated agents under section 209 (p) of the act as to the amounts of remuneration for certain services by employees of the Administrator which are employment by reason of such section (see § 403.803 (e)), or as to the periods in which or for which such remuneration was paid, or as to whether the amounts of remuneration for such services constitute wages under the provisions of section 209 of the act.

PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Supp. Service Reg. 73]

FROZEN FOOD LOCKER SERVICE IN THE STATE OF VERMONT

A statement of the considerations involved in the issuance of this supplementary service regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register. For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599, and 9651, Supplementary Service Regulation No. 73 is hereby issued.

§ 1499.714 *Services covered.* (a) This regulation applies to the rental of frozen food storage lockers of fifteen cubic feet or less, and to the services furnished in connection with the operation of such lockers, in the State of Vermont. Frozen food storage lockers of more than fifteen cubic feet capacity and incidental services offered in the course of business or trade are covered by Maximum Price Regulation 586.

(b) *Applicability of other regulations.* Except as provided herein to the contrary, all provisions of Revised Maximum Price Regulation 165 and any other applicable service regulation shall apply to the services covered by this regulation.

(c) *Maximum price determination.* (1) The maximum average rental price for locker space shall be $2.00 per cubic foot per year for each unit or tier of lockers. The rental price for any one locker shall not exceed $2.50 per cubic foot per year.

Example: If a tier or unit contains five lockers having a capacity of six cubic feet each, the total available space would be thirty cubic feet for which the total rental charge (at $2.00 per cubic foot) could not exceed $60.00. However, the rental price for the individual lockers in the unit or tier may vary according to the standards established by the operator of the locker plant just so long as (i) the average rental price for the entire unit does not exceed $2.00 per cubic foot, and (2) the rental price for any one locker in the unit or tier does not exceed $2.50 per cubic foot.

(2) The maximum price for the rental of overflow space shall be $0.01 per pound per month, but the total charge shall not exceed the monthly rental charge for the locker.

(3) The maximum prices that may be charged for food processing services and for miscellaneous services in connection with the rental of frozen food storage lockers shall be those amounts set forth in Appendix A.

NOTE: If you are the seller of any of the commodities upon which the services are performed, and such services are within the provisions of any regulation governing the sales of such commodities, then you may not make the additional charges listed in Appendix A.

(4) No charges other than those specified in this regulation may be made for the rental of frozen food storage lockers or for any service in connection therewith, except:

(i) An additional charge may be made for insurance, *Provided*, That by the terms of the insurance policy the benefits in case of loss are paid directly to the customer.

(ii) A customer may be required to pay a key deposit, provided such deposit is refundable upon the return of the key.

(d) *Posting.* Every seller subject to this regulation shall within 15 days after the issuance of this regulation, post on his premises in such a place and manner as to be plainly visible to the purchasing public, a statement setting forth the services and the maximum prices established by this regulation.

(e) *Previously established prices.* If any locker operator has previously established prices for the services covered herein based on his prices of March 1942, under Revised Maximum Price Regulation 165, and has properly filed such maximum prices on or before December 31, 1942, he may now elect to retain those maximum prices, provided a statement of such election is filed with the Vermont District Office, setting out the services and the maximum prices and the date they were filed. Such statement must be filed within 30 days after the issuance of this regulation.

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

EDUCATIONAL AND TRAINING PROVISIONS

Sec.

36.270 Spirit and intent of the educational and training provisions of the Servicemen's Readjustment Act.
36.271 Application of standards for "other training on the job" and approved standards for apprentice training.
36.272 Payment of subsistence allowance authorized by the Servicemen's Readjustment Act, as amended by Public Law 679, 79th Congress, August 8, 1946.

AUTHORITY: §§ 36.270 to 36.272, inclusive, issued under 58 Stat. 284; 38 U. S. C. 693; Public Law 679, 79th Congress.

§ 36.270 *Spirit and intent of the educational and training provisions of the Servicemen's Readjustment Act.*

The legislative history of the Servicemen's Readjustment Act reveals that the underlying spirit and intent of the educational and training provisions of the Servicemen's Readjustment Act is to provide an opportunity to each veteran whose education or training was interrupted by reason of his entrance into the service to resume his education or training as a trainee and thereby aid him to attain knowledge or skill which presumably he could have attained but for his service in the armed forces. It is the intent of the law that the veteran have the right to elect his course of education or training at any approved educational or training institution at which he chooses to enroll which will accept or retain him as a student or trainee in any field or branch of knowledge which such institution finds him qualified to undertake or pursue.

OMAR N. BRADLEY,
Administrator of Veterans' Affairs.

§ 36.271 *Application of standards for "other training on the job" and approved standards for apprentice training.* (a) One of the purposes of Public Law 679, 79th Congress, is to lay a sound foundation for the highest quality of training which may be given to a veteran who elects to pursue a course of training on-the-job and to prevent the abuses which have come to the attention of the Veterans Administration during the past several months.

(b) Paragraphs 11 (b) and 11 (b) 1 of Public Law 679, 79th Congress, provide that:

(b) As used in this part the term "Other training on the job" shall include courses offered by establishments approved by the appropriate agency of the State or the Administrator whenever such courses of training on the job are furnished in accordance with the following provisions:

1. Any establishment desiring to undertake an on-the-job training program will be required to submit to the appropriate State approving agency a written application setting forth the course of training for each job for which a veteran is to be trained. The written application covering the training program will include the following:

a. Title and description of the specific job objective for which the veteran is to be trained.

b. Length of the training period.

c. Schedule listing various operations for major kinds of work or tasks to be learned and showing for each, job operations or work, tasks to be performed, and the approximate length of time to be spent on each operation or task.

d. Wage or salary to be paid at the beginning of the training program, at each successive step in the program, and at the completion of training.

e. Entrance wage or salary paid by the establishment to employees already trained in the kind of work for which the veteran is to be trained.

f. Number of hours of supplemental instructions required.

(c) Paragraph 11 (b) 2 of Public Law 679 provides that:

The appropriate approving agency of the State or the Administrator may approve the application of the establishment when such establishment is found upon investigation to have met or made provision for meeting the following criteria:

a. The training content of the program is adequate to qualify the veteran for appointment to the job for which he is to be trained.

b. There is reasonable certainty that the job for which the veteran is to be trained will be available to him at the end of the training period.

c. The job is one in which progression and appointment to the next higher classification are based upon skills learned through organized training on the job and not on such factors as length of service and normal turnover.

d. The wages to be paid the veteran for each successive period of training are not less than those customarily paid in the establishment and the community to a learner in the same job and who is not a veteran and are in conformity with State and Federal laws and applicable bargaining agreements.

e. The job customarily requires a period of training of not less than three months and not more than two years of full-time training.

f. The length of the training period is no longer than that customarily required by the establishment and other establishments in the community to provide the trainee with the required skills, arrange for the acquiring of job knowledge, technical information, and other facts which the trainee will need to learn in order to become competent on the job for which he is being trained.

g. Provision is made for related instruction for the individual veteran who may need it.

h. There is in the establishment adequate space, equipment, instructional material, and instructor personnel to provide satisfactory training on the job.

i. Adequate records are kept to show the progress made by the veteran toward his job objective and a periodic report showing the conduct and progress made in the course of training on the job will be provided for the Veterans' Administration.

j. Appropriate credit is given the veteran for previous job experience, whether in the military service or elsewhere, his beginning wage adjusted to the level to which such credit advances him and his training period shortened accordingly. No course of training will be considered bona fide if given to a veteran who is already qualified by training and experience for the job objective.

k. A copy of the training program as approved by the State agency is provided to the veteran and to the Veterans' Administration by the employer.

l. Upon completion of the training the veteran is given a certificate by the employer indicating the length and type of training provided and that the veteran has completed the course of training on the job satisfactorily.

(d) (1) The above quoted paragraphs pertain to "other training on the job" as distinguished from "apprentice training." For the purposes of Part VIII, as amended, apprentice training courses are those under the supervision of a State apprenticeship agency, a State apprenticeship council or the Federal Apprentice Training Service and those courses leading to an occupation the performance of duties of which requires the use of skills learned through training on-the-job and to which appointment is based upon having been trained on the job rather than such elements as length of service, normal turn-over, personality and personal characteristics which courses, although not under the supervision of a State apprenticeship agency, a State apprenticeship council or the Federal Apprentice Training Service, are nevertheless definitely identified as apprentice training courses by the establishments offering the courses and are recognized as such by the State approving agency or approved by the Administrator as apprentice training courses, and which, in addition to meeting the requirements and criteria of paragraph 11, excepting subparagraph 11 (b) 2, e, provide for a well-defined, written agreement between the establishment and the trainee setting forth the terms and conditions of training. For a veteran to be entitled, under Part VIII, as amended, to subsistence allowance for any period in any course of training on the job which is in excess of two years, the establishment offering the course must take steps either to have the course qualified as an apprentice course, as defined above, or reduce the course to a length not exceeding two years. Where an establishment has taken steps to have such a course so qualified, a reasonable opportunity for completion of such action shall be given the establishment before the training status of any veteran enrolled in such a course is interrupted. Paragraphs 11 (b) 1 and 11 (b) 2 do not apply to apprentice training courses but where, pursuant to paragraph 11 (b) 3, supervision of veterans in apprentice training is conducted in accordance with existing instructions, the course or program will be judged on the basis of the requirements and criteria in paragraphs 11 (b) (1) and 11 (b) 2, except that the criterion in subparagraphs 11 (b) 2, e shall not apply. Where deficiencies are found, a reasonable opportunity will be given the establishment to make correction in accordance with established procedure.

(2) Under the criteria of paragraph 11 (b) no job will be recognized as training on the job if it is a regularly established productive employment opportunity in which training, if any, is merely incidental to the operations required in performing the duties of the job; to meet such criteria training must be the primary factor, any compensation for productive labor, being merely coincidental to the training and not because of the performance of the prescribed duties of a regular job.

(e) (1) Except as provided herein, pursuant to the provisions of paragraphs 11 (b) 3, benefits may not be paid under

Part VIII, as amended, to any veteran who is enrolled in training on the job in an establishment which has not been approved by the appropriate State approving agency or the Administrator in accordance with the requirements and criteria of Public Law 679 or to a veteran enrolled in a course of training on the job which exceeds two years in length unless such course is classified as an apprentice training course, as defined in paragraph (d) of this section. In any course offered by establishments approved by the appropriate approving agency of the State or the Administrator prior to the enactment of Public Law 679, payments to veterans already enrolled in such courses or who may enroll in such courses will be continued unless such courses are disapproved by the State approving agency for failure to meet the requirements and criteria of paragraph 11 or incident to the supervision of veterans are found by the Regional Office to be not in accordance with such requirements and criteria. It is expected that by January 1, 1947, the approving agencies of the State will recertify or disapprove those establishments approved prior to the enactment of Public Law 679 which do or do not meet the appropriate requirements and criteria of paragraph 11.

(2) The Training Facilities Section will notify the Registration and Research Section and the Education and Training Section of the names of those establishments and the courses in such establishments which the appropriate approving agency of the State disapprove in order that appropriate action may be taken by such sections in order to prevent future enrollments; where in supervising veterans under appropriate instructions, it is found that the course offered by a particular establishment fails to meet the requirements and criteria in paragraph 11, the Education and Training Section shall notify promptly the Registration and Research Section and the Training Facilities Section in order that such sections may take appropriate action to prevent future enrollments in such courses.

(f) In order that it may be ascertained whether awards of benefits are proper and may be continued to veterans now in training it is necessary to determine whether the training situation of every veteran in training on the job under Part VIII meets the requirements and criteria of the above quoted paragraphs 11 (b) 1 and 11 (b) 2, excepting subparagraph 11 (b) 2, e for apprentice courses. Accordingly, it is directed that each Regional Office shall conduct immediately a survey of the records of all veterans pursuing, on a full-time or part-time basis, any type of training on the job under Part VIII, including any combination of school training with on the job or on the farm training. Where the review of the records indicates that veterans are pursuing training in establishments offering courses which meet the requirements and criteria of paragraphs 11 (b) 1 and 11 (b) 2, excepting subparagraph 11 (b) 2, e for apprentice courses, those veterans may be eliminated from further immediate consideration other than the regular supervision in accordance with the provisions of §§ 36.239 to 36.241, inclusive. However, where such review does not disclose positive evidence that the course pursued by any veteran meets the requirements and criteria of paragraphs 11 (b) 1 and 11 (b) 2, excepting subparagraph 11 (b) 2, e for apprentice courses, the veteran will be supervised with the greatest possible dispatch on the basis of, and in accordance with established procedure and a definite determination made as to whether, in consideration of paragraph 11 (b) 3, award of benefits may be authorized or continued.

(g) The services of all training officers, with the exception of those which are responsible for inducting into training and supervising disabled veterans who are pursuing courses of vocational rehabilitation under Public Law 16, will be utilized in the supervision of veteran enrollees whose courses are not shown by the review of the records to meet the requirements and criteria of paragraphs 11 (b) 1 and 11 (b) 2, excepting subparagraph 11 (b) 2, e for apprentice courses, in order that the training situation of all veterans training on the job under Part VIII will be known at the earliest possible date and necessary adjustments made in awards to veterans in accordance with the provisions of paragraph 11 (b) 3.

(h) A preliminary report of the results of the survey and progress in the supervision of veterans not known to be in courses which meet the requirements and criteria of paragraphs 11 (b) 1 and 11 (b) 2, excepting subparagraph 11 (b) (2), e for apprentice courses, shall be made by Regional Offices through the appropriate Branch Office to the Assistant Administrator for Vocational Rehabilitation and Education not later than October 15, 1946. Supervision of all veterans not known to be in satisfactory training status shall be completed and a final report of the results shall be submitted not later than January 1, 1947.

§ 36.272 *Payment of subsistence allowance authorized by the Servicemen's Readjustment Act, as amended by Public Law 679, 79th Congress, August 8, 1946.* (a) One of the purposes of Public Law 679, 79th Congress, approved August 8, 1946, is to establish by legislation a fair principle for aiding all veterans, as students or trainees, with subsistence allowances while enrolled in or pursuing a course of education or training and to eliminate discrimination in the awarding of subsistence allowances. Subsistence allowance is a monetary allowance payable to and intended to provide a veteran, who as a trainee has resumed his education or training under the provisions of the Servicemen's Readjustment Act, with a measure of support during his education or training status. It is not a pension, compensation or a bonus. The law does not contemplate that the Government would defray the entire living costs of the veteran or his family. The law intends that all veterans, whether they elect courses of education or training in a school, college or university or elect courses of training on the job to supply them with needed skills, should be treated alike during their periods of training as to the payment of subsistence allowance.

(b) Subsistence allowance payments now being made to veterans pursuing courses of education or training will continue in amounts authorized under existing instructions until a decision is made under the provisions of § 36.272 (e) by reason of receipt of the trainee's report of compensation for productive labor for the months of August, September or October 1946, unless notice is received to interrupt or discontinue training under the procedure provided in § 36.271, paragraph (e).

(c) (1) Paragraph 6, section 2, Public Law 679, 79th Congress, provides:

While enrolled in and pursuing a course under this part, such person, upon application to the Administrator shall be paid a subsistence allowance of $65 per month, if without a dependent or dependents, or $90 per month if he has a dependent or dependents, including regular holidays and leave not exceeding thirty days in a calendar year. Such person attending a course on a part-time basis, and such person receiving compensation for productive labor whether performed as a part of their apprentice or other training on-the-job at institutions, business, or other establishments, or otherwise, shall be entitled to receive such lesser sums, if any, as subsistence or dependency allowances, as may be determined by the Administrator: *Provided*, That in no event shall the rate of such allowance plus the compensation received exceed $175 per month for a veteran without a dependent or $200 per month if he has a dependent or dependents.

(2) Compensation for productive labor means wages, salary, commission, bonus or other payments received by a veteran by reason of his employment, whether self-employed or otherwise, and regardless of whether such employment is related to his training. Accordingly, definitions and limitations of this paragraph will apply to all persons whether in institutional training or in training on the job.

(i) The term wages means wages for the standard work period of the establishment where the veteran is employed and will include overtime work customarily scheduled, but will not include occasional overtime beyond the standard work period of the establishment.

(ii) When lodging, meals, laundry or other services are furnished a person in training as a part of his compensation for productive labor, for example, to a resident nurse or an agricultural worker, an allowance representing the reasonable value of such services will be added to the actual wages or salary in determining the rate of compensation received.

(iii) Where by reason of the type of the employment, compensation is seasonal or irregular, the veteran's overall compensation over a period of not exceeding twelve months should be prorated in determining the monthly rate to be applied.

(d) Determinations concerning the rate of subsistence allowance payable will be made in accordance with the following: (1) Existing criteria by which the amounts of subsistence allowances are determined in cases of part-time courses remain effective. In cases of compensation received for productive

labor performed as a part of on the job training, existing criteria remain effective except that where possible within the limitations contained in paragraph 6 of the act, adjustments in payments of subsistence allowance will be to the nearest higher multiple of $5. For example, if the difference between the trained worker's wage rate and the trainee's wage rate is $56.80 the subsistance allowance rate will be considered the next higher multiple of $5, which is $60, provided the maximum rates of paragraph 6 are not exceeded.

(2) This amendment removes the bar against the payment of subsistence allowance in the case of a veteran engaged in full-time employment not a part of his course and provides additional limitations by fixing maximum amounts which may be received by a veteran in the form of subsistence allowance and compensation for productive labor, combined. Where subsistence allowance was not in course of payment on August 8, 1946, because of the holding of A. D. 603, subsistence allowance, if in order under the restrictions in the proviso to paragraph 6 of the act, will be authorized as of August 8, 1946 or as of a subsequent date from which subsistence allowance is shown to be payable.

(3) Any veteran pursuing a course of education or training at any approved educational or training institution will not be entitled to any subsistence allowance if he received compensation for productive labor in excess of the rate of $175 per month as to a veteran without a dependent or dependents, or $200 per month as to a veteran with a dependent or dependents. If such compensation is less than the applicable amount, the veteran may receive subsistence allowance at a rate not to exceed the difference—subject, of course, to the limitations in effect with respect to pursuance of part-time courses and with respect to differential between wage rates of the trainee and the trained worker.

(4) In determining whether the proviso to paragraph 6 of the act will affect payments, the total of compensation received from productive labor will be prorated over an entire period of reporting (not exceeding 12 months in length) to determine whether the rate of the sum of subsistence and compensation exceed the $175 or $200 limitation. Where adjustment in the rate of subsistence allowance is in order the appropriate rate will likewise be a uniform amount for the entire period covered by the report.

(5) For veterans pursuing cooperative courses consisting of alternating periods of school or college training and training on the job the rate of subsistence allowance to be paid will be arrived at in accordance with the following:

(i) The rate appropriate to that part of the course pursued in a school or college will be adjusted to provide a level rate over a period representing a complete phase of the program, that is, one period of school or college training and one period of on-the-job training. The rate appropriate to that part of the course consisting of on-the-job training will similarly be adjusted to provide a level rate over a complete phase of the program and the results added to obtain the rate payable over an extended period of time. For example, a married veteran is pursuing a course of training consisting of seven weeks of college training on a full-time basis, alternating with eight weeks of on-the-job training of forty hours weekly. Because of the differential in wages between a trainee and the trained worker the rate of $50 is payable monthly as subsistence during the time training is pursued on the job. The uniform rate for an entire period of institutional and on-the-job training is $68.66 monthly computed as follows:

(School) 7/15 x $90	$42.00
(Job) 8/15 x $50	26.66
Sum (monthly rate of subsistence payable)	68.66 ($70.00)

In determining whether the proviso to paragraph 6 of the law will affect payments, the total income received from productive labor will also be apportioned over an entire period of reporting to determine whether the rate of the sum of subsistence and compensation from productive labor exceeds the $200 limitation imposed by the law. If during the eight weeks of on-the-job training the veteran receives $65 weekly, he has had as wages for productive labor a total of $520. During his seven weeks at school or college the veteran has had no income from wages. Therefore, the average compensation per week is $34.66 ($520 divided by 15 weeks), or $150.19 monthly ($34.66 times 4⅓ weeks per month) a rate of compensation which limits subsistence allowance to $49.81 per month.

(6) For veterans pursuing courses of instruction requiring as a part of such course the instructor to come to the veteran's own establishment, or farm (as in institution-on-farm courses), the number of clock hours of instruction which the trainee receives per week will determine the extent of the part-time course for the purpose of payment of subsistence allowance and tuition. Income from productive labor in this type of training in connection with the veteran's own farm will be represented by the income from the farm operations as developed by the accounting in the farm management course and as certified by the trainee and the instructor.

(7) Veterans pursuing courses of instruction wherein the veteran enrolls with the institution and receives his on-the-job portion of the course on a farm under an employer-trainer who has been secured by the Veterans Administration under a 1904 agreement will receive subsistence allowance under the criteria established for on-the-job training.

(e) In making initial adjustments in the rate of subsistence allowance to veterans pursuing courses on August 8, 1946 the following procedure will be followed:

(1) As trainee's reports of compensation for productive labor being distributed with each subsistence check dispatched in August, September and October are received in the regional office they will be reviewed for the purpose of determining whether an adjustment in the amount of subsistence allowance is in order and filed alphabetically in a special file. (See paragraph (e) (5) of this section.)

(2) Arrangements are being made for the appropriate disbursing office of the Treasury to provide each regional office with a run of addressograph plates of subsistence checks dispatched in October 1946 prepared on plain cards, 3 x 5 size if practical. These cards filed alphabetically will serve as a temporary diary file.

(3) Beginning on November 6, 1946, trainees' reports of compensation for productive labor will be reviewed, and where reports cover the complete period the diary card will be removed from the file. Payments to those veterans represented by cards remaining in the file on November 12, when the review must be completed, will be suspended. A mimeographed letter will be prepared by the regional office and forwarded to each veteran whose subsistence allowance payment is suspended informing him of the reason therefor and advising him that payments will not be resumed until a report is received concerning the rate of compensation, if any, received by him by reason of employment. An original and two carbon copies will be made of each letter, the original being dispatched to the veteran, the first carbon copy being forwarded to Finance Division appropriately stamped as a notice of suspension and the second carbon copy retained in Registration and Research for use in notifying Finance Division of the lifting of the suspension when such action is in order. As delinquent reports are received, Finance Division will be notified of the lifting of the suspension or of an adjustment when in order, in the rate of subsistence allowance payable.

(4) Where no amendment in subsistence allowance is in order upon the basis of the veteran's report or other evidence of compensation for productive labor the registration officer will mark the report "no amendment" and affix his initial and the date of his action.

(5) Amended authorizations on Form 1907c, when in order, will be made upon the basis of the monthly rate of compensation for productive labor as shown by the veteran's report for the period from August 8, 1946, through October 31, 1946. Reductions in the amount of subsistence allowance otherwise payable and discontinuance of subsistence allowance by reason of the receipt of compensation for productive labor will be upon the basis of the facts found in any case and without regard to the provisions of previous instructions, notably § 36.205 (c) (4). If the veteran submits a report of compensation received for productive labor in any of the months of August, September or October warranting a change in his rate of subsistence allowance amended authorization will be made in accordance with facts shown. The Veterans' Administration will endeavor to arrange collection of excess payments so as not to work undue hardships to the veterans concerned.

(6) Trainee's Report of compensation for productive labor will be filed in the veteran's R & E folder upon completion of the review.

(7) Discontinuance of payments of subsistence allowance to any veteran pursuing a course of training on the job where it is found by the Education and Training Section that his course fails to meet the standards of this amendment will be effective the date of notification by the Education and Training Section of its action. It will not be assumed by Registration and Research Section, in the absence of such a finding, that a course fails to meet the standards but in any case where it is concluded a question should be raised the case will be referred to the Education and Training Section for determination.

(8) For veterans now pursuing courses and who are receiving or are entitled to receive subsistence allowance under the provisions of existing instructions, authorizations for the period November 1, 1946 to the month of the review as provided in paragraph (g) of this section will be entered in the rate justified by the evidence in file, including the Trainee's Report of compensation for productive labor or an estimate furnished by him of his expected earnings.

(f) (1) In subsequent adjustments and new cases the rates of subsistence allowance payable under the proviso to paragraph 6 of the act will be determined for any periods upon the best available evidence including the veteran's estimate of anticipated compensation to be received from productive labor, his report of the actual compensation received during the immediately preceding period, the employer's certification as to the compensation paid during the immediately preceding period and/or that expected to be paid for the current period. The rate having thus been fixed will remain effective for the current period or until there is of record evidence warranting a change in rate. Changes in the rate will be effective in accordance with the facts found, but reductions in rate shall not be made effective prior to the first day of the calendar month in which the report is due or the first day of the calendar month in which the evidence warranting a reduction is received, whichever is the earlier.

(2) In the cases of veterans who initially enter a course of education or training or who re-enter a course subsequent to August 8, 1946, subsistence allowance payments will be authorized in the amounts warranted in accordance with foregoing.

(i) As to veterans entering or re-entering courses in schools, colleges and universities, managers are authorized to devise and distribute immediately a form for local use in securing a report of anticipated compensation from productive labor. Standard Form 7–1961 will be initially distributed as soon as available. Managers will instruct all institutions to require all veterans to execute Form 7–1961 or the temporary form on entering or re-entering a course. The institution will attach the form to the certificate of enrollment or re-enrollment and forward it to the regional office of the Veterans Administration promptly on the commencement or re-commencement of training. An authorization of subsistance allowance in any case will be upon the basis of the evidence concerning anticipated income from employment as shown by this report. If other evidence is in conflict therewith the matter will be referred to the training officer for reconciliation. For a reasonable period and until institutions are instructed to require the execution of such forms, subsistence allowance will not be withheld to veterans entering full-time courses in the absence of evidence indicating that subsistence allowance, in combination with compensation for productive labor will exceed $175 or $200 monthly as applicable. In any such cases there will be obtained through the appropriate training officer the report from the veteran within a sixty day period following his entrance into training and an adjustment made, if in order, according to the facts shown.

(ii) In case of veterans pursuing training in schools, colleges or universities, subsistence allowance will be authorized for the period covered by the enrollment and the rate determined in accordance with the foregoing in the absence of any subsequent evidence justifying an amendment in the rate. In cases of veterans in institutions operating on a term or semester basis a report will be required at intervals of not greater than once each term or semester showing compensation for productive labor. In all other institutional cases periodic reports will be required in accordance with paragraph (g) of this section.

(iii) For veterans entering or re-entering courses of training on the job, cooperative courses and institutional-on-farm courses, subsequent to August 8, 1946, subsistence allowance will not be authorized in the absence of evidence indicating the anticipated monthly compensation for productive labor. Pending the initial distribution of Form 7–1962, regional managers will take such action as is necessary to obtain a report from each veteran entering or re-entering such courses of training showing his anticipated compensation from productive labor. The report will make provision for certification by the employer as to the correctness of the report. For veterans entering or re-entering courses of training on the job in establishments appropriately approved on August 8, 1946, subsistence allowance will not be withheld pending recertification or disapproval of the course in accordance with the procedures set out in § 36.271. Upon the disapproval of any course, subsistence allowance will be discontinued to veterans enrolled therein and will not thereafter be authorized in the case of a veteran entering such a course. Current listings will be maintained showing disapproved courses and recertified courses for the guidance of Registration Officers.

(iv) Subsequent reports and adjustments of subsistence allowance will be made in these cases at four-month intervals in accordance with the provisions of paragraph (g), unless there is prior evidence requiring an adjustment.

(v) With each original notice of authorization of subsistence allowance (V. A. Form 7–506) there will be attached a notice to the veteran containing information similar to that provided in the notice enclosed in the checks for August, September and October 1946.

(g) (1) Following November 1, 1946, the case of each veteran pursuing on-the-job training, cooperative training or institutional-on-farm training who has applied for the payment of subsistence allowance will be reviewed at four-month intervals.

(2) Reports of compensation for employment and anticipated compensation will be required on Form 7–1963 at the end of the four-month period. Cases will be reviewed in accordance with the schedule based upon the terminal digit of the veteran's C-number as follows:

(i) All cases in which the C-number ends in 0 or 1 will be reviewed in January, May and September; ending in 2 or 3, will be reviewed in February, June and October; ending in 4, 5 or 6, will be reviewed in March, July and November; ending in 7, 8 or 9, in the months of April, August and December.

(3) Diary file with the name and C-number of each case to be reviewed under this paragraph will be set up and maintained in order to insure the receipt of the report and the review of the case in the appropriate months.

(4) Approximately fifteen days prior to the first day of the month in which the report is desired from the veteran, there will be forwarded to him Form 7–1963 on which he will make his report.

(i) Monthly report of wages from the employer-trainer will not be required after periodic reports are instituted under the provisions of this section.

(5) Review of cases of veterans pursuing courses in schools, colleges and universities will be in accordance with paragraph (f) (2) (iii) of this section.

(6) If in any case the report of the veteran on Form 7–1963 has not been received at the expiration of a period of ten days after its due date, the Finance Division will be requested to suspend payments on the subsistence allowance account and to hold the case in a suspended status pending execution and receipt of Form 1907c showing interruption or discontinuance, or receipt of notice from V. R. & E. Division to remove suspension.

(h) Effective dates of adjustments and discontinuances of subsistence allowance will be upon the basis of the facts found in any case (see paragraph (f) (1) and notwithstanding the provisions of previous instructions, notably § 36.205 (c) (4), and any over-payments created will be dealt with according to the effective procedures having to do with over-payments.

(i) (1) Where a course of training or education is discontinued and the reported compensation for productive labor plus subsistence allowance paid is in excess of the limitations of the law Form 1907c will be executed to amend and discontinue subsistence allowance according to the facts and without regard to § 36.205, as amended.

(2) In the case of a notice of an interruption of a course, Form 1907c will be executed to show an interruption only. If such a case remains in this status for longer than four months it will be classified as a discontinued case and necessary action taken accordingly.

The proposed transfer of control of the above-mentioned company is based upon an agreement of August 6, 1946, between the above indicated transferors and Laurence S. Bitner and Dominic J. Perri acting as purchasers. The contract provides for the sale of all the stock of the licensee (1,000 shares of Class A preferred and 1,000 shares of Class B common), at a stated purchase price of $200,000. Certain adjustments are detailed in the contract. Purchasers shall also pay the sellers in addition to the above purchase price the amount by which the assets (exclusive of fixed assets) exceed liabilities. In accordance with the procedure outlined in Rule 1.388 no action will be had upon the application for a period of 60 days from August 28, 1946, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract. VENETIAN BLINDS MADE WITH STEEL, WOOD OR FIBER SLATS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. *Purpose of this order.* Venetian blinds as set forth below have been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation 188. This order is issued under that section, and fixes new ceiling prices for sales of those articles by manufacturers by permitting them to increase their maximum prices properly established under certain provisions of Maximum Price Regulation 188, by a specified price increase factor.

This order also contains provisions establishing new maximum prices for all sellers other than manufacturers, of the article covered by this order.

SEC. 2. *Articles covered by this order.* The articles covered by this order are all venetian blinds made with steel, wood or fiber slats.

SEC. 3. *Manufacturers maximum prices*—(a) *Determination of maximum prices.* The maximum price for a sale of any of the articles covered by this order by a manufacturer shall be the higher of the applicable of the following:

(1) His maximum price properly established under Maximum Price Regulation No. 188 (exclusive of any permitted increase or adjustment) for sales to each class of purchaser increased by no more than 15 percent in the case of venetian blinds made with steel slats; and by no more than 20 percent in the case of venetian blinds made with wood or fiber slats.

(2) His adjusted maximum price to each class of purchaser properly established under the provisions of Supplementary Order 118.133, or Revised Supplementary Order No. 119 or any Office of Price Administration order other than this order.

(3) His maximum price to each class of purchaser established under Order No. 4332 or Revised Order 4332, under Maximum Price Regulation No. 188.

SEC. 4. *Maximum prices of purchasers for resale.* (a) The maximum price for a sale by a purchaser for resale of any of the articles covered by this Order shall be the amount of his supplier's invoice, plus the same percentage markup on that amount which he had on the 31st day of March 1946 the "most comparable article" for which he had a properly established maximum price on that date. For this purpose the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the articles being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the articles being priced belong to a class of articles to which, according to customary trade practices an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

(a) The determination of a maximum price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620–759, with regard to how he determines his maximum resale price. These records shall be kept available for inspection by the Office of Price Administration for as long as the Emergency Price Control Act of 1942, as amended remains in effect.

(b) If a purchaser for resale cannot determine his maximum price under (a) above, he shall apply to the Office of Price Administration for the establishment of his maximum price under § 1499.3 (c) of the General Maximum Price Regulation. A maximum price established in this way will be in line with prices established generally under this order.

SEC. 5. *Notification to purchasers for resale.* At the time of, or prior to, the first invoice to each purchaser for resale showing a price adusted in accordance with this order, the seller shall notify the purchaser in writing that he must determine his maximum resale prices for articles covered by this order under section 4 of Order No. 18 under § 1499.159e of Maximum Price Regulation No. 188.

SEC. 6. *Terms of sale.* Every seller of an article covered by this order must maintain all of his terms, discounts, allowances, and other price differentials in effect during March 1942, or which have been subsequently properly established under Office of Price Administration regulations or orders.

A wholesaler or retailer who did not sell venetian blinds during March 1942, or whose discounts, allowances, terms and other conditions of sale have not been thereafter established under OPA regulations, shall allow the same cash discounts, deliver terms, allowances, and other price differentials which his closest competitor, who was distributing venetian blinds during March 1942, is required to allow in accordance with the provisions of this order.

A wholesaler or retailer who cannot ascertain the cash discounts, delivery terms, etc., which his nearest competitor is required to allow, shall apply to the nearest District Office of the Office of Price Administration for an order under this section, establishing the conditions to which his ceiling prices are subject. Such application may be by letter and shall state the type of business he is operating (wholesaler, retailer) when he started to sell venetian blinds and the class of purchasers to whom he sells. An order will be issued under this section establishing the terms, allowances and other price differentials and conditions of sale in line with the conditions of sale generally fixed by this order.

If a wholesaler or retailer who does not have ceiling prices or who did not sell venetian blinds during March 1942 and does not allow the same discounts, delivery terms and other price differentials allowed by his nearest competitor who did sell venetian blinds during March 1942, does not file an application in accordance with the provisions of this order, or if he fails to provide any of the information required by this order, the Price Administrator may, on his own motion, issue orders under this section fixing ceiling prices, discounts, allowances and other price differentials in line with such conditions of sale fixed by this order. Conditions of sale so established will apply to all sales and deliveries made on and after September 10, 1946.

SEC. 7. *Compliance with this order*—(a) *No buying or selling at over ceiling prices.* Prices established by this order are ceiling prices. Prices lower than ceiling prices may be charged and collected at any time. However, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any of the articles covered by this order at a price higher than the ceiling price fixed by this order or before the manufacturer has properly determined his ceiling price under this order.

If, in violation of this provision, a sale, offer to sell, or delivery of any venetian blind is made before its ceiling price has been properly established in accordance with this order, the ceiling price applicable to the sale, offer to sell, or delivery shall be the correct ceiling price for each venetian blind properly determined in accordance with this order.

(b) *Certain practices forbidden.* It shall be a violation of this order to charge a price above the applicable ceiling price in connection with any sale, either alone or in conjunction with any other consideration, even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of venetian blinds to make payment over a period of time; to require him to finance the purchaser through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the article's ceiling price; to require him to purchase any other commodity or service; or to require him to make payment in whole or part by exchanging, transferring or trading in any other venetian blinds or other commodity. Where there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the commodity exchanged, transferred or traded in, which is less than its reasonable value.

SEC. 8. *Credit charges on dealers sales.* Charges for the extension of credit may be added to the retail ceiling prices established by this order or by any order issued under this order unless otherwise provided. No such credit charge may exceed that permitted by this section.

(a) Dealers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of venetian blinds may collect a charge for the extension of credit on sales under this order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Dealers who did not then so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by dealer's closest competitor who made such a separately stated charge.

An installment plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this section shall, for the purpose of this order, be considered to be part of the price charged for the article sold.

(c) No dealer may require as a condition of sale that the purchaser must buy on credit.

(d) "Dealer" refers to a person making sales at retail as defined in the General Maximum Price Regulation.

SEC. 9. *Definition.* Unless otherwise defined herein or the context otherwise requires, the definitions contained in the General Maximum Price Regulation, and Maximum Price Regulation 188 whichever is applicable, shall apply to all terms used herein.

(b) *Quantity discounts.* No seller shall reduce or discontinue any discount for purchases in quantity which he offered in March 1942.

(i) A suitable title shall be provided for all documents as prescribed in § 2.42 or § 2.61 (d).

(j) Authority for the issuance of documents shall be cited as provided for in § 2.53 or § 2.61 (e).

(k) The inclusion of illustrations, maps, forms, excessive tabular material, and similar material as part of the documents results in delay in publication and should be avoided wherever possible. Where it is necessary to publish maps and illustrations they shall be reduced to a size not greater than 7 by 10 inches and be line cuts only. In such cases original drawings must be forwarded to the Division three working days in advance of submission of the text of the documents to which they pertain. Tabular material comprising more than two legal typewritten pages must be forwarded at least three working days in advance of the regular submission day as set forth in § 2.81.

§ 2.12 *Certification.* The copies of all documents required to be filed in the office of the Director except Executive orders and other Presidential documents, shall be certified substantially as follows: "Certified to be a true copy of the original," and each such certification shall be signed by the officer signing the original or by an officer or employee designated by him: *Provided,* That notice of such designation shall be submitted in writing to the Director.

§ 2.13 *Documents issued outside the District of Columbia.* In the case of documents issued, prescribed, or promulgated outside the District of Columbia which are required to be filed in the office of the Director there may be filed, in lieu of the original, a confirmed copy of such document. There shall be on such copy so filed the notation "Confirmed," which notation shall be signed by an officer or employee designated for that purpose by the head of the agency concerned: *Provided,* That notice of such designation shall be submitted in writing to the Director.

PREPARATION OF EXECUTIVE ORDERS AND PROCLAMATIONS

§ 2.15 *Proposed Executive orders and proclamations.* The preparation, presentation, filing and distribution of Executive orders and Presidential proclamations shall conform to the requirements of Executive Order 7298 dated February 18, 1936, which provides:

"(b) The proposed Executive order or proclamation shall first be submitted to the Director of the Bureau of the Budget. If the Director of the Bureau of the Budget approves it, he shall transmit it to the Attorney General for his consideration as to both form and legality. If the Attorney General approves it, he shall transmit it to the Director of the Division of the Federal Register, The National Archives. If it conforms to the requirements of paragraph (a) hereof, the Director of the Division of the Federal Register shall transmit it and three copies thereof to the President. If it is disapproved by the Director of the Bureau of the Budget or the Attorney General, it shall not thereafter be presented to the President unless it is accompanied by the statement of the reasons for such disapproval.

"(c) If the order or proclamation is signed by the President, the original and two copies thereof shall be forwarded to the Director of the Division of the Federal Register for appropriate action in conformity with the provisions of the Federal Register Act: *Provided, however,* That the seal of the United States shall be affixed to the originals of all proclamations prior to such forwarding. The Division of the Federal Register shall cause to be placed upon the copies of all Executive orders and proclamations the following notation, to be signed by the Director or by some person authorized by him: 'Certified to be a true copy of the original.' The Division of the Federal Register shall number and shall supervise the promulgation, publication, and distribution of all Executive orders and proclamations.

PREPARATION OF DOCUMENTS SUBJECT TO CODIFICATION

GENERAL

CROSS REFERENCE: For definition of documents subject to codification, see § 2.1 (j).

§ 2.21 *General provisions.* (a) All documents subject to codification, except Executive orders and other Presidential documents, shall be prepared in accordance with the provisions of §§ 2.11–2.13 and §§ 2.22–2.58 prior to being submitted to the Division for filing and publication in the FEDERAL REGISTER.

(b) Where regulations expire after a specified period by their own terms or by operation of law, notification of such expiration shall be given by the filing of a document in the office of the Director.

§ 2.22 *Letter of transmittal*—(a) *Contents.* Accompanying each document subject to codification shall be a letter of transmittal addressed to the Director. There shall be set forth in this letter (1) specific identification of the document, (2) the desired publication date (see § 2.83), (3) the category or categories specified in § 2.23 under which the document is considered to fall, (4) any additional information the agency deems necessary and appropriate.

(b) *Copies.* The original of the transmittal letter shall be attached to the original and a copy to each copy of the document submitted.

§ 2.23 *Categories under Administrative Procedure Act.* (a) For purposes of publication in the FEDERAL REGISTER, the material specified in sections 3 (a) and 4 (a) of the Administrative Procedure Act is divided into the following categories:

(1) Organization.
(2) Procedure.
(3) Substantive rules, policy statements, or interpretations.
(4) Proposed rules.

(b) The particular parts of the Administrative Procedure Act to which the various categories refer are as follows:

Category (1)—Section 3 (a) (1).
Category (2)—Section 3 (a) (2).
Category (3)—Section 3 (a) (3).
Category (4)—Section 4 (a).

§ 2.24 *Statements of general policy and interpretations.* (a) Where a statement of general policy or interpretation, submitted pursuant to section 3 (a) (3) of the Administrative Procedure Act, applies to an entire part it should be appended to that part. Similarly, where a statement of policy or interpretation applies to a specific section it should be appended to that section. All such statements and interpretations should be numbered in a manner conducive to facility of citation and amendment.

(b) Statements of policy and interpretations of broader scope should be assigned to a part or group of parts within the chapter affected.

§ 2.25 *Code structure.* The normal divisions of the code are titles, chapters, parts, and sections. Other breakdowns, used where necessary, are subtitles, subchapters, and subparts.

(a) *Titles.* The major divisions of the code are 50 titles closely paralleling the titles in the United States Code.

(b) *Chapters.* The normal divisions of titles are chapters, which are assigned to the various agencies within titles descriptive of the subject matter covered by the agencies' rules and regulations.

(c) *Parts.* The normal divisions of chapters are parts. A part should consist of a unified body of rules or regulations applying to a specific function of the issuing agency or devoted to specific subject matter under control of the issuing agency. For example:

PART 1—ORGANIZATION
PART 301—INSURANCE OF ACCOUNTS
PART 256—RIGHTS-OF-WAY OVER INDIAN LANDS

Parts are normally assigned to chapters as follows: Chapter I, Parts 1 to 199; Chapter II, Parts 200 to 299; Chapter III, Parts 300 to 399; etc.

(d) *Sections.* The normal divisions of parts are sections.

(e) *Subtitles.* Subtitles may be used to distinguish between material emanating from the office of the head of an agency, and the material issued by the various bureaus of the agency.

(f) *Subchapters.* Where it is desirable to group related parts within a chapter under a common head subchapters may be used for the purpose of such grouping.

(g) *Subparts and undesignated center heads.* Where it is desirable to group related sections within a part under a common head, subparts or undesignated center heads may be used for the purpose of such grouping. Undesignated center heads may also be used to group sections within a subpart.

NUMBERING

§ 2.31 *Major divisions of the code*—(a) *Titles.* Titles are numbered consecutively in Arabic from 1 to 50.

(b) *Chapters.* Chapters are numbered consecutively throughout each title in Roman capitals.

(c) *Parts.* (1) Parts are numbered serially in Arabic throughout each title.

(2) If the necessity arises for introducing a new part between existing parts the new part shall be designated by the addition of a lower case letter to the preceding part number. Thus a part introduced between Parts 31 and 32 would be numbered Part 31a.

(d) *Sections.* The method of section numbering is prescribed in §§ 2.33 and 2.34.

(e) *Subtitles, subchapters and subparts.* Subtitles, subchapters, and subparts are lettered consecutively in capitals throughout the title, chapter and part, respectively.

§ 2.32 *Method of grouping related parts and related sections.* Where related parts or related sections are grouped as provided for in § 2.25 (f) and (g) sufficient unused numbers should be allocated at the end of each group or between units within the group for probable future expansion.

§ 2.33 *Section numbering*—(a) *Normal method.* The numbers assigned to individual sections within a part shall include (1) the number of the part in which the section is placed followed by

a decimal point, and (2) the serial number following the decimal point assigned to the section within the part. Such serial number may consist of one or more digits in Arabic as may be required. Thus, the section number to be given section 15 within Part 30 would be § 30.15.

(b) *Keying system.* In cases where it is desired or requested by the agency, the serial numbers following the decimal point may correspond with a particular section numbering system which is in use by the agency: *Provided*, That written approval for the use of such system shall be obtained from the Director. For example, assuming that Part 29 embraces Regulations 111 of the Bureau of Internal Revenue, the section numbering of the Bureau of Internal Revenue which corresponds with the articles and sections of the Internal Revenue Code, could be followed. Thus, the section relating to section 113 (b) (1)–3 would be numbered § 29.113(b) (1)–3.

(c) *Addition of new material.* When it is necessary to add new sections to an existing part, which, because of their subject matter, must be inserted between two existing sections, such sections should be numbered by adding lower-case letters as part of the section numbers. Thus, if it is found necessary to insert a section or sections between two existing sections bearing the numbers § 30.5 and § 30.6, the first of the new sections would be numbered § 30.5a, and each succeeding new section § 30.5b, § 30.5c, etc. Later if it is found necessary to add a new section between two of these sections, an Arabic number should be added, separated from the lower-case letter by a dash. Thus, a new section to be added between § 30.5a and § 30.5b would be numbered § 30.5a–1.

§ 2.34 *Internal numbering of sections.* (a) Sections should be internally numbered whenever the lack of such numbering would result in difficulty or ambiguity of citation. In internal numbering, sections may be subdivided into paragraphs, designated by lower-case letters in parentheses; paragraphs into subparagraphs, designated by Arabic numerals in parentheses; subparagraphs into subdivisions, designated by lower-case Roman numerals in parentheses; and subdivisions into inferior subdivisions, designated by lower-case italic letters in parentheses; thus:

Terminology	*Illustrative symbol*
Paragraph	(a)
Subparagraph	(i)
Subdivision	(1)
Inferior subdivision	(*a*)

This internal numbering system is to to be applied in all cases to indicate necessary breakdowns within a section. Consequently, the first breakdown, of whatever character, is represented as a paragraph by using a lower-case letter in parentheses. Further breakdowns which may be necessary are designated as subparagraphs, etc., and represented by the appropriate alphabetical or numerical symbols indicated in this section.

(b) When it is necessary to add material which would constitute a new internal division of a section, paragraph, etc., the entire section, paragraph, etc., shall be amended unless the new material is to be added following the existing internal divisions of the section, paragraph, etc. It is not desirable to add new material by giving it a former internal division number, thus necessitating a change in all other internal division numbers.

HEADINGS

§ 2.41 *Required headings.* The proper title, chapter, and part designation, in that order, shall be set forth in full on separate lines at the head of each document. Subtitles, subchapters and subparts also shall be set forth if used. Agencies using regulation numbers or other identifying symbols shall place them in brackets centered immediately above the part designation.

§ 2.42 *Additional summary of contents.* A brief title more specifically setting forth the scope of a document constituting a partial amendment of the material within a part shall be provided immediately below the part head.

§ 2.43 *Use of tables of contents.* Tables of contents shall be used when a new part is introduced or an existing part is completely revised, and when a group of sections is revised and set forth as a subpart or otherwise separately grouped. These tables shall be set forth preceding the text of the rules or regulations and shall list the headnotes for the sections to which they are applicable. Headnotes for paragraphs and other internal divisions of sections ordinarily should not be included in the tables of contents.

§ 2.44 *Composition and use of headnotes*—(a) *Parts.* A part head should indicate briefly the general subject matter of the material appearing in the part. The use of phrases such as "Regulations under the act of July 26, 1935" or other expressions which do not describe the subject matter should be avoided in part heads.

(b) *Sections.* (1) All sections shall be given headnotes which adequately and briefly describe the contents of the sections.

(2) Headnotes are not required for internal divisions of sections but may be used if they add to the sense or clarity of the text. If a headnote is used for one internal division, headnotes shall also be supplied for all other internal divisions of the same rank. Thus, if a headnote is used for one paragraph, subparagraph, etc., all paragraphs, subparagraphs, etc., within the section shall be given headnotes.

CITATIONS

§ 2.51 *References to Federal Register.* Without prejudice to any other mode of citation, the contents of the Federal Register may be cited by volume and page number. The approved short form is "F.R." Thus 11 F.R. 1248 refers to material beginning on page 1248 of volume 11 of the daily issues.

§ 2.52 *References to code*—(a) *Form of citation.* (1) The code shall be cited CFR. Thus the citation 1 CFR 2.1 refers to § 2.1 of Title 1, as amended.

(2) Where it is desired to cite to material appearing in a specific supplement the following form shall be used: 1 CFR, 1941 Supp., 2.1, or, 1 CFR, Cum. Supp., 2.1.

(3) If a group of regulations are referred to by subject matter or popular name, the appropriate code citation shall also be given. For example, "In accordance with the International Rules for preventing collisions at sea (33 CFR Part 301)."

(b) *References within a title.* (1) Although the mode of citation prescribed in paragraph (a) of this section may be used in all cases, when it is necessary to refer in the text of regulations to other chapters, parts, or sections within a title, the following forms of citation should be used:

Reference	*Citation*
Chapter	Chapter II of this title.
Part	Part 30 of this chapter.
Section	§ 30.19 of this chapter.
Paragraph	§ 30.19 (a) of this chapter.
Subparagraph	§ 30.19 (a) (2) of this chapter.
Multiple	§§ 30.19, 30.21–30.25 of this chapter.

(2) Where reference is made to another section in the same part, such reference shall be made by section number only.

(3) In cases of internal reference within a section, paragraph, etc., the following forms shall be used:

(i) Where the internal reference is to a specific paragraph or subdivision thereof:

of (or in) paragraph (a) of this section.
of (or in) paragraph (a) (1) of this section
of (or in) subparagraph (1) of this paragraph.
of (or in) subparagraph (1) (i) of this paragraph.
of (or in) subdivision (i) of this subparagraph.

(ii) Where the internal reference is to an entire section, paragraph, etc., in which the reference occurs:

of (or in) this section.
of (or in) this paragraph, etc.

(4) The use of the term "these regulations" within a codified body of regulations is often ambiguous. In place thereof the following shall be used: "The regulations in this chapter (subchapter, part, subpart, section)" according to the specific meaning.

§ 2.53 *Citation of authority, general.* There shall be cited for all rules and regulations the authority, statutory or otherwise, under which they are issued. These citations shall be carried at the end of completed sections as provided in § 2.57 or as a blanket citation in accordance with the provisions of § 2.58. In statutory citation, the exact page or pages on which the language referred to begins, and the section or sections in which the language appears, should be given. If the entire act is to be cited, the first page of the act should be cited.

§ 2.54 *Statutory authority; form; parallel United States Code citation.* (a) Where statutes or particular sections of statutes are cited as authority, such citations shall be in the following form:

Revised Statutes	R. S. 161.
Statutes at Large, entire act.	38 Stat. 586.
Statutes at Large, specific section.	Sec. 1, 38 Stat. 586.

(b) The statutory citation shall be followed by the parallel United States Code citation wherever possible. In citing the United States Code, citations of titles and sections shall be as follows:

(1) Where language cited is in the 1940 edition.	46 U. S. C. 1242.
(2) Where language cited is in supplements.	46 U. S. C., Sup., 1242.
(3) Where language cited is in both 1940 edition and supplement.	46 U. S. C. and Sup., 1242.

The number of the particular supplement need not be used except in unusual cases where the language cited is contained only in a particular supplement. In such case, the form is: 46 U. S. C., Sup. I, 1242.

(c) The form for a full citation of authority is:

SINGLE CITATION

Sec. 1, 44 Stat. 752; 48 U. S. C. 221.
Sec. 1, 49 Stat. 500; 44 U. S. C., Sup., 301.
Sec. 5, 56 Stat. 770; 50 U. S. C. App., Sup., 525.

MULTIPLE CITATION

In citing more than one statute or more than one section, the statutory citations should be grouped together and followed by the corresponding United States Code citations grouped together, thus:

Sec. 23, 29 Stat. 892, sec. 24, 43 Stat. 162; 8 U. S. C. 102, 122.
Sec. 5 (b), 40 Stat. 415, 968, sec. 2, 48 Stat. 1, sec. 1, 54 Stat. 179, sec. 301, 55 Stat. 839; 12 U. S. C. 95a, 50 U. S. C. App., Sup., 5 (b).

(d) As indicated, citations shall be to the volume and page numbers of the Statutes at Large, and acts of Congress should not be cited by Public Law numbers alone. However, where reference is made to a recently enacted statute, it is desirable to cite the public law number as well as the Statutes at Large when the bound volumes of the Statutes at Large have not yet been made available for distribution. For example (Pub. Law 374, 79th Cong.; 60 Stat. 160).

§ 2.55 *Statutes interpreted or applied.* Where in addition to the statutes delegating the rule-making power, it is desired to cite statutes interpreted or applied, the citation of the rule-making power should precede as in the following example:

Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 162; 8 U. S. C. 102, 222: interprets (or applies) sec. 18, 39 Stat. 887; 8 U. S. C. 154.

§ 2.56 *Authority other than statutory; form; parallel citation.* (a) Where Presidential or agency documents are cited as authority for issuance of rules or regulations, such citations shall be in the following form:

Executive orders	E. O. 9017, Jan. 12, 1942, 7 F. R. 237.
Proclamations	Proc. 2523, Nov. 14, 1941, 6 F. R. 5821.
Agency document	Policy Directive, Office of Economic Stabilization, May 12, 1943, 8 F. R. 6490, Administrative Order, War Manpower Commission, Dec. 5, 1942, 7 F. R. 10512.

(b) The Presidential or agency document citation shall be followed by the parallel Code of Federal Regulations citation, where available, as in the following example:

E.O. 9017, Jan. 12, 1942, 7 F.R. 237; 3 CFR Cum. Supp. Regulations, Office of Economic Stabilization, Oct. 27, 1942, 7 F.R. 8748; 32 CFR, Cum. Supp., Part 4001.

§ 2.57 *Authority where blanket citation is not used.* When it is not feasible to use a blanket citation as prescribed in § 2.58, the citation of authority should be carried in parentheses at the end of completed sections and in the forms prescribed in § 2.54 and § 2.55.

§ 2.58 *Blanket citation of authority*—(a) *Purpose.* The purpose of the blanket citation, i. e., a single citation covering a group of sections, is to eliminate the necessity of repeating a full citation of authority, as provided in § 2.57, at the end of each section in the group.

(b) *Requisites for use; exceptions.* Blanket citations should be used for groups of three or more complete sections having identical citations. Blanket citations should be used also for a large group of sections the majority of which are issued under the same authority. The exceptions should be shown as provided in paragraph (d) (2) of this section.

(c) *Placement of blanket citation.* A blanket citation of authority shall be inserted immediately preceding the first section in the series which the citation covers.

(d) *Form*—(1) *No exceptions.* Where all sections covered by a blanket citation have an identical citation, the form for the citation is as follows:

AUTHORITY: §§ ---- to ----, inclusive, issued under sec. 6, 49 Stat. 501; 44 U. S. C. 306.

(2) *Exceptions.* Where certain sections within the group covered by a blanket citation are issued under authority other than that cited in the blanket, the form is:

AUTHORITY: §§ ---- to ----, inclusive (with the exceptions cited in parentheses following sections affected), issued under sec. 6, 49 Stat. 501; 44 U. S. C., Sup., 306.

(3) *More specific or additional authority; sections interpreted or applied.* Where more specific or additional authority for the issuance of rules or regulations is cited, or statutes interpreted or applied, are cited for particular sections in the group covered by the blanket, appropriate language shall be added to the language prescribed in subparagraphs (1) and (2) of this paragraph. For example:

AUTHORITY: §§ ---- to ----, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 162; 8 U. S. C. 102, 222. Statutes interpreted or applied and statutes giving special authority are cited in parentheses at the end of affected sections.

PREPARATION OF DOCUMENTS NOT SUBJECT TO CODIFICATION

§ 2.61 *Documents for notices section.* Except documents subject to codification all documents required to be filed in the office of the Director and published in the FEDERAL REGISTER shall, after conformation to the provisions of §§ 2.11 and 2.12, be further prepared as follows:

(a) The name of the issuing agency shall be carried at the head of the document.

(b) Where a document is issued by or for a specific bureau or similar unit within a Department, the name of such bureau or similar unit shall be carried on a separate line immediately below the heading required in paragraph (a) of this section.

(c) Agencies using file numbers, docket numbers, or similar identifying symbols, shall place them in brackets on a separate line immediately following the headings required by paragraphs (a) and (b) of this section.

(d) A suitable short title shall be provided beginning on a separate line immediately following the other required heading or headings. In addition to the short title, the submitting agency shall include, wherever practicable, a brief headnote or similar indicia of contents, briefly summarizing or otherwise setting forth the scope of the document. Where a table of contents is used, all references therein shall be made to paragraph or section numbers throughout the document.

The following examples illustrate suitable short titles and headnotes for documents not subject to codification:

(1)

SEABOARD POWER & LIGHT CO.

NOTICE OF AND ORDER FOR HEARING

(2)

UNITED CLAY PRODUCTS CO.

ADJUSTMENT OF MAXIMUM PRICES

(3)

ROCHESTER, N. Y., AREA

(4)

(e) The statutory or other proper authority under which the document is issued should be cited in the body thereof. Such citations should not be carried in the short title and headnote. For form of citations in general see § 2.53.

TITLE 20—EMPLOYEES' BENEFITS

Chapter IV—Employees' Compensation Appeals Board, Federal Security Agency

PART 501—REGULATIONS GOVERNING APPEALS

Sec.
501.1 Establishment of Appeals Board, jurisdiction.
501.2 Filing of appeals; forms, time limitation.
501.3 Procedure in respect of appeals.
501.4 Action upon appeal.
501.5 Finality of decision; reconsideration.
501.6 General provisions.
501.7 Representatives of parties in interest; fees.

AUTHORITY: §§ 501.1 to 501.7, inclusive, issued under Reorganization Plan No. 2 of 1946, effective July 16, 1946.

§ 501.1 *Establishment of Appeals Board; jurisdiction.* (a) Pursuant to direction and under the authority contained in Reorganization Plan No. 2 of 1946, effective July 16, 1946, the Federal Security Administrator has established in the Office of Special Services of the Federal Security Agency, an Employees' Compensation Appeals Board. Such Board consists of three members appointed by the Administrator, one of whom is designated as Chairman of the Board and administrative officer.

(b) The Board shall, in accordance with rules approved by the Federal Security Administrator, have jurisdiction to consider and decide appeals from the final decision, with findings of fact and award, of the Bureau of Employees' Compensation of the Agency, in any case arising under the United States Employees' Compensation Act, or arising under any statutory extension or application of such act. Appeals may also be taken from final determinations of the Bureau of Employees' Compensation involving the exercise of discretion but only if based upon the ground of abuse of, or refusal to exercise, discretion. There shall be no appeal in respect to any interlocutory matter disposed of by such Bureau during the pendency of a compensation case.

(c) The decision upon appeal by the Board shall be final as to the subject matter appealed, and such decision shall not be subject to review, except by the Board.

(d) The jurisdiction of the Board shall extend to review of questions of law and fact within the purview of the United States Employees' Compensation Act, or extension thereof, and the review of a case shall be made upon the findings of fact and the action of the Director of the Bureau of Employees' Compensation taken pursuant to section 36 of such act (5 U. S. C. 786), and upon the particular case record in such Bureau of Employees' Compensation.

§ 501.2 *Filing of appeals; forms, time limitation.* (a) The jurisdiction of the Board shall be invoked by the filing (in duplicate) with the Board of an application for review of the action of the Director of the Bureau of Employees' Compensation, in such form as the Board shall prescribe, but failure to use any form so prescribed shall not bar such review, if the informal application should be perfected so as to disclose the ground of the appeal.

(b) Such application should set forth, succinctly, the ground or grounds of the appeal in relation to the findings of fact and action of such Director, or in relation to any alleged abuse of (or refusal to exercise) discretion, including the ground of failure to make material or necessary findings of fact. Such application may be filed directly with the Board which is located in the Federal Security Building, Fourth and Independence Avenue SW., Washington 25, D. C., or with the Bureau of Employees' Compensation; 285 Madison Avenue, New York 17, New York.

(c) Application for review by the Board shall be filed within 90 days from the date of issuance of the findings of fact and action thereon by such Director, if the applicant resides within continental United States or Canada, or within six months from such date, if the applicant resides outside of continental United States or Canada. For good cause shown, the Board may excuse failure timely to file such application, if the application is filed within one year after the date of issuance of the findings of fact and award. In appeals predicated upon allegation of abuse of, or failure to exercise, discretion the application for review shall be filed as promptly as the circumstances permit following the action complained of; and the Board shall have the discretion to deny any appeal upon such ground if, in the opinion of the Board, there has been undue delay in seeking review.

(d) The application for review shall be filed by the person affected by the findings of fact and award of the Director, or by a representative duly authorized to act on his behalf. In cases involving abuse of, or failure to exercise, discretion, the application shall be filed by the person directly affected thereby or by a representative duly authorized to act on his behalf.

§ 501.3 *Procedure in respect of appeals.* (a) The Board shall serve upon the Director of the Bureau of Employees' Compensation a copy of each application for review, together with any supporting memorandum or brief which may be filed, and the Director, or his representative, promptly, and in no case later than 30 days after receipt of such copy, shall file with the Board the record of the case and such justification of the award as he may consider necessary, but upon application by the Director, such time may in the discretion of the Board be extended. Issues to be considered by the Board shall be settled by the Board, or any member thereof, and thereafter the case shall be calendared for hearing. The Board on its own motion may include issues other than those raised in such application.

(b) Notice of hearing shall be sent by the Board to such Director and to all parties in interest. Hearing shall be set upon such notice as will afford adequate opportunity to be present, but shall not be set earlier than 10 days from the date of the notice, unless waiver of such notice is filed. Any person whose rights may be affected by the action of the Board shall, upon application, be permitted to intervene as a party in interest.

(c) Hearings shall be conducted informally. The parties in interest, including the Director, shall have opportunity to present oral or written arguments, directly, or by representatives.

(d) Hearings will be conducted in respect to issues previously settled; and any party confronted with an issue as to which he has not received at least 10 days' notice may be granted a continuance with respect to a hearing of such issue.

(e) The Board shall exercise its discretion in such matters as the granting of continuances, acceptance of briefs, and routine matters, consistent with the prompt dispatch of its business.
